From Ice Breaker To Missile Boat:

From Ice-Breaker to Missile Boat Moshe Tzalel, 2000-06-30 As a small nation in a hostile region Israel has made defense a top priority Tzalel takes a critical look at the naval branch of Israel's defense forces to consider its history its performance and its overall importance to maintaining national security From a motley collection of illegal immigrant ships operated prior to the birth of the state the Israelis have since the 1960s established a modern navy However Tzalel argues the modernization and expansion of the Israeli navy has been driven more by an excess of funds and the lack of clearly defined priorities than by any real necessity Like most small countries Israel has no need to command the sea during peace or in wartime The author examines each step of naval development by direct correlation to the perceived need for each new phase and the circumstances that led naval and military leaders to make specific choices and he discusses the benefits of these choices on the field of battle He hopes to map the complex relationship between the navy men the Israeli government and public sentiment Although the nation has managed to create a new and impressive class of warship the Sa'ar FAC M and its larger derivatives Tzalel contends that the military logic behind such naval construction was faulty and that the nation's submarine flotilla constitutes a sheer waste of monetary and human resources

The Encyclopedia of the Arab-Israeli Conflict Spencer C. Tucker, Priscilla Roberts, 2008-05-12 This exhaustive work offers readers at multiple levels key insights into the military political social cultural and religious origins of the Arab Israeli conflict The Encyclopedia of the Arab Israeli Conflict A Political Social and Military History is the first comprehensive general reference encompassing all aspects of the contentious Arab Israeli relationship from biblical times to the present with an emphasis on the era beginning with World War I The Encyclopedia of the Arab Israeli Conflict goes beyond simply recapping military engagements In four volumes with more than 750 alphabetically organized entries plus a separate documents volume it provides a wide ranging introduction to the distinct yet inextricably linked Arab and Israeli worlds and worldviews exploring all aspects of the conflict The objective analysis will help readers understand the dramatic events that have impacted the entire world from the founding of modern Israel to the building of the Suez Canal from the Six Day War to the Camp David Accords from the assassinations of Anwar Sadat and Yitzhak Rabin to the rise and fall of Yasser Arafat the 2006 Palestinian elections and the Israeli Hezbollah War in Lebanon

Atomic Icebreaker United States. Congress. House. Merchant Marine and Fisheries, 19?? The Military Effectiveness of Post-Colonial States Pradeep Barua, 2013-04-15 Current military historiography has a tendency to portray the military effectiveness of non western post colonial states in broad generalized stereotypes This monograph examines the militaries of Nigeria Argentina Egypt and India in times of crisis to challenge these assumptions The book shows that despite having broad similarities each of these states had unique characteristics that impacted their military effectiveness in different ways These key variables included the military institutions maturity and skill sets the availability and management of human and material resources and the quality of both civil and military leadership General Foreign Policy Series, 1953

International Traffic in Arms United States. Department of State, 1953 The Economics of U.S. Foreign Policy Robert E. Asher, 1953 **The Battle of Ap Bac, Vietnam** David M. Toczek, 2001-04-30 Toczek provides the first description of the entire battle of Ap Bac and places it in the larger context of the Vietnam War The study thoroughly examines the January 1963 battle complete with detailed supporting maps Ironically Ap Bac's great importance lies in American policymakers' perception of the battle as unimportant for all their intelligence and drive senior American government officials missed the early warning signs of a flawed policy in Southeast Asia by ignoring the lessons of the defeat of the South Vietnamese Army ARVN on 2 January 1963 The outcome of Ap Bac was a direct reflection of how the U S Army organized, equipped and trained the ARVN With all the ARVN officer corps's shortcomings the South Vietnamese Army could not successfully conduct an American combined arms operation against a smaller, less well equipped enemy American leadership, both military and civilian, failed to draw any connection between ARVN's dismal performance and American policies toward South Vietnam Although certain tactical changes resulted from the battle, the larger issue of American policy remained unchanged, including the structure of the advisory system An Uncertain Trumpet Kenneth Finlayson, 2001-07-30 Faced with severe budgetary constraints, a radically reduced force structure and a crippling intellectual dogmatism, the American Infantry struggled throughout the interwar years to modernize its doctrine Finlayson examines these difficulties beginning with an overview of the experiences of the primary combatants of the First World War, comparing their battlefield doctrines with that of the American Expeditionary Force The brief American appearance on the battlefield did much to shape the convictions of those men assigned the task of developing doctrine after the war The findings of the post World War I Superior Board provide valuable insight into how institutional conservatism and the dogmatic approach to new ideas that existed among senior Army leaders stymied possible doctrinal advances The Army would suffer greatly in the post war demobilization and the subsequent ravages of the Great Depression With little money and few soldiers spread around far flung posts, little advancement in terms of doctrinal development was possible As the likelihood of war became more imminent in the 1930s, a concerted effort to modernize was made, however the magnitude of the task made success virtually impossible, a situation that was evident in the Infantry's poor performance in the early battles of the war The U S entry into World War II would unfortunately find the infantry branch only partially prepared for the battlefield of 1942 *Military Aspects of the Israeli-Arab Conflict* Louis Williams, 1975-01-01 The Arab-Israeli conflict is fraught with political complexity It entails long standing entrenched views on the part of all the participants, direct and indirect, and is heavily charged with emotion It is a subject of great political and military actuality The Middle East is fast becoming a testing ground for modern weapons systems and for modern conventional war doctrines, a recent example being the Yom Kippur War Most publications, articles, papers, books on the war were produced while sentiments were still high and the armies still formulating their conclusions Confusion, controversy and emotions eclipsed clarity An international symposium was held two years after the war to

objectively debate the war its lessons and the Middle East conflict in general This book contains all of the speeches and papers presented at that symposium plus a record of three related events These were question and answer sessions with Prime Minister Yitzhak Rabin Foreign Minister Yigal Allon and Jerusalem Mayor Teddy Kollek These interviews along with the symposium contribute to an understanding of the Middle East conflict and of the thinking and personalities of key figures in Israeli life and politics Contents and Contributors OPENING CEREMONY Shimon Peres THE ART OF WAR EAST AND WEST Saadia Amiel Uzi Eilam Amnon Sella Edward Luttwak Kenneth Hunt Moshe Arens Daniel Shimshoni QUESTION AND ANSWER SESSION Teddy Kollek MILITARY REPORTING IN CLOSED AND OPEN SOCIETIES Dina Goren Michael Elkins Arnon Zuckerman SUPERPOWER COMPETITION IN THE MIDDLE EAST Abraham Becker Arnold Horelick Geoffrey Kemp Nissan Oren Haim Bar kai Haim Shaked QUESTION AND ANSWER SESSION Yigal Allon MILITARY BALANCE OF POWER IN THE MIDDLE EAST Shimon Shamir David Kochav Shlomo Gazit Yehezkel Dror Matityahu Mayzel Mor dechai Gur MEET THE PRESS Yitzhak Rabin THE YOM KIPPUR WAR A REVIEW OF THE MAIN BATTLES IN RETROSPECT AND THEIR LESSONS Benyamin Telem Binyamin Peled David Elazar Haim Bar Lev **Fact Sheet on the Mutual Security Program** United States. Department of State,1958 **The Emperor's Friend** Margaret S. Chrisawn,2001-05-30 An examination of the life of Marshal Jean Lannes this study looks at the career of the only soldier of any rank who consistently said exactly what he thought to Napoleon at every stage of their amazing careers The marshal not only survived these frank encounters he was well rewarded for his abilities which were remarkable even among the stellar senior officers who served the Emperor While Lannes was best known for his military skill especially as an advance guard commander his unconventional three year diplomatic career was equally noteworthy since his diplomatic tactics resulted in particular benefits for France His career spanned much of what many historians and readers believe to be one of the most fascinating and controversial eras in French history The marshal s personality and his tendency to lead by example rather than by orders won him the respect and the affection of his troops He also charmed a diverse number of his contemporaries from autocratic rulers to literary icons Although his relationship with Napoleon was stormy at times he earned and kept the Emperor s friendship and esteem Chrisawn avoids the tendency of previous biographers to either canonize or condemn the marshal providing instead a balanced treatment of her subject which includes both his strengths and his shortcomings Marshal Jean Lannes emerges as a complete person within the context of his own intriguing world **The Code of Federal Regulations of the United States of America** ,1958 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government Code of Federal Regulations ,1963 **Middle East Conflicts from Ancient Egypt to the 21st Century** Spencer C. Tucker,2019-08-27 With more than 1 100 cross referenced entries covering every aspect of conflict in the Middle East this definitive scholarly reference provides readers with a substantial foundation for understanding contemporary history in the most volatile region

in the world This authoritative and comprehensive encyclopedia covers all the key wars insurgencies and battles that have occurred in the Middle East roughly between 3100 BCE and the early decades of the twenty first century It also discusses the evolution of military technology and the development and transformation of military tactics and strategy from the ancient world to the present In addition to the hundreds of entries on major conflicts military engagements and diplomatic developments the book also features entries on key military political and religious leaders Essays on the major empires and nations of the region are included as are overview essays on the major periods under consideration The book additionally covers such non military subjects as diplomacy national and international politics religion and sectarian conflict cultural phenomena genocide international peacekeeping missions social movements and the rise to prominence of international terrorism The reference entries are augmented by a carefully curated documents volume that offers primary sources on such diverse topics as the Greco Persian Wars the Crusades and the Arab Israeli Wars **Ordered to Die** Edward J.

Erickson,2000-11-30 The first general history in English of the Ottoman Army in the First World War **Ordered to Die** is based on newly available Turkish archival and official sources Outnumbered and outgunned the Ottoman Army performed astonishingly well in the field and managed to keep fighting until the end of the war long after many other armies had quit the field It fought a multi front war against sophisticated and capable enemies including Great Britain France and Russia Erickson challenges conventional thinking about Ottoman war aims Ottoman military effectiveness and the influence of German assistance Written at the strategic and operational levels this study frames the Turkish military contributions in a unitary manner by establishing linkages between campaigns and theaters It also contains the first detailed discussion of Ottoman operations in Galicia Romania and Macedonia Erickson provides a wealth of information on Ottoman Army organization deployments strategy and staff procedures He examines with particular attention the army s role in the Armenian deportations and the intelligence available to the Turks in 1914 and 1915 Appendixes include biographies of important commanders the efforts of the Ottoman Air Force Ottoman casualties as well as a wartime chronology **Federal Register** ,1960 **The Formative Influences, Theories, and Campaigns of the Archduke Carl of Austria** Lee W.

Eysturlid,2000-08-30 Archduke Carl of Austria lived during a time fractured by the collision of revolution and reaction and he drew upon the French Revolution as the source for most of his experiences as a field commander and theoretician He firmly believed that there were certain uncontradictable truths that governed warfare This first English language study of his theoretical writings offers a new perspective on understanding the mind of this military theorist through study of his intellectual background The archduke s military career lasted from 1792 to 1809 and his serious work as a military theoretician and historian ranged from the 1790s to the 1830s Eysturlid explores Archduke Carl s formative military education and experiences by examining the readings that formed the basis of his education and the instructors that exercised an influence over him Archduke Carl was a definite product of his Enlightenment education and a diehard

proponent of limited warfare Chapters look carefully at Carl s major works on military strategy and tactics and observe in detail his actions and efforts during the 1796 and 1809 campaigns Two historiographical chapters provide valuable contextual material about this poorly understood historical figure

Defence Industries in the 21st Century Çağlar Kurç, Richard A. Bitzinger, Stephanie G. Neuman, 2021-05-13 Defence Industries in the 21st Century explores the transformation in the global defence industrial production through examining the interaction between international and domestic factors With the global defence industry and arms market likely continue to expand and mature the ways in which this progression could influence international politics remain obscure In practice as the contents of this book show the defence industrial bases and arms export policies of emerging states display significant variance This variance is the result of a unique balance between domestic and international factors that has shaped the defence industrialisation behaviour and policies of the less industrialised states One of the most important conclusions of the book is that the interplay between domestic and international factors clearly influences the variation in the emerging states defence industrialisation policies as well as their success or failure While international factors create opportunities they also limit the options available to emerging economies Domestic factors also play an important role by shaping the policy choices of the states decision makers Exploring the balance between international and domestic factors and the ways in which they influence defence industrialisation in emerging states Defence Industries in the 21st Century will be of great interest to scholars of Defence Industries Arms Manufacturing and Defence Strategic and Security Studies more generally The chapters were originally published in Defence Studies Comparative Strategy and All Azimuth
