global competition for hearts and minds *Interpreting Justice* Moira Inghilleri, 2013-03-01 In this timely study Inghilleri examines the interface between ethics language and politics during acts of interpreting with reference to two particular sites of transnational conflict the political and judicial context of asylum adjudication and the geo political context of war The book characterizes the social and moral spaces in which the translation of the spoken word occurs in ways that reflect the realities of the trans nationally constituted locally and globally informed environments in which interpreters work alongside others One of the core arguments is that the rather restricted notion of neutrality that remains central to translator and interpreter practices does not adequately reflect the complex and paradoxical nature of these socially and politically inscribed encounters and others like them This study offers an alternative theoretical perspective on language and ethics to those which have shaped and informed translation and interpreting theory and practice in recent years The Routledge Handbook of Translation and Politics Jonathan Evans, Fruela Fernandez, 2018-04-19 The Routledge Handbook of Translation and Politics presents the first comprehensive state of the art overview of the multiple ways in which politics and translation interact Divided into four sections with thirty three chapters written by a roster of international scholars this handbook covers the translation of political ideas the effects of political structures on translation and interpreting the politics of translation and an array of case studies that range from the Classical Mediterranean to contemporary China Considering established topics such as censorship gender translation under fascism translators and interpreters at war as well as emerging topics such as translation and development the politics of localization translation and interpreting in democratic movements and the politics of translating popular music the handbook offers a global and interdisciplinary introduction to the intersections between translation and interpreting studies and politics With a substantial introduction and extensive bibliographies this handbook is an indispensable resource for students and researchers of translation theory politics and related areas The Routledge Handbook of Translation and Religion Hephzibah Israel, 2022-12-19 The Routledge Handbook of Translation and Religion is the first to bring together an extensive interdisciplinary engagement with the multiple ways in which the concepts and practices of translation and religion intersect The book engages a number of scholarly disciplines in conversation with each other including the study of translation and interpreting religion philosophy anthropology history art history and area studies A range of leading and emerging international specialists critically engage with changing understandings of the key categories translation and religion as discursive constructs thus contributing to the development of a new field of academic study translation and religion The 28 contributions divided into six parts analyze how translation constructs ideas texts or objects as sacred or for religious purposes often in competition with what is categorized as non religious The part played by faith communities is treated as integral to analyses of the role of translation and religion It investigates how or why translation functions in re constructing and transforming religion s and for whom and examines a range of sacred texts in translation from the written to the spoken manuscript to print paper to digital architectural form to

objects of sacred art intersemiotic scriptural texts and where commentary exegesis and translation interweave This Handbook is an indispensable scholarly resource for researchers in translation studies and the study of religions **Edward Said's Rhetoric of the Secular** Mathieu E. Courville, 2011-10-20 Edward Said's Rhetoric of the Secular provides an important new reading of Edward W Said's work emphasizing not only the distinction but also the fuzzy borders between representations of the religious and the secular found within and throughout his oeuvre and at the core of some of his most customary rhetorical strategies Mathieu Courville begins by examining Said's own reflections on his life before moving on to key debates about Said's work within Religious Studies and Middle Eastern Studies and his relationship to French critical theorists Through close attention to Said's use of the literal and the figurative when dealing with religious national and cultural matters Courville discerns a pattern that illuminates what Said means by secular Said's work shows that the secular is not the utter opposite of religion in the modern globalized world but may exist in a productive tension with it *Islam and the English Enlightenment, 1670-1840* Humberto Garcia, 2012-01-30 A corrective addendum to Edward Said's Orientalism this book examines how sympathetic representations of Islam contributed significantly to Protestant Britain's national and imperial identity in the eighteenth century Taking a historical view Humberto Garcia combines a rereading of eighteenth century and Romantic era British literature with original research on Anglo Islamic relations He finds that far from being considered foreign by the era's thinkers Islamic republicanism played a defining role in Radical Enlightenment debates most significantly during the Glorious Revolution French Revolution and other moments of acute constitutional crisis as well as in national and political debates about England and its overseas empire Garcia shows that writers such as Edmund Burke Lady Mary Wortley Montagu Samuel Taylor Coleridge Robert Southey and Percy and Mary Shelley not only were influenced by international events in the Muslim world but also saw in that world and its history a viable path to interrogate contest and redefine British concepts of liberty This deft exploration of the forgotten moment in early modern history when intercultural exchange between the Muslim world and Christian West was common resituates English literary and intellectual history in the wider context of the global eighteenth century The direct challenge it poses to the idea of an exclusionary Judeo Christian Enlightenment serves as an important revision to post 9 11 narratives about a historical clash between Western democratic values and Islam **Dialogue Interpreting** Rebecca Tipton, Olgierda Furmanek, 2016-02-05 Routledge Interpreting Guides cover the key settings or domains of interpreting and equip trainee interpreters and students of interpreting with the skills needed in each area of the field Concise accessible and written by leading authorities they include examples from existing interpreting practice activities further reading suggestions and a glossary of key terms Drawing on recent peer reviewed research in interpreting studies and related disciplines Dialogue Interpreting helps practising interpreters students and instructors of interpreting to navigate their way through what is fast becoming the very expansive field of dialogue interpreting in more traditional domains such as legal and medical and in areas where new needs of language brokerage are

Aspects of meaning-making through translation Sidiropoulou Maria, Hatzidaki Anna, Kefala Stavroula, Gogonas Nikos, Korda Diamantoula, Lavidas Nikolaos, Gioti Ioanna, 2025-05-07 The book addresses an audience with no prior knowledge of the intricacies of translation practice and allows a rather pervasive view into issues arising in the study of translation It shows how the study of translation may capture a reader's attention and what scholarly issues it may give rise to It tackles systemic functional cognitive and societal aspects of the transfer phenomenon between English and Greek from both a synchronic and a diachronic perspective It starts with pragmatic perspectives of meaning making moves to cognitive aspects of translation and interpreting goes on with aspects of tourism translation and globalization and ends up with diachronic perspectives to gender in translation and diachronic aspects of the history of translation in the West It is a collaborative work of the translation team of the Department of English Language and Literature National and Kapodistrian University of Athens and owes a lot to insights gained by the authors' interaction with undergraduate and postgraduate translation students of the Department which is always insightful and productive

The Dragoman Renaissance E. Natalie Rothman, 2021-03-15 In *The Dragoman Renaissance* E. Natalie Rothman traces how Istanbul based diplomatic translator interpreters known as the dragomans systematically engaged Ottoman elites in the study of the Ottoman Empire eventually coalescing in the discipline of Orientalism throughout the sixteenth and seventeenth centuries Rothman challenges Eurocentric assumptions still pervasive in Renaissance studies by showing the centrality of Ottoman imperial culture to the articulation of European knowledge about the Ottomans To do so she draws on a dazzling array of new material from a variety of archives By studying the sustained interactions between dragomans and Ottoman courtiers in this period Rothman disrupts common ideas about a singular moment of cultural encounter as well as about a docile and static

Orient simply acted upon by extraneous imperial powers The Dragoman Renaissance creatively uncovers how dragomans mediated Ottoman ethno linguistic political and religious categories to European diplomats and scholars Further it shows how dragomans did not simply circulate fixed knowledge Rather their engagement of Ottoman imperial modes of inquiry and social reproduction shaped the discipline of Orientalism for centuries to come Thanks to generous funding from the Andrew W Mellon Foundation through The Sustainable History Monograph Pilot the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories **The Palgrave**

Buddhism and Islam on the Silk Road Johan Elverskog, 2011-06-06 In the contemporary world the meeting of Buddhism and Islam is most often imagined as one of violent confrontation Indeed the Taliban's destruction of the Bamiyan Buddhas in 2001 seemed not only to reenact the infamous Muslim destruction of Nalanda monastery in the thirteenth century but also to reaffirm the stereotypes of Buddhism as a peaceful rational philosophy and Islam as an inherently violent and irrational religion But if Buddhist Muslim history was simply repeated instances of Muslim militants attacking representations of the Buddha how had the Bamiyan Buddha statues survived thirteen hundred years of Muslim rule Buddhism and Islam on the Silk Road demonstrates that the history of Buddhist Muslim interaction is much richer and more complex than many assume This groundbreaking book covers Inner Asia from the eighth century through the Mongol empire and to the end of the Qing dynasty in the late nineteenth century By exploring the meetings between Buddhists and Muslims along the Silk Road from Iran to China over more than a millennium Johan Elverskog reveals that this long encounter was actually one of profound cross cultural exchange in which two religious traditions were not only enriched but transformed in many ways *Islamism* Anders Strindberg, Mats Wärn, 2011-11-07

Islamism has emerged as one of the most significant political ideologies of the 21st century This book offers a rigorous and balanced analysis of how and why Islamism has risen to the fore and what accounts for the often vastly different political agendas tactical choices and strategic objectives of individual Islamist groups *Writing History in the Medieval Islamic*

World Fozia Bora, 2019-06-13 In the encyclopaedic fourteenth century Arabic chronicles produced in Mamluk cities bore textual witness to both recent and bygone history including that of the Fatimids 969 1171CE For in two centuries of rule over Egypt and North Africa the Isma'ili Fatimids had left few self generated historiographical records Instead it fell to Ayyubid and Mamluk historians to represent the dynasty to posterity This monograph sets out to explain how later historians preserved interpreted and re organised earlier textual sources Mamluk historians engaged in a sophisticated archival practice within historiography rather than uncritically reproducing earlier reports In a new diplomatic edition translation and analysis of Mamluk historian Ibn al Furat's account of late Fatimid rule in *The History of Dynasties and Kings* a widely known but barely copied universal chronicle of Islamic history Fozia Bora traces the survival of historiographical narratives from Fatimid Egypt Through Ibn al Furat's text Bora demonstrates archivality as the heuristic key to Mamluk historical writing This book is essential for all scholars working on the written culture and history of the medieval Islamic world and paves the way for a more nuanced reading of pre modern Arabic chronicles and of the epistemic environment in which they were produced

The Whispers of Cities John-Paul A. Ghobrial, 2013 Explores interactions between early modern Europe and the Ottoman Empire through the experiences of the English ambassador to the Ottoman Empire from 1687 to 1692 showing how information flows between Istanbul London and Paris were rooted in the personal exchanges between Ottomans and Europeans in everyday encounters

America in the World from Truman to Biden Simon Serfaty, 2021-10-30 Does America still count in the world Can the world still count on America In raising such questions halfway into a series of systemic shocks that began in September 2001 Simon Serfaty a long time scholar of international politics reminds Americans that their country's well being and that of the world are intertwined Play it again Sam History is in a foul mood again and this is no time to come home and leave behind an

unfinished European Union facing the ghosts of a revanchist Russia still claiming the Old World as its own a strategic dark hole in the Greater Middle East on the eve of a global Sarajevo moment and China's surging hegemonic power in a continent fraught with too much history and too little geography Admittedly what is good for America may no longer be best for all the West and what is good for the West may no longer be good for much of the Rest the unipolar moment is irreversibly over Yet writing in an elegant style and with much historical insight Serfaty argues that even with the old power map irreversibly gone mainly to the benefit of the non Western world a new world order for the twenty first century will remain dependent on the U S role its capabilities and its efficacy as well as its leadership and its purpose
