The Genesis Enigma Andrew Parker, 2009-10-08 An acclaimed paradigm shifting evolutionary biologist shows how the biblical story of Genesis uncannily reflects recent scientific discoveries and finds room for divine inspiration within Consider this Genesis recounts the story of creation step by step Let there be light Let the waters under the heaven be gathered together into one place and let the dry land appear Let the earth bring forth vegetation Let the waters bring forth abundantly the moving creature that hath life God created the whales And God created every winged fowl For thousands of years Judeo Christian belief has accepted this progression as truth And now thanks to recent scientific discoveries the scientific community does too though without the mention of God In The Genesis Enigma respected evolutionary biologist Andrew Parker explains each parallel between Genesis and science in detail and the closer he looks the more amazing the parallels become But the Genesis account has no right to be correct The author or authors could not have known these things happened in this order and with the highlights science has come to recognize Ultimately Parker argues it must be divine inspiration that guided the writing of the Bible This startling conclusion will make The Genesis Enigma a must read for believers and scientists alike **The Course of Life: Infancy and early childhood** , 1980 **From an Antique Land**

Cyril Northcote Parkinson, 1954 *Land Between the Rivers* Bartle Bull, 2024-09-10 The epic five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world s leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern

era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity's need for freedom versus the eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage

Masculine Shame Mary Y. Ayers, 2013-03-01 How does the image of the succubus relate to psychoanalytic thought Masculine Shame From Succubus to the Eternal Feminine explores the idea that the image of the succubus a demonic female creature said to emasculate men and murder mothers and infants has been created out of the masculine projection of shame and looks at how the transformation of this image can be traced through Western history mythology and Judeo Christian literature Divided into three parts areas of discussion include the birth of civilization and the evolution of the succubus the image of the succubus in the writings of Freud and Jung the succubus as child killing mother to the restoration of the eternal feminine Through a process of detailed cultural and social analysis the author places the image of the succubus at the very heart of psychoanalytic thought highlighting its presence in both Freud's Medusa and Jung's visions of Salome As such this book will be of great interest to all those in the fields of analytical psychotherapy and psychoanalysis

From Cairo to Baghdad James Canton, 2014-08-25 Until the 1880s British travellers to Arabia were for the most part wealthy dilettantes who could fund their travels from private means With the advent of an Imperial presence in the region as the British seized power in Egypt the very nature of travel to the Middle East changed Suddenly ordinary men and women found themselves visiting the region as British influence increased Missionaries soldiers and spies as well as tourists and explorers started to visit the area creating an ever bigger supply of writers and market for their books In a similar fashion as the Empire receded in the wake of World War II so did the whole tradition of Middle East travel writing In this elegantly crafted book James Canton examines over one hundred primary sources from forgotten gems to the classics of T E Lawrence Thesiger and Philby He analyses the relationship between Empire and author showing how the one influenced the other leading to a vast array of texts that might never have been produced had it not been for the ambitions of Imperial Britain This work makes for essential reading for all of those interested in the literature of Empire travel writing and the Middle East
