Democratic Representation in Europe Maurizio Cotta, Heinrich Best, 2007-11-08 Democratic Representation in Europe Diversity Change and convergence explores representation as a core element of democracies in the modern era Over the past 150 years parliamentary representation has developed into a main link between polity and society and parliamentary representatives have come to form the nucleus of political elites The twenty authors of the 16 chapters follow a comparative and empirical approach by exploiting the unique longitudinal data base of the EURELITE project which has gathered standardized evidence about the structures of parliamentary representation in 11 European countries and their development over time in many countries over 160 years Following on from an earlier book by the same editors Parliamentary Representatives in Europe 1848 2000 which focused on trends in single European countries Democratic Representation in Europe pursues a trans national approach by comparing the mechanisms and modes of parliamentary recruitment and career formation between the main party families and various categories of the population in European societies Such cross national analyses which include a longitudinal account of female representation throughout modern European parliamentary history have not been attempted before The book concludes with longitudinal in depth analyses of cleavage representation in European parliamentary history and of the impact of the institutional factor on political elites transformations Democratic Representation in Europe contributes to a better understanding of relations between social and political change and of the importance of institutional factors in shaping the political elites of European democracies In so doing it can help substantiate theoretical debates in the social and political sciences on issues such as historical institutionalism and path dependency

Belief and Religion in Barbarian Europe c. 350-700 Marilyn Dunn, 2013-11-28 This ground breaking study offers a new paradigm for understanding the beliefs and religions of the Goths Burgundians Sueves Franks and Lombards as they converted from paganism to Christianity between c 350 and c 700 CE Combining history and theology with approaches drawn from the cognitive science of religion *Belief and Religion in Barbarian Europe* uses both written and archaeological evidence to challenge many older ideas Beginning with a re examination of our knowledge about the deities and rituals of their original religions it goes on to question the assumption that the Germanic peoples were merely passive recipients of Christian doctrine arguing that so called Arianism was first developed as an entry level Christianity for the Goths Focusing on individual ethnic groupings in turn it presents a fresh view of the relationship between religion and politics as their rulers attempted to opt for Catholicism In place of familiar debates about post conversion pagan survivals contemporary texts and legislation are analysed to create an innovative cognitive perspective on the ways in which the Church endeavoured to bring the Christian God into people's thoughts and actions The work also includes a survey of a wide range of written and archaeological evidence contrasting traditional conceptions of death afterlife and funerary ritual with Christian doctrine and practice in these areas and exploring some of the techniques developed by the Church for assuaging popular anxieties about Christian burial and the Christian afterlife

Political Parties and Interest Groups in Norway
Elin Haugsgjerd Allern, 2024-10-31 How do today's political parties relate to other organisations Do they prefer rather distant relationships with a wide range of interest groups or have they virtually detached themselves from civil society altogether Scholars seem to agree that traditionally close relationships such as those between social democratic parties and trade unions have grown weaker since the 1960s But to date only limited systematic research has been conducted While parties and interest groups attract a great deal of attention from political scientists the links between them have been largely overlooked This book is an attempt to bridge the gap starting from the party side of the relationship It throws new light on the topic by presenting a theory driven comprehensive study of Norway's seven major political parties and their relationships with interest groups at the beginning of the new millennium Based on original and extensive data including party documents in depth interviews with key players and a survey of national party elites Elin Haugsgjerd Allern paints a nuanced picture of the nature and significance of these relationships and the factors that shape them A major conclusion is that Norway's parties tend to maintain rather distant but wide ranging relationships with interest groups today However some parties still have fairly strong links with their traditional associates and a narrower network of links with other groups Hence Allern also shows that significant differences exist between parties that are apparently exposed to the same social political and institutional environment

Models of Democracy in Nordic and Baltic Europe Nicholas Aylott, 2016-04-15 This book explores the ways in which representative democracy works in two neighbouring collections of European states the Nordic Denmark Finland Iceland Norway and Sweden and the Baltic Estonia Latvia and Lithuania. Starting from a Nordic vantage point contributors explore the extent to which aspects of politics function similarly or dissimilarly across the two groups of democratic states acknowledging the differences in models of democracy that occur within each group. Authors explore the possibility that some of the apparently successful institutional features of Nordic politics have somehow influenced politics in the Baltic states despite the considerable contextual differences between the two groups. The Nordic Baltic comparison is particularly worthy of study given the comparative stability of the Nordic democracies and the half century of occupation by a totalitarian dictatorship that the Baltic states endured. The central guiding questions are how does political representation work in countries that have a lot in common but also a few significant contextual dissimilarities and what if any relationships between the respective styles of democracy can be identified. Using a variety of theories perspectives and methods the empirical studies that populate the book seek to offer reflections on these questions.

Left Parties in National Governments J. Olsen, M. Koß, D. Hough, 2010-07-16 Analyzes why Left Parties enter national government what they do when they get there and what effect this has on them. Labour, Unions and Politics under the North Star Mary Hilson, Silke Neunsinger, Iben Vyff, 2017-05-01 Denmark Finland Iceland Norway and Sweden today all enjoy a reputation for strong labour movements which in turn are widely seen as part of a distinctive regional approach to politics collective bargaining and welfare. But as this volume demonstrates narratives of the so called Nordic model can obscure the fact that experiences of work and the fortunes of organized labour have varied widely throughout the region and across different historical periods. Together the essays collected here represent an ambitious intervention in labour historiography.

and European history exploring themes such as work unions politics and migration from the early modern period to the twenty first century

Radical or Redundant? Liam Weeks, 2011-11-30 While the type of small political party in Ireland has varied their fate it seems has not Although some enjoy a brief time in the sun termination is the long term prospects for all minor parties The usual pattern is a speedy ascent an impact on the political system including a time in government followed by a prolonged termination This book examines this pattern of evolution for minor or small parties in Irish politics As the Irish state has changed so too have the types of parties that have emerged With the first time entry of the Greens into government in 2007 their wipeout in 2011 the termination of the Progressive Democrats in 2009 and the failure of a new party to emerge despite the on going financial crisis the time is ripe for this analysis
