Arthur S. Lothstein, Michael Brodrick

From Emerson To King Democracy Race And The Politics Of Protest:

From Emerson to King Anita Haya Patterson, 1997-06-26 This book traces a provocative line from Emerson's work on race reform and identity to work by three influential African American thinkers W E B Du Bois Martin Luther King Jr and Cornel West each of whom offers subtle engagement with both the tradition of written protest and the critique of liberalism Emerson shaped Emerson has been cast in recent debate as either an antinomian or an ideologue as either subversive of institutional controls or indebted to capitalism Here Patterson contributes a more nuanced view probing Emerson's record and its cultural and historical matrix to document a fundamental rhetoric of contradiction a strategic aligning of opposed political concepts that enabled him to both affirm and critique elements of the liberal democratic model Drawing richly on topics in political philosophy law religion and cultural history Patterson examines the nature and implications of Emerson's contradictory rhetoric in parts I and II In part III she considers Emerson's legacy from the perspective of African American intellectual history identifying fresh continuities and crucial discontinuities between the canonical strain of protest writing Emerson helped establish and African American literary and philosophical traditions

A Political Companion to Ralph Waldo Emerson Alan M. Levine, Daniel S. Malachuk, 2011-09-16 From before the Civil War until his death in 1882 Ralph Waldo Emerson was renowned and renounced as one of the United States most prominent abolitionists and as a leading visionary of the nation's liberal democratic future Following his death however both Emerson's political activism and his political thought faded from public memory replaced by the myth of the genteel man of letters and the detached sage of individualism In the 1990s scholars rediscovered Emerson's antislavery writings and began reviving his legacy as a political activist A Political Companion to Ralph Waldo Emerson is the first collection to evaluate Emerson's political thought in light of his recently rediscovered political activism What were Emerson's politics A Political Companion to Ralph Waldo Emerson authoritatively answers this question with seminal essays by some of the most prominent thinkers ever to write about Emerson Stanley Cavell George Kateb Judith N Shklar and Wilson Carey McWilliams as well as many of today's leading Emerson scholars With an introduction that effectively destroys the pernicious myth about Emerson's apolitical individualism by editors Alan M Levine and Daniel S Malachuk this volume reassesses Emerson's famous theory of self reliance in light of his antislavery politics demonstrates the importance of transcendentalism to his politics and explores the enduring significance of his thought for liberal democracy Including a substantial bibliography of work on Emerson's politics over the last century A Political Companion to Ralph Waldo Emerson is an indispensable resource for students of Emerson American literature and American political thought as well as for those who wrestle with the fundamental challenges of democracy and liberalism

New Morning Arthur S. Lothstein, Michael Brodrick, 2008-08-21 Essays and poems explore the contemporary relevance of Emerson's work and thought

Emancipating Pragmatism Michael Magee, 2004-04-12 A daring and innovative study that rewrites the story of American pragmatism Emancipating Pragmatism is a radical rereading of Emerson that posits African

American culture literature and jazz as the very continuation and embodiment of pragmatic thought and democratic tradition It traces Emerson s philosophical legacy through the 19th and 20th centuries to discover how Emersonian thought continues to inform issues of race aesthetics and poetic discourse Emerson s pragmatism derives from his abolitionism Michael Magee argues and any pragmatic thought that aspires toward democracy cannot

Imagining Equality in Nineteenth-Century American Literature Kerry Larson,2008-11-20 The theme of inequality has often dominated academic criticism which has been concerned with identifying analyzing and demystifying various regimes of power and the illicit hierarchies upon which they are built Studies of the United States in the nineteenth century have followed this trend in focusing on slavery women s writing and working class activism Kerry Larson advocates the importance of looking instead at equality as a central theme viewing it not as an endangered ideal to strive for and protect but as an imagined social reality in its own right one with far reaching consequences In this original study he reads the literature of the pre Civil War United States against Tocqueville s theories of equality Imagining Equality tests these theories in the work of a broad array of authors and genres both canonical and non canonical and in doing so discovers important themes in Stowe Hawthorne Douglass and Alcott

Emerson Lawrence Buell,2004-09-30 Examining the long shadow cast by Emerson and his role and significance as a truly American institution Buell conveys both the style and substance of Emerson s accomplishment in his conception of America as the transplantation of Englishness into the new world and in his prodigious work as writer religious thinker and philosopher

The Voice of Violence Joel P. Rhodes,2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era s activism particularly its political violence based on more local studies

Dispatches from the Color Line Catherine R. Squires,2007-07-05 When modern news media choose to focus attention on people of multiracial descent how does this fit with broader contemporary and historical racial discourses Do these news narratives complicate common understandings of race and race relations Dispatches from the Color Line explores

these issues by examining contemporary news media coverage of multiracial people and identities Catherine R Squires looks at how journalists utilize information from many sources including politicians bureaucrats activists scholars demographers and marketers to link multiracial identity to particular racial norms policy preferences and cultural trends She considers individuals who were accused rightly or wrongly of misrepresenting their racial identity to the public for personal gain and also compares the new racial categories of Census 2000 as reported in Black owned Asian American owned and mainstream newspapers These comparisons reveal how a new racial group is framed in mass media and how different media sources reinforce or challenge long standing assumptions about racial identity and belonging in the United States **Race and the**

Héctor P. García Michelle Hall Kells, 2006 **America's England** Christopher Hanlon, 2013-03-04 The wealth of transatlantic scholarship to emerge in recent years has greatly enriched our understanding of the mutual far-reaching cultural exchange between Great Britain and the United States Yet scholars often lose sight of this relationship in the years immediately leading up to the outbreak of the Civil War Drawing on a capacious array of travel narratives novels poems political scuffles and more Christopher Hanlon's innovative study examines the patterns of affiliation through which U S culture encoded the turmoil of antebellum America in terms of imagined connections with England Through engagement with contemporaneous renditions of English race history landscape aesthetics telecommunications and economic discourse America's England reveals how northern and southern partisans re-imagined the terms behind their antagonisms forming a transatlantic surround for the otherwise cisatlantic political struggles that would dissolve the Union in 1861 Among other ramifications the re-conceptualization of sectional issues in transatlantic terms undermined the notion that white citizens of

the United States formed a unified biological or cultural community effectively polarizing the imagined ethnic and cultural bases of the American polity But beyond that a continued reference to English historical cultural and political formations allowed figures such as Ralph Waldo Emerson Frederick Douglass Henry Timrod Lydia Maria Child Nathaniel Hawthorne Charles Sumner and others to situate an era of developing national acrimony along longer historical and transnational curves forming accounts of national crisis that situated questions of a domestic political bearing at oceanic removes from northern and southern combatants Demonstrating that English genealogies geographies and economics shaped the sectional crisis for antebellum Americans on both sides of the Mason Dixon America s England locates the key crisis points of the period in a broader transatlantic constellation that provided distinctive circumstances for literary production
