Great Desert Explorers Andrew Goudie,2016-12-01 Desert exploration like climbing Everest or polar expeditions is not for the faint hearted and many of the vivid tales within this fascinating biographical history end in tragedy However the informative and absorbing descriptions of the extraordinary journeys challenges and achievements of these intrepid figures are captivating They risked their lives variously for good old fashioned epic adventure solitude fame the answer to mythical questions and some were even spies They experienced fear excitement and hardship in their journeys into the unknown There are many books on exploration but remarkably few on desert exploration Moreover some of the great desert explorers of the last three hundred years are now very little remembered or appreciated in comparison say with those who ventured to the poles climbed Everest or sought the source of the Nile Yet crossing unknown deserts is no less challenging This volume finally brings these Great Desert Explorers into the limelight with short illustrated biographies of around 60 of the most interesting intrepid and important explorers of the world s greatest deserts There is also a brief introduction to each desert region The many original quotations illustrations and maps contemporary figures as well as plates of a range of desert landscapes make this a colourful lively and informative read

Encountering Islam Paul Auchterlonie,2012-03-24 Long before European empires came to dominate the Middle East Britain was brought face to face with Islam through the activities of the Barbary corsairs For three centuries after 1500 Muslim ships based in North African ports terrorized European shipping capturing thousands of vessels and enslaving hundreds of thousands of Christians *Encountering Islam* is the fascinating story of one Englishman s experience of life within a Muslim society as both Christian slave and Muslim soldier Born in Exeter around 1662 Joseph Pitts was captured by Algerian pirates on his first voyage in 1678 Sold as a slave in Algiers he underwent forced conversion to Islam Sold again he accompanied his kindly third master on pilgrimage to Mecca so becoming the first Englishman known to have visited the Muslim Holy Places Granted his freedom Pitts became a soldier going on campaign against the Moroccans and Spanish before venturing on a daring escape while serving with the Algiers fleet Crossing much of Italy and Germany on foot he finally reached Exeter seventeen years after he had left Joseph Pitts s *A Faithful Account of the Religion and Manners of the Mahometans* first published in 1704 is a unique combination of captivity narrative travel account and description of Islam It describes his time in Algiers his life as a slave his conversion his pilgrimage to Mecca the first such detailed description in English Muslim ritual and practice and his audacious escape A Christian for most of his life Pitts also had the advantage of living as a Muslim within a Muslim society Nowhere in the literature of the period is there a more intimate and poignant account of identity conflict *Encountering Islam* contains a faithful rendering of the definitive 1731 edition of Pitts s book together with critical historical religious and linguistic notes The introduction tells what is known of Pitts s life and places his work against its historical background and in the context of

Aden Insurgency Jonathan Walker, 2014-11-19 During the early 1960s the Cold War reached its climax Britain's dwindling power in the Middle East was under siege from Arab nationalism the Communist bloc and from American designs in the region Aden with its strategic military base and old Protectorate buffer zone was soon the main battleground The 1962 Egyptian inspired coup in the neighbouring Kingdom of North Yemen further tightened the noose So began a bitter and bloody insurgency war in South Arabia British regular and special forces were soon pitted against growing and formidable insurgency forces fighting both a war in the mountains and an urban conflict in the backstreets of Aden Intelligence agencies vied for control of hearts and minds The British launched a clandestine war in Yemen to keep their enemies at bay But still the situation in Aden spiralled out of control culminating in a bloody slaughter in 1967 In that November the British Army finally withdrew from South Arabia Aden Insurgency is the extraordinary story of Britain's last colonial conflict Using a wide range of recently released archive and eye witness accounts the author charts the collapse of the South Arabian state Set against a background of ruthless political ambition these events shaped the Yemen of today

Spies in Arabia Priya Satia, 2008-04-02 At the dawn of the twentieth century British intelligence agents began to venture in increasing numbers to the Arab lands of the Ottoman Empire a region of crucial geopolitical importance spanning present day Iraq Jordan Syria and Saudi Arabia They were drawn by the twin objectives of securing the land route to India and finding adventure and spiritualism in a mysterious and ancient land But these competing desires created a dilemma how were they to discreetly and patriotically gather facts in a region they were drawn to for its legendary inscrutability and by the promise of fame and escape from Britain In this groundbreaking book Priya Satia tracks the intelligence community's tactical grappling with this problem and the myriad cultural institutional and political consequences of their methodological choices during and after the Great War She tells the story of how an imperial state in thrall to the cultural notions of equivocal agents and beset by an equally captivated and increasingly assertive mass democracy invented a wholly new style of covert empire centered on the world's first brutal aerial surveillance regime in Iraq Drawing on a wealth of archival sources from the fictional to the recently declassified this book explains how Britons reconciled genuine ethical scruples with the actual violence of their Middle Eastern empire As it vividly demonstrates how imperialism was made fit for an increasingly democratic and anti imperial world what emerges is a new interpretation of the military cultural and political legacies of the Great War and of the British Empire in the twentieth century Unpacking the romantic fascination with Arabia as the land of espionage Spies in

Fibs, Facts and Farces - Tales from the Arab World John Carter, 2012 The recent history of the Arab World presents a dismal story of pain horror and suffering The causes are many and the blame game endless However the happy experiences of one Englishman throw a quite contrary light on current events and have been written down as a way of saying thank you to all the Arabians involved for their unrivalled hospitality and friendship as well as for sharing so much hilarious merriment The author has collected stories over the course of many years that highlight not only the essential dottiness of his own country's activities in the area but also unveil the tremendous humour that the Arabs themselves possess In this volume these tales are recorded many for the first time and have been added to by extensive research into the relevant literature to provide important background material reference and explanation To understand the humour of a race or nation is to understand and appreciate their culture and characteristics and reach a common ground Whatever your nationality **Fibs Facts and Farces Tales from the Arab World** will have you holding your sides

The Future of Islam Wilfred Scawen

Blunt,2013-12-19 When it first appeared in 1882 this book was a pioneering work in every respect It was the first coherent study of modern Islam explaining in a simple and functional manner its tenets and roots the diversity of its cultural and political experience and its dynamism and potential for good in the modern world This was at a time when the Muslim world was perceived by most people in the west as inert and spent caught in an irredeemable malaise of its own making Blunt's attitude shaped by several factors and sharpened by personal knowledge of important parts of the Muslim world and close association with many leading reformers in it was unprecedented and startling at the time This new edition includes an Introduction and numerous footnotes updating statistics explaining the background to historical events and religious and political figures and filling in gaps British Travel-writing on Oman Hilal Said Al-Hajri,2006 This book focuses on the images of Oman in British travel writing from 1800 to 1970 In texts that vary from travel accounts to sailors memoirs complete travelogues autobiographies and letters it looks at British representations of Oman as a place people and culture The study discusses the current Orientalist debate suggesting alternatives to the dilemma of Orientalism It also outlines the historical Omani British relations and examines the travel accounts written by several British merchants and sailors who stopped in Muscat and other Omani coastal cities in the nineteenth century Another focus is with the works of travellers who penetrated the Interior of Oman such as James Wellsted and Samuel Miles and the travellers who explored the southern Oman and the Empty Quarter Finally the book looks at the last generation of British travellers who were in Oman from 1950 to 1970 employed either by oil companies or the Sultan Said bin Taimur The gap of knowledge that this book undertakes to fill is that most of the texts under discussion have not been studied in any context A Short Way to Literature of the Desert: Poetry, Travelogue, Novel Śāradā Prasāda Śarmā,2017-12-01 A Short way to Literature of the Desert projects and discusses the idea of desert as represented in some selected works of modern English literature of three main genres It sharpens readers understanding of the desert landscape in literature Poetry Travelogue Novel **The Place of Enchantment** Alex Owen,2006-12-15 By the end of the nineteenth century Victorians were seeking rational explanations for the world in which they lived The radical ideas of Charles Darwin had shaken traditional religious beliefs Sigmund Freud was developing his innovative models of the conscious and unconscious mind And anthropologist James George Frazer was subjecting magic myth and ritual to systematic inquiry Why then in this quintessentially modern moment did late Victorian and Edwardian men and women become absorbed by metaphysical quests heterodox spiritual encounters and occult experimentation In answering this question for the first time The Place of Enchantment breaks new ground in its consideration of the role of occultism in British culture prior to World War I Rescuing occultism from its status as an irrational indulgence and situating it at the center of British intellectual life Owen argues that an involvement with the occult was a leitmotif of the intellectual avant garde Carefully placing a serious engagement with esotericism squarely alongside revolutionary understandings of rationality and consciousness Owen demonstrates how a newly psychologized magic

operated in conjunction with the developing patterns of modern life She details such fascinating examples of occult practice as the sex magic of Aleister Crowley the pharmacological experimentation of W B Yeats and complex forms of astral clairvoyance as taught in secret and hierarchical magical societies like the Hermetic Order of the Golden Dawn Through a remarkable blend of theoretical discussion and intellectual history Owen has produced a work that moves far beyond a consideration of occultists and their world Bearing directly on our understanding of modernity her conclusions will force us to rethink the place of the irrational in modern culture An intelligent well argued and richly detailed work of cultural history that offers a substantial contribution to our understanding of Britain Nick Freeman Washington Times

Sexuality and Subordination Susan Mendus, Jane Rendall, 2002-09-11 *Sexuality and Subordination* uses the insights of a range of disciplines to examine the construction of gender in nineteenth century Britain and France With contributions from history literature sociology and philosophy its interdisciplinary approach demonstrates the extent to which a common focus can illuminate problems inaccessible to any single discipline Victorianism is generally understood to mean sexual double standards hypocrisy and prudery among the middle classes But as this collection shows the representation of sexuality in the nineteenth century was more diverse and complex than is sometimes realized Both art and literature point to the deployment of sexual metaphors and imagery and the language of educated public opinion was shaped by the dichotomy between mind and matter between rationality and sexuality The contributors to this volume explore how women in questioning their subordination had to challenge a construction of femininity which imposed sexual ignorance

Parting the Desert Zachary Karabell, 2004-05-11 Award winning historian Zachary Karabell tells the epic story of the greatest engineering feat of the nineteenth century the building of the Suez Canal and shows how it changed the world The dream was a waterway that would unite the East and the West and the ambitious energetic French diplomat and entrepreneur Ferdinand de Lesseps was the mastermind behind the project Lesseps saw the project through fifteen years of financial challenges technical obstacles and political intrigues He convinced ordinary French citizens to invest their money and he won the backing of Napoleon III and of Egypt's prince Muhammad Said But the triumph was far from perfect the construction relied heavily on forced labor and technical and diplomatic obstacles constantly threatened completion The inauguration in 1869 captured the imagination of the world The Suez Canal was heralded as a symbol of progress that would unite nations but its legacy is mixed *Parting the Desert* is both a transporting narrative and a meditation on the origins of the modern Middle East

The Arabian Desert in English Travel Writing Since 1950 Jenny Walker, 2022-12-30 Broadly this book is about the Arabian desert as the locus of exploration by a long tradition of British travellers that includes T E Lawrence and Wilfred Thesiger more specifically it is about those who since 1950 have followed in their literary footsteps In analysing modern works covering a land greater than the sum of its geographical parts the discussion identifies outmoded tropes that continue to

impinge upon the perception of the Middle East today while recognising that the laboured binaries of East and West desert and sown noble and savage have outrun their course Where however only a barren legacy of latent Orientalism may have been expected the author finds instead a rich seam of writing that exhibits diversity of purpose and insight contributing to contemporary discussions on travel and tourism intercultural representation and environmental awareness By addressing a lack of scholarly attention towards recent additions to the genre this study illustrates for the benefit of students of travel literature or indeed anyone interested in Arabia how desert writing under the emerging configurations of globalisation postcolonialism and ecocriticism acts as a microcosm of the kinds of ethical and emotional dilemmas confronting today s travel writers in the world s most extreme regions
