From Art To Theatre Form And Convention In The Renaissance:

From Art to Theatre George R. Kernodle,1970 From Art to Theatre George R. Kernodle,1964 **Author's Pen and Actor's Voice** Robert Weimann,2000-07-27 Redefines the relationship between writing and performance in Shakespeare s theatre **The Theatre in the Middle Ages** William Tydeman,1978 William Tydeman covers central aspects of western European theatre from the Dark Ages to the building of the first public theatres towards the end of the sixteenth century

The Masque of Stuart Culture Jerzy Limon,1990 Limon presents an unconventional approach to the Stuart masque discussing the masque as a form of courtly ritual rather than a truly theatrical performance As seen from this perspective the masque is the deepest most complex and many faceted reflection of early Stuart culture *Architecture in the Age of Divided Representation* Dalibor Vesely,2004 Reclaiming the humanistic role of architecture in the age of technology an examination of architecture s indispensable role as a cultural force throughout history **Ceremonial Entries, Municipal Liberties and the Negotiation of Power in Valois France, 1328-1589** Neil Murphy,2016-06-27 In a fresh examination of the French ceremonial entry Neil Murphy considers the role these events played in the negotiation between urban elites and the Valois monarchy for rights and liberties Moving away from the customary focus on the pageantry this book focuses on how urban governments used these ceremonies to offer the ruler or his representatives petitions regarding their rights liberties and customs Drawing on extensive research he shows that ceremonial entries lay at the heart of how the state functioned in later medieval and Renaissance France *German and Dutch Theatre, 1600-1848* George W. Brandt,Wiebe Hogendoorn,1993-05-27 This is the third volume to be published in the series Theatre in Europe This book makes available for the first time an overview of a significant segment of European theatre history and with few exceptions none of the documents presented have been published in English before Gathered from a rich variety of sources including imperial and municipal edicts contracts architectural descriptions playbills stage directions and actors memoirs among others the book sheds light on one of the most fascinating areas of cultural life in the German and Dutch speaking countries Explanatory passages put these documents into their historical context and numerous illustrations bring the material even more vividly to life Also included is the source location for each document and a substantial bibliography Performing Remains Rebecca Schneider,2011-03 Performing Remains is a collection of essays from one of Performance Studies leading scholars exploring the role of the fake the false and the faux in contemporary theatre Divided into seven essays this book examines both contemporary and historical performance with a wide scope questioning the importance of representation and reassessing the ritual value of failure **Studies in Shakespeare, Bibliography, and Theatre** James G. McManaway,1990 This volume is designed to pay homage to the scholarship of James G McManaway and at the same time to make the best of that scholarship available to a wider audience Twenty one essays testify to the distinguished career of this editor scholar and teacher Illustrated Living Pictures Noa Turel,2020-09-25 A significant new interpretation of the emergence of Western

pictorial realism When Jan van Eyck c 1390 1441 completed the revolutionary Ghent Altarpiece in 1432 it was unprecedented in European visual culture His novel visual strategies including lifelike detail not only helped make painting the defining medium of Western art they also ushered in new ways of seeing the world This highly original book explores Van Eyck's pivotal work as well as panels by Rogier van der Weyden and their followers to understand how viewers came to appreciate a world depicted in two dimensions Through careful examination of primary documents Noa Turel reveals that paintings were consistently described as *au vif* made not from life but into life Animation not representation drove Van Eyck and his contemporaries Turel's interpretation reverses the commonly held belief that these artists were inspired by the era's burgeoning empiricism proposing instead that their living pictures helped create the conditions for empiricism Illustrated with exquisite fifteenth century paintings this volume asserts these works key role in shaping rather than simply mirroring the early modern world

Shakespearean Tragedy John Drakakis, 2014-06-06 Shakespearean Tragedy brings together fifteen major contemporary essays on individual plays and the genre as a whole Each piece has been carefully chosen as a key intervention in its own right and as a representative of an influential critical approach to the genre The collection as a whole therefore provides both a guide and explanation to the various ways in which contemporary criticism has determined our understanding of the tragedies and the opportunity for assessing the wider issues such criticism raises The collection begins by considering the impact of social semiotics on approaches to the tragedies before moving on to deal in turn with the various forms of Marxist criticism New Historicism Cultural Materialism Feminism Psychoanalysis and Poststructuralism

At Home in Shakespeare's Tragedies Geraldo U. de Sousa, 2016-04-15 Bringing together methods assumptions and approaches from a variety of disciplines Geraldo U de Sousa's innovative study explores the representation perception and function of the house home household and family life in Shakespeare's great tragedies Concentrating on King Lear Hamlet Othello and Macbeth de Sousa's examination of the home provides a fresh look at material that has been the topic of fierce debate Through a combination of textual readings and a study of early modern housing conditions accompanied by analyses that draw on anthropology architecture art history the study of material culture social history theater history phenomenology and gender studies this book demonstrates how Shakespeare explores the materiality of the early modern house and evokes domestic space to convey interiority reflect on the habits of the mind interrogate everyday life and register elements of the tragic journey Specific topics include the function of the disappearance of the castle in King Lear the juxtaposition of home centered life in Venice and nomadic unhoused wandering in Othello and the use of special lighting effects to reflect this relationship Hamlet's psyche in response to physical space and the redistribution of domestic space in Macbeth Images of the house home and household become visually and emotionally vibrant and thus reflect define and support a powerful tragic narrative
