Childhood and Modernity in Cold War Mexico City Eileen

Ford, 2018-02-22 Childhood and Modernity in Cold War Mexico City traces the transformations that occurred between 1934 and 1968 in Mexico through the lens of childhood Countering the dominance of Western European and North American views of childhood Eileen Ford puts the experiences of children in Latin America into their historical political and cultural contexts Drawing on diverse primary sources ranging from oral histories to photojournalism Ford reconstructs the emergent and varying meanings of childhood in Mexico City during a period of changing global attitudes towards childhood and changing power relations in Mexico at multiple scales from the family to the state She analyses children's presence on the silver screen in radio and in print media to examine the way that children were constructed within public discourse identifying the forces that would converge in the 1968 student movement This book demonstrates children's importance within Mexican society as Mexico transitioned from a socialist inspired revolutionary government to one that embraced industrial capitalism in the Cold War era It is a fascinating study of an extremely important burgeoning population group in Mexico that has previously been
