Globalisation, Freedom and the Media after Communism Birgit Beumers, Stephen Hutchings, Natalia Rulyova, 2013-10-18

This book examines the fate of post Soviet press freedom and media culture in the context of the growing impact of globalisation To understand the complicated situation that has arisen with respect to these issues in post Soviet space is impossible without collaboration between political scientists sociologists cultural analysts media studies researchers and media practitioners The book is one of the first attempts to bridge the gaps between political and cultural studies approaches between textual analysis and audience research as well as between practitioner led and scholarly approaches to the post Soviet media The cumulative impact of the essays contained in this section is to reinforce the intuition which inspired it that the post Soviet media remain a highly heterogeneous complex

and dynamic field for investigation With contributions from scholars and journalists across Europe including the former Soviet Union the collection addresses such issues as censorship and elections the legacy of the Soviet past terrorism and the media the post Soviet business press advertising and nation building official press discourse and entrepreneurship and global formats on Russian television This book was originally published as a special issue of *Europe Asia Studies* Developments in Russian Politics 5 Stephen White, Alex Pravda, Zvi Y. Gitelman, 2001 Russia has a new parliament and a new president and the shape of its future political life remains uncertain Taking the elections of 1999 and 2000 as their starting point the contributors to *Developments in Russian Politics 5* describe the institutional framework of the post Yeltsin system and examine the policy choices that confront the Putin administration This completely revised edition includes new discussions of such topics as media and political communication crime and corruption and Russia's continuing search for a national idea Other sections cover elections and electoral procedures parties and organized interests as well as economic social and foreign policy Written by leading scholars from both sides of the Atlantic *Developments in Russian Politics 5* will replace earlier editions as the leading text for students of Russia and for a wider group of readers seeking a reliable and up to date introduction to the politics of the world's largest country *The Diplomatic Record 1992/1993* Allan Goodman, 2019-05-28 The *Diplomatic Record* continues in its fourth year to offer the most comprehensive storehouse of current information available on international diplomatic relations including a look ahead to ongoing negotiations a chronology of diplomatic events for the year and a bibliography of current diplomacy related publications At the heart of every editi **Writing History in the Soviet Union** Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed *Writing History in the Soviet Union Making the Past Work* is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In

other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka

Television, Democracy and Elections in Russia Sarah Oates, 2006-08-21 Sarah Oates gives a detailed examination on a central theme in political science the relationship between democracy and the mass media This significant book contains a wealth of information and data including public opinion surveys content analysis of television news focus groups and in depth interviews to examine why political parties and the mass media failed so spectacularly to aid in the construction of a democratic system in Russia The analysis presents compelling evidence that television helped to tune out democracy as it served as a tool for leaders rather than a conduit of information in the service of the electorate or parties In addition focus groups and surveys show that the Russian audience are often more comfortable with authority rather than truth in television coverage Within this framework this fascinating work presents the colourful history of parties elections and television during one of the most critical eras in Russian history and captures a particularly significant epoch in contemporary Russian politics

Resolving the Russo-Japanese Territorial Dispute Brad Williams, 2007-06-11 The unresolved territorial dispute between Japan and Russia over the South Kuril Islands Northern Territories remains the largest obstacle to concluding a peace treaty and fully normalising bilateral relations between the two nations This book traces the evolution of transnational relations between subnational public authorities in Hokkaido and Sakhalin examining the interrelationship between these ties and the Russo Japanese territorial dispute The book investigates why the development of Hokkaido Sakhalin relations has failed to create at the subnational level an environment conducive to resolving kankyo seibi the South Kuril Islands Northern Territories dispute Brad Williams suggests that kankyo seibi has not worked primarily because Russia's troubled transition to a liberal democratic market economy has manifested itself in ways that have ultimately increased the South Kuril Islands intrinsic and instrumental value for the Sakhalin public and regional elite This in turn has limited the impact from the twin transnational processes of cultural and economic exchange in alleviating opposition to the transferral of these disputed islands to Japan Drawing upon a wealth of primary and secondary sources from both countries this book utilises levels of analysis and an analytical framework that incorporates national and subnational as well as governmental and non governmental forces to discuss a relatively unexplored aspect of Russo Japanese relations As such *Resolving the Russo Japanese Territorial Dispute* will appeal to students and scholars of Asian politics international relations and post communist states
