Dodd, 1984-01-01 The first study presents a model of Ontario Iroquoian village organization based on fourteen Late Iroquoian ca A D 1450 1650 village plans historic documents and comparative data on contemporary communities It is argued that socio political factors village demography socio economics and government were the major determinants of Iroquoian village arrangement In light of the socio political model suggested in part one of this book the second study interprets changes in longhouse village planning throughout the Ontario Iroquois sequence A D 700 1650 as responses to evolutionary trends in Iroquoian warfare patterns and political organization Published in English

Longhouses Karen Bush Gibson, 2005 A brief introduction to longhouses including the materials construction and people who lived in these traditional Native American dwellings *Longhouses* Jack Manning, 2019-05-01 American Indians used wood bark and other materials to build longhouses Learn all about longhouses including the tools used to build them and the people who called them home **The Architecture of Life and Death in Borneo** Robert L. Winzeler, 2004-01-01 Present day travelers visiting Borneo to see the marvelous buildings pictured in books are liable to wonder if they somehow ended up in the wrong place Much of the architecture of Borneo and other areas of the humid tropics was never intended to last and built as it is of wood and other organic materials last it has not Among Borneo s spectacular indigenous buildings the longhouses mortuary monuments and other architectural forms of the interior are some of the most outstanding and much of the renewed interest in indigenous architecture has focused on the rapidly vanishing or now extinct traditional forms of a small number of surviving examples or recreations Drawing on the author s extensive research and travel in Borneo this impressive and original study offers a more comprehensive account of this architecture than any previous work Organized into two sections the book first documents and explains traditional built forms in terms of tools and materials the environmental context village organization and social arrangements This section includes a full discussion of architecture designs and symbolism especially those dealing with life and death The author next look Home in the Islands Jan

Rensel, Margaret Rodman Critchlow, 1997-09-01 Ordinary houses have extraordinary stories to tell For more than a century anthropologists have been recording these sagas in an attempt to uncover humanity's relationship with the common dwelling Fundamental to the interaction of humans and housing is the way people shape their living spaces even redefining their purposes and meanings their houses in turn influence how people live their lives and perpetuate the cultural structures that produced a given form of shelter The stories draw attention to colonial and missionary agendas local and global economies environmental disasters cultural identities social connections and family continuity as well as personal choices And as the chapter on homeless Hawaiians shows even those without houses have stories to tell Anthropologists architects environmental designers geographers and historians will welcome this diverse volume on a neglected yet important aspect of change in the lives of Pacific Islanders

**Conversion, Identity, and Power** Sue A. Russell, 1999-07-08 The introduction of Christianity into traditional societies has been the subject of numerous studies Few of these studies however have adequately examined the way that this introduction affects power relationships in a community In this the third volume in the American Society of Missiology's dissertation series A Sue Russell attempts to advance the discourse on Christianity and social change by showing how a new social institution the local church both influences and is influenced by existing sociocultural power relationships Building on her extensive research into the Tagal Murut Dr Russell clearly demonstrates that the introduction of Christianity created a dynamic that produced new social relations and power structures in Tagal society With its unique insights into this crucial dynamic Conversion Identity and Power stands as an important contribution to the sociological and missiological literature exploring the impact of Christianity on traditional societies Book jacket

**The Life of the Longhouse** Peter Metcalf, 2009-12-14 For two centuries travellers were amazed at the massive buildings found along the rivers that flow from the mountainous interior of Borneo They concentrated hundreds of people under one roof in the middle of empty rainforests There was no practical necessity for this arrangement and it remains a mystery In this book Peter Metcalf provides an answer by showing the historical context using both oral histories and colonial records The key factor was a pre modern trading system that funneled rare and exotic jungle products to China via the ancient coastal city of Brunei Meanwhile the elite manufactured goods traded upriver shaped the political and religious institutions of longhouse society However the apparent permanence of longhouses was an illusion In historical terms longhouse communities were both mobile and labile and the patterns of ethnicity they created more closely resemble the contemporary world than any stereotype of tribal societies

**Indonesian Houses**, 2022-06-20 The traditional houses and settlements of the several hundred ethnic groups of Indonesia are extremely varied and all have their own unique history Underlying this rich diversity are fundamental similarities rooted in the ancient heritage that is shared by all the peoples in the Indonesian field of study The multiplicity of ways in which this heritage is given shape in each local situation bears witness to an amazing creativity in adapting to regional circumstances and social changes Inter ethnic comparison of the architectural structures is a way to

arrive at a better understanding of both the shared traditions and the diverging developments In many cases the variety of house forms will reflect successful attempts at one group s making distinct its buildings from those of neighbouring groups in an ongoing ethnic process of what could be called mutual contrasting although sometimes by means of pseudo traditions which have little to do with indigenous customs of the past The contributions to this volume are grouped in four sections The first consists of essays describing approaches to the transformation and variation of houses The second set presents applications of these approaches in case studies of specific Sumatran cultures The third group widens the perspective through the inclusion of a number of cultures from outside Sumatra namely from Flores Sulawesi Kalimantan Palu and Roti The final set deals not so much with houses as with settlements In their pursuit of the cultural dimension of houses the contributions focus on villages and towns exploring their cosmological and symbolic organization The Prehistory of Home
