From Friend To Comrade The Founding Of The Chinese Communist Party 1920 1927:

From Friend to Comrade Hans J. van de Ven, 2023-12-22 Scholars have long held that the Chinese Communist Party CCP was a centralized organization from its founding in 1921 In a departure from that view *From Friend to Comrade* demonstrates how the CCP began as a group of study societies only evolving into a mass Marxist Leninist party by 1927 Hans J van de Ven's study is based on party documents of the 1920s that have only recently become available as well as the writings of a wide range of Chinese communists He analyzes the party's difficulty in building a cohesive organization firmly rooted in Chinese society While past scholarship has emphasized the influence of Soviet communism on the CCP van de Ven stresses the thinking and actions of Chinese communists themselves placing their struggle in the context of China's political history and highly complex society Scholars have long held that the Chinese Communist Party CCP was a centralized organization from its founding in 1921 In a departure from that view *From Friend to Comrade* demonstrates how the CCP began as a group of study societies only evolving

The Chinese Revolution in the 1920s Roland Felber, A.M. Grigoriev, Mechthild Leutner, M.L. Titarenko, 2013-10-11 Based mainly on Russian and Chinese archival sources that have become available only since the early 1990s the authors of this collection explore the main aspects of the Chinese Revolution in the crucial period of the 1920s such as the United Front policy the development of communism the Guomindang perspective institutional issues and social movements The various approaches and interpretative methods employed by the contributors from seven countries have resulted in a collection of articles representing four very different and until now almost independent discourses the European the American the Chinese and the Russian

A Global Radical Waterfront Holger Weiss, 2021-07-05 This volume investigates the ambition of the Red International of Labour Unions to radicalize the global waterfront during the interwar period The main vehicle was the International Propaganda Committee of Transport Workers replaced in 1930 by the International of Seamen and Harbour Workers as well as their agitation and propaganda centres the International Harbour Bureaus and the International Seamen's Clubs The book scrutinizes their solidarity campaigns in support of local and national strikes as well as on their agitation against discrimination segregation and racism within the unions their demands to organize non white maritime transport workers and their calls for engagement in anti fascist anti war and anti imperialist actions

Global Conjectures William C. Kirby, Mechthild Leutner, Klaus Mühlhahn, 2006 This volume deals with the integration of modern China into processes of global exchange and cross border interaction The articles explore the broader theme in different ways and in different subfields ranging from the history of political ideas to the history of institutions from global migration of people to the transmigration of academic discourses Focusing on modern as well as contemporary periods the studies demonstrate that China in the course of the

twentieth century became an ever more important nodal point in a complex set of worldwide networks and engagements. The integration into global networks together with the global consciousness that corresponded with it made possible significant connections transcending national borders. The essays also show that the effects could be homogenizing or globalizing but at the same time the growing interactions also produced opposition and fragmentation.

Red Genesis Liyan Liu, 2012-10-31 Winner of the 2013 Best Publication Award for Original Scholarship presented by the Association of Chinese Professors of Social Sciences in the United States How did an obscure provincial teachers college produce graduates who would go on to become founders and ideologues of the Chinese Communist Party Mao Zedong Cai Hesen Xiao Zisheng and others attended the Hunan First Normal School Focusing on their alma mater this work explores the critical but overlooked role modern schools played in sowing the seeds of revolution in the minds of students seeking modern education in the 1910s The Hunan First Normal School was one of many reformed schools established in China in the early twentieth century in response to the urgent need to modernize the nation Its history is a tapestry woven of traditional Chinese and modern Western threads Chinese tradition figured significantly in the character of the school yet Western ideas and contemporary social political and intellectual circumstances strongly shaped its policies and practices Examining the background curriculum and the reforms of the school as well as its teachers and radical students Liyan Liu argues that China's modern schools provided a venue that nurtured and spread new ideas including Communist revolution

Negotiating A Chinese Federation Vivienne Xiangwei Guo, 2022-10-17 This book offers the first comprehensive study of the ways in which China's men of guns so called warlords and men of letters May Fourth intellectuals engaged one another for the making of a Chinese federation between 1919 and 1923 Breaking the constructed dichotomy between the men of guns and men of letters Vivienne Guo's analysis reappraises Chinese warlordism against the

backdrop of the Chinese enlightenment Exploring the ideological underpinnings and political vigour of the Chinese federalist movement Negotiating A Chinese Federation provides a fresh interpretation of China s cultural renewal and state building

China Michael Dillon,2010-07-30 China s transformation in the last few decades has been perhaps the most remarkable and most controversial development in modern history Barely a century removed from the struggling and out dated Qing Empire China has managed to reinvent itself on an unprecedented scale from Empire to Communist state to hybrid capitalist superpower Yet the full implications of China s rapid march to modernity are not widely understood particularly the effects of China s meteoric rise on the nation s many ethnic minorities China A Modern History is the definitive guide to this complex contemporary phenomenon Deng Xiaoping s 1980s policy of reform and opening which saw China enter the world market is only the most recent in a series of dramatic shifts that have transformed Chinese society over the past 150 years China A Modern History explores these contrasts in detail while also highlighting the enduring values which have informed Chinese identity for millennia Beginning with the waning years of the Qing dynasty Dillon compellingly recounts the 19th century period of national humiliation when China became a virtual colony of the Western powers and Japan Nationalists brought down the humbled Celestial Empire in 1911 ushering in a long period of discord from which Mao s Chinese Communist Party emerged bloodily triumphant in 1949 In a society still overwhelmingly agricultural Mao s colossal structural changes propelled China to superpower status but at an enormous human toll By Mao s death in 1976 programmes like the Great Leap Forward and the Cultural Revolution had once more brought China to the brink of total collapse It was at this moment that against all odds China recast itself yet again this time under the visionary leadership of Deng Xiaoping as a nation of Socialism with Chinese characteristics Informed by both ancient and contemporary values China has entered the new century on a powerful footing commanding unprecedented financial and industrial resources prepared to meet the West on its own terms Michael Dillon s China A Modern History is essential reading for those interested in the past present and future course of one of the world s great nations Clearly and compellingly written this will stand as the best introduction to this spectacular and still unfinished story

People's Wars in China, Malaya, and Vietnam Marc Opper,2019-11-08 People s Wars in China Malaya and Vietnam explains why some insurgencies collapse after a military defeat while under other circumstances insurgents are able to maintain influence rebuild strength and ultimately defeat the government The author argues that ultimate victory in civil wars rests on the size of the coalition of social groups established by each side during the conflict When insurgents establish broad social coalitions relative to the incumbent their movement will persist even when military defeats lead to loss of control of territory because they enjoy the support of the civilian population and civilians will not defect to the incumbent By contrast when insurgents establish narrow coalitions civilian compliance is solely a product of coercion Where insurgents implement such governing strategies battlefield defeats translate into political defeats and bring about a collapse of the insurgency because civilians defect to the incumbent The empirical chapters of the book consist of six

case studies of the most consequential insurgencies of the 20th century including that led by the Chinese Communist Party from 1927 to 1949 the Malayan Emergency 1948 1960 and the Vietnam War 1960 1975 People's Wars breaks new ground in systematically analyzing and comparing these three canonical cases of insurgency The case studies of China and Malaya make use of Chinese language archival sources many of which have never before been used and provide an unprecedented level of detail into the workings of successful and unsuccessful insurgencies The book adopts an interdisciplinary approach and will be of interest to both political scientists and historians *Mao* Alexander V. Pantsov, Steven I. Levine, 2013-10-29 Originally published in a different version in 2007 in Russian by Molodaia Gvardiia as Mao Tzedun Title page verso

Dictators and Autocrats Klaus Larres, 2021-10-31 In order to truly understand the emergence endurance and legacy of autocracy this volume of engaging essays explores how autocratic power is acquired exercised and transferred or abruptly ended through the careers and politics of influential figures in more than 20 countries and six regions The book looks at both traditional hard dictators such as Hitler Stalin and Mao and more modern soft or populist autocrats who are in the process of transforming once fully democratic countries into autocratic states including Recep Tayyip Erdoğan in Turkey Brazilian leader Jair Bolsonaro Rodrigo Duterte in the Philippines Narendra Modi in India and Viktor Orbán in Hungary The authors touch on a wide range of autocratic and dictatorial figures in the past and present including present day autocrats such as Vladimir Putin and Xi Jinping military leaders and democratic leaders with authoritarian aspirations They analyze the transition of selected autocrats from democratic or benign semi democratic systems to harsher forms of autocracy with either quite disastrous or more successful outcomes An ideal reader for students and scholars as well as the general public interested in international affairs leadership studies contemporary history and politics global studies security studies economics psychology and behavioral studies The Encyclopedia of Political Revolutions Jack A. Pieke, 2016-07-28 Contemporary China appears both deceptively familiar and inexplicably different China is a cauldron of forms of entrepreneurship social organization ways of life and governance that are at once new and unique recognizably Chinese and generically modern In analyzing and interpreting these developments Frank N. Pieke adopts a China centric perspective to move beyond western preoccupations desires or fears Each chapter starts with a key question about China showing that such questions and assumptions are often based on a misunderstanding or misconstruction of what China is today Pieke explores

twenty first century China as a unique kind of neo socialist society combining features of state socialism neoliberal governance capitalism and rapid globalization Understanding this society not only helps us to know China better but takes us beyond the old dichotomies of West versus East developed versus developing tradition versus modernity democracy versus dictatorship and capitalism versus socialism A Critical Introduction to Mao Timothy Cheek,2010-08-23 Mao Zedong's political career spanned more than half a century The ideas he championed transformed one of the largest nations on earth and inspired revolutionary movements across the world Even today Mao lives on in China where he is regarded by many as a near mythical figure and in the West where a burgeoning literature continues to debate his memory In this book leading scholars from different generations and around the world offer a critical evaluation of the life and legacy of China's most famous some would say infamous son The book brings the scholarship on Mao up to date and its alternative perspectives equip readers to assess for themselves the nature of this mercurial figure and his significance in modern Chinese history

The Making and Unmaking of the Chinese Radical Right, 1918-1951 Nagatomi Hirayama,2022-06-23 Examines the Chinese Youth Party's pivotal role in the making and unmaking of the radical right in Republican China **Mobilizing Shanghai Youth** Kristin Mulready-Stone,2014-11-27 In the late nineteenth and early twentieth centuries youth emerged as a new and important social force in many parts of the world In China the image of this new youth imprinted itself on Chinese consciousness and made clear to potential national leaders that future governments would not be able to ignore China's youth or expect them simply to step in line For this and other reasons the Chinese Communist Party CCP the Chinese Nationalist Party GMD and a string of War of Resistance era collaborationist governments all formed youth organizations in an effort to win youth over and harness their vitality and enthusiasm to further their agendas Mobilizing Shanghai Youth explores the similarities and differences among three youth organizations that were connected to Chinese political parties or governments in Shanghai spanning from the beginning of the May Fourth Movement just as youth began to emerge as a powerful social and political force in China to World War II when Nationalist Communist and Japanese forces were still competing for dominance It takes a comparative approach in exploring the similarities and differences trials and tribulations in how the Chinese Communist Party Chinese Nationalist Party and a series of collaborationist regimes sought to appeal to youth through the Communist Youth League the Three People's Principles Youth Corps and the China Youth Corps Focusing on Greater Shanghai allows a detailed exploration of the rise and fall of the original Communist Youth League and its connections to international communism The spotlight on Shanghai also yields the extraordinary finding that the Three People's Principles Youth Corps was a valuable asset to the Nationalist Party operating as a potent resistance organization in Japanese controlled Shanghai whereas branches in Nationalist controlled territory were factionalized dysfunctional and a terrible liability for the Party Most surprisingly the collaborationist China Youth Corps took the most practical and in some ways the most successful approach to mobilizing China's youth The result of exhaustive archival research this book will be of

huge interest to students and scholars of Chinese history modern history Communism and the role of youth in revolution

Seeking News, Making China John Alekna, 2024-03-19 Contemporary developments in communications technologies have overturned key aspects of the global political system and transformed the media landscape Yet interlocking technological informational and political revolutions have occurred many times in the past In China radio first arrived in the winter of 1922 23 bursting into a world where communication was slow disjointed or non existent Less than ten percent of the population ever read newspapers Just fifty years later at the beginning of the Cultural Revolution news broadcasts reached hundreds of millions of people instantaneously every day How did Chinese citizens experience the rapid changes in information practices and political organization that occurred in this period What was it like to live through a news revolution John Alekna traces the history of news in twentieth century China to demonstrate how large structural changes in technology and politics were heard and felt Scrutinizing the flow of news can reveal much about society and politics illustrating who has power and why and uncovering the connections between different regions peoples and social classes Taking an innovative holistic view of information practices Alekna weaves together both rural and urban history to tell the story of the rise of mass society through the lens of communication techniques and technology showing how the news revolution fundamentally reordered the political geography of China
