Fang Architectonics:

Fang Architectonics James W. Fernandez, 1970 Allegorical Architecture Xing Ruan, 2006-01-01 Offers an architectural analysis of built forms and building types of the minority groups in southern China and of the Dong nationality in particular *Beauty in Context* Wilfried van Damme, 2021-11-01 This is the first study to survey the field of the anthropology of aesthetics which during the last few decades has emerged on the cross roads between anthropology and non Western art scholarship While critically examining the available literature thereby addressing such basic issues as the existence of aesthetic universals the author elaborates on a central thesis which concerns the relationship between aesthetic preference and sociocultural ideals Drawing on empirical data from several African cultures he demonstrates that varying notions of beauty are inspired by varying sociocultural ideals thus shedding light on the phenomenon of cultural relativism in aesthetic preference Emphasizing unity within diversity the systematic anthropological approach offered in this volume invites the reader to reconsider aesthetic preference from an empirical cross cultural and contextual perspective

Archaeology and Fertility Cult in the Ancient Mediterranean Anthony Bonanno, 1986-01-01 The papers in this volume derive from the First International Conference on Archaeology of the Ancient Mediterranean Malta 1985 The field remains divided between the view supporting the existence of a universal belief in an all pervading and all embracing Mother Goddess of which the fertility cult is just one albeit important aspect and the view questioning the very bases of that theory This conference showed that there seems to be a greater disposition for further dialogue The fertility content in Near Eastern and Classical religions remains indisputable The conference proved to be also not accidentally of special significance to Maltese archaeology The volume is divided into four sections Section I Prehistory Section II Prehistory Malta Section III Phoenician and Near Eastern Religions Section IV The Greco Roman World African Folklore Philip M. Peek, Kwesi Yankah, 2004-03-01 Written by an international team of experts this is the first work of its kind to offer comprehensive coverage of folklore throughout the African continent Over 300 entries provide in depth examinations of individual African countries ethnic groups religious practices artistic genres and numerous other concepts related to folklore Featuring original field photographs a comprehensive index and thorough cross references African Folklore An Encyclopedia is an indispensable resource for any library s folklore or African studies collection Also includes seven maps **Semiotics and International Scholarship: Towards a Language of Theory** J.P. Evans, André Helbo, 2012-12-06 Proceedings of the NATO Advanced Study Institute Estoril Portugal September 18 30 1983 *Spatializing Culture* Setha Low, 2016-08-12 This book demonstrates the value of ethnographic theory and methods in understanding space and place and considers how ethnographically based spatial analyses can yield insight into prejudices inequalities and social exclusion as well as offering people the means for understanding the places where they live work shop and socialize In developing the concept of spatializing culture Setha Low draws on over twenty years of research to examine social production social construction

embodied discursive emotive and affective as well as translocal approaches A global range of fieldwork examples are employed throughout the text to highlight not just the theoretical development of the idea of spatializing culture but how it can be used in undertaking ethnographies of space and place The volume will be valuable for students and scholars from a number of disciplines who are interested in the study of culture through the lens of space and place

The Anatomy of Architecture Suzanne Preston Blier, 1994 Blier illuminates the extraordinary architecture of the Batammaliba people of Western Africa revealing these buildings as texts through which we can read the beliefs psychology traditions and social concerns of their inhabitants In doing so she explores the role of vernacular architecture as an expression of culture A splendid analysis of the centrality of architecture in the daily lives of the Batammaliba and its integral role in articulating social values The story is beautifully told in the best of anthropological traditions Judith R Blau Contemporary Society A remarkable study Blier's volume carries the study of African architecture to a qualitatively new level of scholarship It introduces a new dimension whereby the architectural medium can be used to illuminate much of the entire belief system of any culture Labelle Prussin African Arts In this excellent book Blier provides a richly detailed and searching account of what architecture means to the Batammaliba of northern Togo and Benin The finest account I have yet read of the relations between systems of beliefs ritual practices and African aesthetics and plastic arts The ethnography and basic insight should be the envy of any social anthropologist T O Beidelman Man
