Fachbereich Ernährungswissenschaft Okotrophologie Atlantic International University Sprache Deutsch Abstract Nutrition and health are coherent when it comes to maintaining or supporting the living human systems lindlahr 1940 The health related complications in humans if we are to consider proximate estimations arising from different clinical analyses show a shocking percentage of about 80% of these arising from matters to do with nutrition Though our study in nutrition and health is not mainly based on this shocking trend it is an international aim to pursue health and if the methods undertaken are to be realistic then there is a crucial need to extend our observations and strategies towards the nutrition factors that are characteristic to all human societies The further shocking issue in the global nutrition trend is the serious attention towards nutrition in the old aged infants and nursing mothers than in the youth and the ages between 25 to 50 years As the study will show from the various world surveys that these are not the only nutrition issues causing tension but there still exist more far reaching factors that grievously shift the basic nutrition patterns of humans to the non healthy patterns Among these factors are levels of education economic status cultural and ethnic influence religious influence the food industry plus policy and regulations as controlled by the regional governments Perhaps one of the chief factor or goal that was supposedly to be addressed in the millennial world campaign by the world states in some of their conventions had to be the nutrition though as our we know few or completely no convention was aimed at addressing this problem but instead politics and world economics have always dominated these conventions The science of nutrition shows that our body systems are dependent of the daily nutrients ingested and these substances act as the building blocks for our living systems energ

Fundamentals of Menu Planning Paul J. McVety, Bradley J. Ware, Claudette Lévesque Ware, 2008-03-03 Understanding the fundamentals of menu planning is essential to building a successful foodservice concept since the menu is the foundation upon which a foodservice operation builds both its reputation and profit Reflecting the latest menu trends in the restaurant industry the authors show how research surveys and sales analysis are key to menu planning and design *Fundamentals of Menu Planning* Third Edition presents a complete overview of key aspects of menu planning including designing writing costing marketing and merchandising a menu The content in this edition is divided into three parts Part I focuses on the evolution of the menu and includes topics such as menu trends in the industry performing market research and creating a market survey nutrition and dietary guidelines and menu planning Part II examines the financial aspects of menu planning such as performing a yield test creating and writing standardized recipes and recipe costing Part III covers writing designing and merchandising the menu With this accessible resource hospitality management students culinary students restaurateurs and other foodservice professionals will all gain a thorough understanding of how an effective and successfully planned menu is fundamental to the success and profitability of the wider foodservice enterprise
