Fundamentals Of Psychology The Brain The Person The World With Study Card:

Fundamentals of Psychology Stephen M. Kosslyn, Robin S. Rosenberg, 2004-10 This innovative 13 chapter text examines psychological issues from the levels of the brain person and social world to help students actively apply psychology to their lives Through their own research clinical work and experiences as teachers Stephen Kosslyn and Robin Rosenberg have found that exploring psychology from multiple perspectives further enhances learning Examining psychological concepts from the levels of the brain biological factors the person beliefs desires and feelings and the world social cultural and environmental factors and their interactions helps students organize and integrate topics within and across chapters and actively apply psychology to their lives This briefer version combines the introductory chapter with research methods consciousness with stress health coverage and cognition with intelligence for three fewer chapters than the comprehensive Kosslyn Rosenberg text It also features end of chapter practice tests to aid students in mastering concepts America Fooled Timothy Scott, 2006 Discusses the chemical imbalance theory pharmaceutical company ties with the FDA deceptive designs of antidepressant drug studies dangers of antidepressants and how to avoid depression Publisher's description
