In the tradition of Elizabeth Kolbert and Barry Lopez a powerful poetic and deeply absorbing account of the lung at the top of the world For the last fifty years the trees of the boreal forest have been moving north Ben Rawlence s *The Treeline* takes us along this critical frontier of our warming planet from Norway to Siberia Alaska to Greenland Canada to Sweden to meet the scientists residents and trees confronting huge geological changes Only the hardest species survive at these latitudes including the ice loving Dahurian larch of Siberia the antiseptic Spruce that purifies our atmosphere the Downy birch conquering Scandinavia the healing Balsam poplar that Native Americans use as a cure all and the noble Scots Pine that lives longer when surrounded by its family It is a journey of wonder and awe at the incredible creativity and resilience of these species and the mysterious workings of the forest upon which we rely for the air we breathe Blending reportage with the latest science *The Treeline* is a story of what might soon be the last forest left and what that means for the future of all life on earth

Derrida and Disinterest Sean Gaston,2005-04-14 Disinterest has been a major concept in Western philosophy since Descartes Its desirability and importance have been disputed and its definition reworked by such pivotal figures as Nietzsche Shaftesbury Locke and Kant In this groundbreaking book Sean Gaston looks at the treatment of disinterest in the work of two major modern Continental philosophers Jacques Derrida and Emmanuel Levinas He identifies both as part of a tradition obscured since the eighteenth century that takes disinterest to be the opposite of self interest rather than the absence of all interest Such a tradition locates disinterest at the centre of thinking about ethics The book argues that disinterest plays a significant role in the philosophy of both thinkers and in the dialogue between their work In so doing it sheds new light on their respective contributions to moral and political philosophy Moreover it traces the history of disinterest in Western philosophy from Descartes to Derrida taking contributions and in the of major philosopher in both the analytic Anglo American and Continental traditions Locke Shaftesbury Hume Smith Nietzsche Kant Hegel Heidegger Derrida and *Disinterest* offers a new reading of Derrida a stimulating account of the role and importance of disinterest in the history of Western philosophy and a provocative and original contribution to Continental ethics

Beaumarchais and the War of American Independence Elizabeth Sarah Kite,2023-11-16 In *Beaumarchais and the War of American Independence* Elizabeth Sarah Kite delves into the life of Pierre Augustin Caron de Beaumarchais a key figure in both French and American history during the 18th century This scholarly work explores Beaumarchais role as a playwright musician and diplomat emphasizing his covert involvement in supplying arms to the American rebels Kite s detailed analysis highlights Beaumarchais wit and resourcefulness shedding light on his lesser known contributions to the American Revolution The book s prose is engaging and meticulously researched making it a valuable resource for students of political history and literature alike Elizabeth Sarah Kite an esteemed historian and author brings her expertise in French and American history to this compelling narrative By drawing on archival materials and primary sources Kite uncovers new insights into Beaumarchais intriguing life

and motivations providing a fresh perspective on his significance in the War of American Independence I highly recommend Beaumarchais and the War of American Independence to readers interested in exploring the intersection of literature and politics as well as those seeking a deeper understanding of the unsung heroes of the American Revolution **Christian Work** ,1901 **Commentary on the Prophets of the Old Testament** Heinrich Ewald,John Frederick Smith,2024-05-03 Reprint of the original first published in 1881 **Commentary on the Prophets of the Old Testament, Volume 5** Georg Heinrich Ewald,2006-03-17 It is infinitely better to commence a study of the prophets with what they themselves have written rather than with the meagre narratives and scattered legends of their deeds and words In their own writings they have most distinctly and trustworthily laid bare their spirit Whoever desires to know in their inmost hearts these heroes of divine truth and to admire their genuine greatness should learn first to understand their words and actions as they themselves have recorded them It is here that they approach us most closely and confidingly inviting us most irresistibly to make ourselves acquainted with them from the Introduction **Commentary on the Prophets of the Old Testament: Commentary on the books of Haggái, Zakharya, Mal'aki, Yona, Barûch, Daniel** Heinrich Ewald,1881
