From Durer To Rauschenberg A Quintessence Of Drawing:

From Dürer to Rauschenberg ,1998 **Drawing from the Modern** Jodi Hauptman,Gary Garrels,Museum of Modern Art (New York, N.Y.),2004 Published on the occasion of the exhibition held at the Museum of Modern Art New York Mar 30 Aug 29 2005 A Quintessence of Drawing ,1997 *A Corpus of Rembrandt Paintings IV* Ernst van de Wetering,2010-07-19

Volume IV of *A Corpus of Rembrandt Paintings* deals uniquely with the self portraits of Rembrandt In a clearly written explanatory style the head of the Rembrandt Research Project and Editor of this Volume Ernst van de Wetering discusses the full body of work of paintings and etchings portraying Rembrandt He sets the different parameters for accepting or rejecting a Rembrandt self portrait as such whilst also discussing the exact working environment of Rembrandt and his apprentices This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings making it more difficult to determine the hand of the master Van de Wetering who is one of the Rembrandt experts of our day and age goes down to great detail to explain how the different self portraits are made and what techniques Rembrandt uses also giving an overview of which paintings are to be attributed to the Dutch Master and which not In the additional catalogue the self portraits are examined in detail In clear and accessible explanatory text the different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging like X radiography This work of art history and art research should be part of every serious art historical institute university or museum Nowhere in the art history have all Rembrandt s self portraits been discussed in such detailed and comparative manner by an authority such as Ernst van de Wetering This is a standard work for decades to come *What Art Is* Michelle Kamhi,Louis Torres,2016-05-26 What is art The arts establishment has a simple answer anything is art if a reputed artist or expert says it is Though many people are skeptical about the alleged new art forms that have proliferated since the early twentieth century today s critics claim that all such work however incomprehensible is art A groundbreaking alternative to this view is provided by philosopher novelist Ayn Rand 1901 1982 Best known as the author of *The Fountainhead* and *Atlas Shrugged* Rand also created an original and illuminating theory of art which confirms the widespread view that much of today s purported art is not really art at all In *What Art Is* Torres and Kamhi present a lucid introduction to Rand s esthetic theory contrasting her ideas with those of other thinkers They conclude that in its basic principles her account is compelling and is corroborated by evidence from anthropology neurology cognitive science and psychology The authors apply Rand s theory to a debunking of the work of prominent modernists and postmodernists from Mondrian Jackson Pollock and Samuel Beckett to John Cage Merce Cunningham and other highly regarded postmodernist figures Finally they explore the implications of Rand s ideas for the issues of government and corporate support of the arts art law and art education This is one of the most interesting provocative and well written books on aesthetics that I know While fully accessible to the general reader *What Art Is* should be of great interest to specialists as well Ayn Rand s largely

unknown writings on art especially as interpreted released from dogma and smoothed out by Torres and Kamhi are remarkably refined Moreover her ideas are positively therapeutic after a century of artistic floundering and aesthetic quibbling Anyone interested in aesthetics in the purpose of art or in the troubling issues posed by modernism and post modernism should read this book Randall R Dipert Author of Artifacts Art Works and Agency Torres and Kamhi effectively situate Rand s long neglected esthetic theory in the wider history of ideas They not only illuminate her significant contribution to an understanding of the nature of art they also apply her ideas to a trenchant critique of the twentieth century s advanced art Their exposure of the invalidity of abstract art is itself worth the price of admission Chris Matthew Sciabarra Author of Ayn Rand The Russian Radical Rand s aesthetic theory merits careful study and thoughtful criticism which Torres and Kamhi provide Their scholarship is sound their presentation is clear and their judgment is refreshingly free from the biases that Rand s supporters and detractors alike tend to bring to considerations of her work Stephen Cox University of California San Diego
