From Generation To Generation A History Of Torontos Mount Sinai Hospital:

From Generation to Generation Lesley Marrus Barsky, 1998 In 1998 Toronto's Mount Sinai Hospital celebrates its seventy fifth anniversary A fine and innovative proponent of patient care and a leader in the field of medical research it marks this milestone secure in the knowledge that it is undisputedly one of the jewels of the Canadian health care system However writes Lesley Marrus Barsky Mount Sinai's rise from its humble beginnings in a small house on Yorkville Avenue to its present pre eminence is a story as rare as it is astonishing and as much the story of a community as of an institution In the early decades of this century a massive exodus of Jewish immigrants from eastern Europe fleeing persecution in their homelands changed the face of Toronto's Jewish community forever From 1900 to 1921 the Jewish population from 3 000 to almost 35 000 and many of these newcomers were destitute Struggling to survive often unable to communicate in English and crowded into city centre slums they suffered on many fronts and not the least of these was the lack of adequate health care that respected and took into account their specialized needs At the same time Jewish doctors sidelined by antisemitism were prevented from interning or attending patients in Toronto hospitals Clearly what was needed was a Jewish hospital and in May 1922 a charitable women's group the Ezras Noshem purchased a building at 100 Yorkville Avenue Concerned about the scope of treatment expected of a general hospital the group named the new institution the Toronto Jewish Maternity and Convalescent Hospital but support from the community was forthcoming and less than a year later the hospital took on broader duties and was renamed Mount Sinai At first crowded and often makeshift the hospital was nonetheless blessed with loyal doctors nurses volunteers and community supporters who laboured tirelessly to raise money improvise equipment and meet an ever shifting variety of needs This dedication often became literally a family concern To this day there are families in which service to Mount Sinai has been a tradition from generation to generation Lesley Marrus Barsky has done justice to this human history recording the rise of a state of the art hospital now on university Avenue that meets the needs of patients with foresight and ingenuity while maintaining an outstanding reputation in the international field of medical research Friends of Mount Sinai as well as anyone interested in health care medical research or Toronto history are sure to enjoy this affectionate and informed look at a great institution as it celebrates its seventy fifth year of service

Notes to the University of Toronto Martin L. Friedland, 2002-12-15 Two histories of the University of Toronto have been published one in 1906 and one in 1927 Since the latter volume appeared no comprehensive history of the University has been published Given the size of the University and the complexity of the task this is not entirely surprising But after sixty six years this gap in the intellectual history of Canada has been filled and we are delighted to announce publication in March of 2002 of Martin Friedland's new history of one of Canada's most important educational and cultural institutions The author of several books on legal history Professor Friedland brings to this task an accomplished eye and ear and a status as a long time member of the University community Professor Friedland's text is accompanied by over 200 maps drawings and photographs Published

to coincide with the University's 175th anniversary. The University of Toronto A History tells the story of the university in the context of the history of the nation of which it is a part, weaving the stories of the people who have been a part of this institution, people who make up a who's who in the history of Canada. Anyone who attended the University or who is interested in the growth of Canada's intellectual heritage will enjoy this compelling and magisterial history. *Partnership for Excellence* Edward Shorter, 2013-12-06. The University of Toronto's Faculty of Medicine is North America's largest medical school and a major health consortium boasting nine affiliated teaching hospitals and a network of research institutes. It is where insulin was pioneered, stem cells were first discovered, and famous physicians from Vincent Lam to Sheela Basrur began their careers. But despite all its major accomplishments, the faculty's impressive history has never before been comprehensively documented. In *Partnership for Excellence*, senior medical historian and award-winning author Edward Shorter details the Faculty of Medicine's history from its inception as a small provincial school to its present-day status as an international powerhouse. Deeply researched through front-line interviews and primary sources, it ties the story of the faculty and its teaching hospitals to the general history of medicine over this period. Shorter emphasizes the enormous concentration of intellectual energy in the faculty that has allowed it to become the dominant force in Canadian medicine, home to a legion of medical pioneers and achievements. *Toward the Health of a Nation* Leslie A. Boehm, 2020-10-22. Canadians view their healthcare recognized throughout the world as an exemplary system, as iconic and integral to their identity. In *Toward the Health of a Nation*, Leslie Boehm recounts the first seventy years in the life of one of the foundations of Canada's healthcare system, the Institute of Health Policy Management and Evaluation at the University of Toronto. Boehm, a graduate of IHPME and an instructor there throughout his career, charts the institute's history from its inception in 1947 as the Department of Hospital Administration to the present day. The first program of its kind in Canada and one of the few in the world, the school was founded at a time when the issue of healthcare was becoming a significant part of national and provincial discussions and policies. Initially concentrating on hospital management and professional degrees, it has expanded to offer academic degrees and facilitate important research into health systems, policies, and outcomes. In *Toward the Health of a Nation*, Boehm demonstrates the excellence of the program, its faculty, and its graduates, as well as their accomplishments in major government initiatives and royal commissions. In the seventy years since IHPME's inception, healthcare has grown to become a major part of government and business activity, and it will only increase in coming years. An in-depth history of a major program in graduate health education, *Toward the Health of a Nation* highlights how important healthcare is to a modern functional society. *SickKids* David Wright, The Hospital for Sick Kids, 2017-01-06. Toronto's Hospital for Sick Children is the most famous medical institution in Canada. In addition to being the largest pediatric centre in North America, it has earned an international reputation for clinical care and research that has influenced generations of health care practitioners across the country and around the world. In a very real sense, hospital staff have touched the lives of tens of thousands of

children and their families SickKids has an equally remarkable history from its humble origins in rented houses in Victorian Toronto the Hospital would flourish to become an influential paediatric institution pioneering Pasteurization the Iron Lung for Polio Pablum the Mustard Procedure for Blue Babies and the discovery of the gene for Cystic Fibrosis It would also be the site of two of most famous medical controversies in modern Canadian history the suspected murder of two dozen babies in the early 1980s and more recently the whistle blowing controversy involving the research scientist Nancy Olivieri David Wright s History of The Hospital for Sick Children chronicles this remarkable history of the SickKids including its triumphs and tragedies its discoveries and dead ends In doing so Wright has crafted a compelling and accessible history of SickKids that anchors Toronto s children s hospital within the broader changes affecting Canadian society and medical practice over the last century The Defining Decade Harold Martin Troper,2010-01-01 Gil Troy Professor of History McGill University

Doing Good J.T.H. Connor,2000-12-15 A history of Toronto s general hospital offers a window on a broader history of Upper Canada and Ontario over the last two centuries In this lively and authoritative account J T H Connor traces the hospital s two hundred year evolution as its mandate to do good forced constant adjustment to changing social medical and government attitudes *Doing Good* presents the hospital s history in three phases roughly speaking the first and second halves of the nineteenth century and the twentieth century From its conception in 1797 to the mid 1850s it did not actually acquire a home until 1819 nor occupy it until 1829 it functioned as a charitable institution catering to the sick poor It acted initially as a clearing station for sick immigrants it later was deeply affected by political events and became embroiled in the medical turmoil of Toronto in the 1840s and early 1850s In the second era from the mid 1850s it was a public charity receiving stable government funding and constructing a new home in eastern Toronto By the 1870s it was winning praise as a model hospital In the twentieth century it early on established close links with the University of Toronto building a vast and up to date new facility adjacent to the university which opened in 1913 Its international reputation as an academic hospital grew over the decades to include a high profile in research most notably in cancer and medical technology By the 1960s the institution was being run as a public hospital and the late 1990s saw its absorption into a hospital mega corporation the University Health Network along with three other nearby hospitals This work is the most comprehensive analysis of any Canadian hospital or health care institution yet to appear Using trustees minutes medical journals newspapers and government reports along with correspondence photographs and reminiscences of trustees nurses doctors and patients Connor offers acute observation and detailed analysis as well as compelling character studies and revealing anecdotes Broad in scope and meticulously executed *Doing Good* brings vividly to life the day to day routines the behind the scenes intrigue and the people and politics of a great urban hospital **Imposing Their Will** Jack Lipinsky,2011 The beginnings of one of the most organized ethnic communities in North America **University of Toronto Quarterly** University of Toronto,2000 No Better Home? David Koffman,2021-01-31 This book begins with an audacious question Has there ever been a better home for Jews than Canada

By certain measures Canada might be the most socially welcoming economically secure and religiously tolerant country for Jews in the diaspora past or present *No Better Home* takes this question seriously while also exploring the many contested meanings of the idea of home Contributors to the volume include leading scholars of Canadian Jewish life as well as eminent Jewish scholars writing about Canada for the first time The essays compare Canadian Jewish life with the quality of life experienced by Jews in other countries examine Jewish and non Jewish interactions in Canada analyse specific historical moments and literary texts reflect deeply personal histories and widen the conversation about the quality and timbre of the Canadian Jewish experience *No Better Home* foregrounds Canadian Jewish life and ponders all that the Canadian experience has to teach about Jewish modernity *Faces in the Crowd* Franklin Bialystok, 2022-06-29 Starting with the first steps on Canadian soil in the eighteenth century to the present day *Faces in the Crowd* introduces the reader to the people and personalities who made up the Canadian Jewish experience from the Jewish roots of the NHL's Ross trophy to Leonard Cohen and all the rabbis artists writers and politicians in between Drawing on a lifetime of wisdom and experience at the heart of the Canadian Jewish community Franklin Bialystok adds new research unique insights and best of all memorable stories to the history of the Jews in Canada *The University of Toronto* Martin L. Friedland, 2002-01-01 Telling the story of the University from its origins as King's College in 1827 to the present Martin Friedland weaves together personalities events and intellectual ideas The first history of the University in seventy five years **Canada's Jews** Gerald Tulchinsky, 2008-05-24 The history of the Jewish community in Canada says as much about the development of the nation as it does about the Jewish people Spurred on by upheavals in Eastern Europe in the late nineteenth and early twentieth centuries many Jews emigrated to the Dominion of Canada which was then considered little more than a British satellite state Over the ensuing decades as the Canadian Jewish identity was forged Canada itself underwent the transformative experience of separating itself from Britain and distinguishing itself from the United States In this light the Canadian Jewish identity was formulated within the parameters of the emerging Canadian national personality *Canada's Jews* is an account of this remarkable story as told by one of the leading authors and historians on the Jewish legacy in Canada Drawing on his previous work on the subject Gerald Tulchinsky illuminates the struggle against anti-Semitism and the search for a livelihood amongst the Jewish community He demonstrates that far from being a fragment of the Old World the Canadian Jewry grew from a tiny group of transplanted Europeans to a fully articulated diversified and dynamic national group that defined itself as Canadian while expressing itself in the varied political and social contexts of the Dominion *Canada's Jews* covers the 240 year period from the beginnings of the Jewish community in the 1760s to the present day illuminating the golden chain of Jewish tradition religion language economy and history as established and renewed in the northern lands With important points about labour immigration and anti-Semitism it is a timely book that offers sober observations about the Jewish experience and its relation to Canadian history **American Jewish Year Book, 1999** ,1999 The Library owns the volumes of the

American Jewish Yearbook from 1899 current **Toronto** Ron Williamson,2008-06-15 Telling Toronto's story from the final retreat of the Laurentide Ice Sheet to today's metropolis a team of expert authors brings beautiful illustrations and fascinating fresh perspectives together in this new natural archaeological and social history A Generation of Excellence Robert Craig Brown,2007-01-01 The Canadian Institute for Advanced Research originated at the University of Toronto in the early 1980s Since that time it has gone from a small independent centre to an important and revered institution with a significant role in the study of sciences social sciences and humanities in Canada A Generation of Excellence is a detailed history of the CIAR from its humble beginnings to its ascension as one of the most important research organizations in the country Beginning in the summer of 1982 with the CIAR merely a conception in the minds of senior scholars at the University of Toronto Craig Brown takes us through the process of realization detailing the early years of the Institute under the presidency of Dr Fraser Mustard From early struggles to eventual triumphs Brown examines the CIAR's pursuit of an ethos to explore fundamental issues in the social sciences and humanities by funding teams of researchers showing how success was painstakingly achieved The rise of the CIAR is deftly illustrated by pairing its earliest projects with the twentieth anniversary Congress held in 2002 in honour of the Institute and two decades of research A Generation of Excellence tells the story of one of the country's most remarkable institutions **Journal of the National Cancer Institute** ,2007
