**Odyssey in Space** Gino Gammaldi,2016-04-20 Odyssey in Space follows two characters from Gammaldi's previous books named Cosmo and Bronte. But within this narrative Cosmo and Bronte take on new identities as their own alter egos Omsoc and Etnorb. Omsoc and Etnorb are fearless dogooders who take young readers along for a journey of goodwill and mystery in sectors of the universe yet uncharted. Our two travelers are called upon to assist two alien races in their defence against a very formidable opponent who is determined to change their very existence forever. Forsaking any potential danger to themselves, our two intrepid astronauts manage to achieve a victory for the two alien races beyond any expectation. Gammaldi says: Their mission is completely altruistic and it is their special training in the astronaut program that qualifies them fully for what must be achieved. They have the skills needed to diplomatically enlist the help of other alien races and to allay the fears of those worlds beset upon by the evil assailants. Gammaldi's book presents its main characters as real-life heroes who brave the darkest reaches of space in an effort to protect the universe from evil. Odyssey in Space offers young readers a platform for imagination and goal setting, something Gammaldi sees as directly related to the childhood development process.

**Cult Sci-Fi Movies** Ben Hudson,2024-06-10 Welcome to a world where reality and imagination collide where robots roam freely alongside humans and where spaceships travel through the vast expanse of the universe. In this book, we will explore the fascinating world of science fiction films, delving into the futuristic worlds, advanced technologies, and otherworldly creatures that have captivated audiences for generations. So sit back, grab your popcorn, and get ready to embark on a thrilling journey through the realms of science fiction cinema.

**Remembering the Future through Cinematic Symbols** Amar Singh,2024-12-15 This book explores the making of futuristic memory through cinematic symbols relating to future relationships between humans and artificial intelligence (AI). Amar Singh examines how audiences are being prepared for possible future scenarios where they may find themselves entangled with intelligent objects through developing relationships with them and if so, how they might react when confronted by an intelligent species. Through this research, Singh focuses on both the complications and flaws of science fiction depictions of AI, as well as more abstract works that, while not directly connected, contribute to a better understanding of these emerging technologies. Scholars of film, media, memory, posthuman, transhuman, and cultural studies will find particular value in this book, along with those focusing on literary and critical theory, arts and aesthetics, political sociology, and advanced research in AI.

**The Liverpool Companion to World Science Fiction Film** Sonja Fritzsche,2014-06-16 The Liverpool Companion to World Science Fiction Film offers critical insights into SF far beyond the more common Anglo-American narratives. Contributors take either a national or transnational approach and stretch the geographic and conceptual boundaries of science fiction cinema. Recurrent themes include genre discussions, engagement with Hollywood, and the international subgenre of science fiction parody. Chapters contain a variety of perspectives and styles, from gender and race studies to the eco-critical and the post-colonial, from the avant-garde to socialist

realism and the Hammer film Edited by Sonja Fritzsche the collection contains fourteen chapters written by specialists from around the world Film traditions represented include Argentina Australia Brazil Cameroon China the Czech Republic France Germany India Ireland Italy Japan Kenya Poland the United Kingdom and the United States There is also a chapter on digital shorts From the dinosaur myth that became Godzilla to Brazilian science fiction comedy from China's Death Ray to Kenya's Pumzi this book will broaden the horizons of scholars and students of science fiction
