Heléna Tóth, 2014-10-30 Hel na T th considers exile in the aftermath of the revolutions of 1848 9 as a European phenomenon with global dimensions Exiles From European Revolutions Sabine Freitag, Rudolf Muhs, 2003-07-01 Studies on exile in the 19th century tend to be restricted to national histories This volume is the first to offer a broader view by looking at French Italian Hungarian Polish Czech and German political refugees who fled to England after the European revolutions of 1848 49 The contributors examine various aspects of their lives in exile such as their opportunities for political activities the forms of political cooperation that existed between exiles from different European countries on the one hand and with organizations

and politicians in England on the other and finally the attitude of the host country towards the refugees and their perceptions of the country which had granted them asylum [Spies in European Culture, 1815-1914](#) Laura Di Fiore, Elisabetta Abignente, 2025-01-23 This volume brings together academics from the USA and across Europe to examine the nature representations and perceptions of the figure of the spy in Europe between 1815 and 1914 As such it is the first scholarly investigation of the genesis both of contemporary espionage and of the cultural imagination associated with it [Spies in European Culture 1815 1914](#) sheds light on the founding moment of espionage and the use of secrecy in politics in the contemporary age It successfully argues that the 19th century saw the development of a cultural historical process in which disruptive novelties like the disguise the secret and the double identity simultaneously assailed the spheres of the state the self and the imaginary ushering in distinctive features of society in the modern era in the process This global phenomenon in which state and society but also reality and fiction were profoundly intertwined is therefore investigated by means of a transdisciplinary analysis that considers both the politico institutional and the cultural planes that existed at the time

Transcultural History Madeleine Herren, Martin Rüesch, Christiane Sibille, 2012-06-19 For the 21st century the often quoted citation past is prologue reads the other way around The global present lacks a historical narrative for the global past Focussing on a transcultural history this book questions the territoriality of historical concepts and offers a narrative which aims to overcome cultural essentialism by focussing on crossing borders of all kinds Transcultural History reflects critically on the way history is constructed asking who formed history in the past and who succeeded in shaping what we call the master narrative Although trained European historians the authors aim to present a useful approach to global history showing first of all how a Eurocentric but universal historiography removed or essentialised certain topics in Asian history As an empirical discipline history is based on source material analysed according to rules resulting from a strong methodological background This book accesses the global past after World War I looking at the well known stage of the Paris Peace Conferences observing the multiplication of new borders and the variety of transgressing institutions concepts actors men and women inventing themselves as global subjects but sharing a bitter experience with almost all local societies at this time namely the awareness of having relatives buried in far distant places due to globalised wars

The Memory of the Habsburg Empire in German, Austrian, and Hungarian Right-wing Historiography and Political Thinking, 1918-1941 Gergely Romsics,2010 By reproducing the political and historiographical debates surrounding the legacy of the Habsburg Empire this book follows the transformation of historico political thinking during the two world wars This transformation began in Germany where v lkish streams of the Conservative Revolution offered a radical new interpretation of history These reading focused on the unchanging essence of the Volk and treated a certain idea of the Habsburg past as inorganic derailing history and conflicting with the true calling of the German people The v lkish movement and its historiography both inspired and challenged Austrian and Hungarian intellectuals asking them to either adopt or resist this new philosophy and the politics it represented Building a history out of the realignment of German thought and its affect on small states within Germany s cultural orbit this volume richly recounts the clash between domestic tradition and imported innovations
