Farrakhan Factor:

Educational Leadership and Louis Farrakhan Abul Pitre, 2017-02-08 Drawing from Louis Farrakhan's decades of teaching on education and leadership this volume brings his ideas into the educational leadership discourse. It explores through a critical framework the purpose of education disclosing how those in powerful positions have shaped educational policy to use schools and universities for their benefit. The book inspires educational leaders to serve the best interest of those under their leadership. In a spiritual tone it discusses the purpose of education leadership as love servant leadership, transformative leadership and futuristic leadership. In the 21st century leadership for social justice has become a major theme and in this volume Louis Farrakhan's many years of working for equal justice on behalf of historically underserved groups is applied to the practice of educational leadership in K-12 and higher education.

Enemies Within Robert Alan Goldberg, 2008-10-01 There is a hunger for conspiracy news in America. Hundreds of Internet websites, magazines, newsletters, even entire publishing houses disseminate information on invisible enemies and their secret activities, subversions and coverups. Those who suspect conspiracies behind events in the news, the crash of TWA Flight 800, the death of Marilyn Monroe, join generations of Americans from the colonial period to the present day who have entertained visions of vast plots. In this enthralling book Robert Goldberg focuses on five major conspiracy theories of the past half century, examining how they became widely popular in the United States and why they have remained so. In the post World War II decades conspiracy theories have become more numerous, more commonly believed and more deeply embedded in our culture. Goldberg contends. He investigates conspiracy theories regarding the Roswell UFO incident, the Communist threat, the rise of the Antichrist, the assassination of President John Kennedy and the Jewish plot against black America. In each case taking historical, social and political environments into account. Conspiracy theories are not merely the products of a lunatic fringe, the author shows. Rather, paranoid rhetoric and thinking are disturbingly central in America today. With media validation and dissemination of conspiracy ideas and federal government behavior that damages public confidence and faith, the ground is fertile for conspiracy thinking.

The Farrakhan Factor Amy Alexander, 1998 Leading African American voices speak out about Louis Farrakhan, the myth and the reality in the process of reexamining and redefining notions of black nationalism, community and African American leadership.

Antisemitism and the American Far Left Stephen H. Norwood, 2013-08-19 Stephen H Norwood has written the first systematic study of the American far left's role in both propagating and combating antisemitism This book covers Communists from 1920 onward Trotskyists the New Left and its black nationalist allies and the contemporary remnants of the New Left Professor Norwood analyzes the deficiencies of the American far left's explanations of Nazism and the Holocaust He explores far left approaches to militant Islam from condemnation of its fierce antisemitism in the 1930s to recent apologies for jihad Norwood discusses the far left's use of long standing theological and economic antisemitic stereotypes that the far right also embraced The study analyzes

the far left's antipathy to Jewish culture as well as its occasional efforts to promote it. He considers how early Marxist and Bolshevik paradigms continued to shape American far left views of Jewish identity, Zionism, Israel, and antisemitism. The Pact Roberto Catalano, 2024-05-01 Roberto Catalano witnessed the birth and evolution of a religious, cultural, and ethnic encounter between a seemingly unlikely pair of leaders: one Christian and the other Muslim. In The Pact, he recounts their respective histories, which have captured the hearts and minds of millions worldwide who love and respect these two remarkable figures: Chiara Lubich, founder of the Focolare Movement, and Imam W. Deen Mohammed, who for thirty-three years led the Muslim American community. The Messenger Karl Evanzz, 2011-09-07 Here eagerly anticipated is the definitive biography of Elijah Muhammad, the son of a sharecropper with a fourth-grade education who became one of the most controversial Americans of the twentieth century: the founder and Prophet of the Nation of Islam, a movement dedicated to black separatism and self-empowerment. Though Muhammad's main argument that white people were innately evil devils he called them ran counter to the precepts of orthodox Islam, he was the chief influence in the conversion of nearly four million African Americans to Islam, touching in the process the lives of figures ranging from Muhammad Ali and Jesse Jackson to Malcolm X and Louis Farrakhan. But in his desperate grasp for power, Muhammad also amassed a huge personal fortune at the expense of his followers. He was a party to ritualistic homicides, had illicit affairs galore, and was quick to betray his friends and charges, most notably Malcolm X. In brief, he violated every ideal and principle that he espoused. With the cooperation of some of Elijah Muhammad's children and former apostles and with access to previously unreleased FBI files, Karl Evanzz gives us an unprecedented account of the life of the man whose philosophy continues long after his death to shape race relations in America. The Persistence of the Color Line Randall Kennedy, 2012-04-17 A provocative and richly insightful new book, The New York Times Book Review that gives us a shrewd and penetrating analysis of the complex relationship between the first black president and his African American constituency. Renowned for his insightful common-sense critiques of racial politics, Randall Kennedy now tackles such hot-button issues as the nature of racial opposition to Obama, whether Obama has a singular responsibility to African Americans, the differences in Obama's presentation of himself to blacks and to whites, the challenges posed by the dream of a post-racial society, the increasing irrelevance of a certain kind of racial politics and its consequences, the complex symbolism of Obama's achievement and his own obfuscations and evasions regarding racial justice. Eschewing the critical excesses of both the left and the right, Kennedy offers an incisive view of Obama's triumphs and travails, his strengths and weaknesses as they pertain to the troubled history of race in America.

Revolutionaries to Race Leaders Cedric Johnson, The Black Power movement represented a key turning point in American politics Disenchanted by the hollow progress of federal desegregation during the 1960s many black citizens and leaders across the United States demanded meaningful self determination The popular movement they created was marked by a vigorous artistic renaissance militant political action and fierce ideological debate Exploring the major political and intellectual currents from the Black Power era to the present Cedric Johnson reveals how black political life gradually conformed to liberal democratic capitalism and how the movement's most radical aims the rejection of white aesthetic standards redefinition of black identity solidarity with the Third World and anticapitalist revolution were gradually eclipsed by more moderate aspirations Although Black Power activists transformed the face of American government Johnson contends that the evolution of the movement as a form of ethnic politics restricted the struggle for social justice to the world of formal politics Johnson offers a compelling and theoretically sophisticated critique of the rhetoric and strategies that emerged in this period Drawing on extensive archival research he reinterprets the place of key intellectual figures such as Harold Cruse and Amiri Baraka and influential organizations including the African Liberation Support Committee the
