## **From Image To Likeness The Christian Journey Into God:**

From Image to Likeness William Simpson, 1997-04-01 Under the influence of Augustine many Christian spiritualities dwell on human weakness and recommend a passive response to grace According to such spiritualities the most important fact about human beings is that we are sinners in need of salvation In From Image to Likeness William Simpson suggests that our human natures are unfinished and that the Christian spiritual journey finds its fullest expression when one's life reflects God's creative and sustaining activity We are already bearers of the divine image because we are God's creatures and we resemble that from which we came We grow into the divine likeness as we cooperate with grace and begin to manifest God's presence in the world By emphasizing the incarnational aspects of the Christian message Simpson offers a traditionally rooted alternative to these Augustinian spiritualities Here the spiritual journey emerges not as a flight from one's wounded and corrupt nature but as the ongoing discovery of one's true nature as a child of God

**Spirituality** Kees Waaijman, 2002 This textbook is a systematic guide to the extensive field of spirituality Kees Waaijman charts the multiform phenomenon of spirituality the spirituality of ordinary people the great spiritual traditions and the force of counter movements From the foundation of this survey he answers questions like What exactly is spirituality What forms can a scholarly approach take Finally the book provides methodic access to the study of spirituality focusing on the following questions Which are the different forms of spirituality and how can we describe them How can spiritual texts be given a reliable reading Which themes can be distinguished in the field of spirituality and what would be a meaningful way to address them What do we mean by spiritual guidance and what can we learn from it This textbook has no equal It is indispensable to scholars wishing to study the subject but also to others who want to learn about spirituality

Transformation in Theosis Yohanes Bambang Mulyono, 2025-02-18 Transformation in Theosis invites readers on a spiritual odyssey exploring the ancient Christian concept of theosis the audacious idea that humans can participate in the divine nature In a world obsessed with material gain and fleeting achievements what if our truest calling is to become godlike The author weaves a tapestry of wisdom drawing from early church fathers to modern theologians venturing into social justice and environmental stewardship The journey begins with the restoration of the imago Dei and goes through biblical foundations Christ's transfiguration and diverse denominational perspectives But this isn't just a scholarly tome It's a radical call to action challenging readers to transcend religious boundaries and embrace a transformative path Theosis is not some lofty unreachable ideal but a tangible reality with far reaching implications for personal growth and societal change As it explores theosis in the context of our digital age readers are left with a provocative question In a world of artificial intelligence and virtual realities what does it mean to embody the divine Transformation in Theosis offers no easy answers instead extending an invitation to scholars seekers and believers alike to step into a journey of self discovery and inner transformation and ultimately to dare to embrace their own divine nature

**Jesus of the East** Phuc Luu, 2020-06-16 Why does our theology of salvation focus on forgiving sinners but not on healing those wounded by sin Much of Western Christianity has subdued the narrative of Jesus as a Palestinian Jewish healer and liberator who served the sick and oppressed But the Jesus of the Gospels is a revolutionary who stands with the sinned against the wounded and the marginalized In Jesus of the East author Phuc Luu re narrates the life of Jesus to show how he made it his work to topple systems that privileged the few and disregarded the many especially the poor and lowest In this provocative book Luu offers a counter narrative to Western Christianity which for centuries has legitimized colonization and violence to prop up the powerful at the expense of the masses Pulling from the tradition of the early Eastern church the present work of theologians of the oppressed and Luu s own experiences as a Vietnamese immigrant Jesus of the East offers a transformative vision of healing for the world For those living in the land between pain and hope Luu s prophetic words will renew our imaginations and draw us closer to the heart of God

**The Political Dialogue of Nature and Grace** Caitlin Smith Gilson, 2017-03-23 The discourse between nature and grace finds its linguistic and existential podium in the political condition of human beings As Caitlin Smith Gilson shows it is in this arena that the perennial territorial struggle of faith and reason God and man man and state take place and it is here that the understanding of the personal as political as well as the political as personal finds its meaning And it is here too that the divine finds or is refused a home Any discussion of post secular society has its origins in this political dialogue between nature and grace the resolution of which might determine not only a future post secular society but one in which awe is re united to affection solidarity and fraternity Smith Gilson questions whether the idea of pure nature antecedently disregards the fact that grace enters existence and that this accomplishes a conversion in the metaphysical existential region of man s action and being This conversion alters how man acts as an affective moral intellectual social political and spiritual being State of nature theories transformed yet retained in the broader metaphysical and existential implications of the Hegelian Weltgeist are shown to be indebted to the ideological restrictedness of pure nature natura pura as providing the foremost adversary to any meaningful type of divine presence within the polis as well as inhibiting the phenomenological facticity of man as an open nature
