Funding Of Public And Academic Libraries:

The Funding of Public and Academic Libraries Alphonse F. Trezza, 1992 Grants for Libraries Emmett Corry, 1986
Introduction to Public Librarianship, Third Edition Kathleen de la Pena McCook, Jenny S. Bossaller, Felton Thomas Jr., 2018-12-18 Put simply there is no text about public librarianship more rigorous or comprehensive than McCook's survey. Now the REFORMA Lifetime Achievement Award winning author has teamed up with noted public library scholar and advocate Bossaller to update and expand her work to incorporate the field's renewed emphasis on outcomes and transformation. This essential tool Library Journal remains the definitive handbook on this branch of the profession. It covers every aspect of the public library from its earliest history through its current incarnation on the cutting edge of the information environment including statistics, standards, planning, evaluations and results, legal issues, funding and politics, organization, administration and staffing, all aspects of library technology from structure and infrastructure to websites and makerspaces, adult services, youth services and children's services, associations, state library agencies and other professional organizations, global perspectives on public libraries and advocacy, outreach and human rights. Exhaustively researched and expansive in its scope, this benchmark text continues to serve both LIS students and working professionals. Space and Organizational Considerations in Academic Library Partnerships and Collaborations Doherty, Brian, 2016-04-25 A vital component of any academic institution, libraries are held to and expected to maintain certain standards. In order to meet these standards and better accommodate the student and faculty body they serve, many libraries are recognizing the benefit of forging relationships with other professional and academic entities. Space and Organizational Considerations in Academic Library Partnerships and Collaborations is a pivotal reference source for the latest scholarly research on and methods for utilizing existing spaces within libraries to facilitate collection development, in addition to discussions on how on-campus and off-campus partnerships can assist in this endeavor. Focusing on issues related to faculty and researcher collaborations, collection management and professional development, this book is ideally designed for administrators, librarians, academicians, MLIS students and information professionals. Political Advocacy for School Librarians Ann Dutton Ewbank, 2019-01-15 School librarians are prepared to be leaders and can use their strengths to advocate for policy that benefits school libraries. This book will teach you how to engage elected officials to effect change that extends to your library. Education and information policy has a direct impact on school libraries and is shaped by decisions at the local, state and federal levels. School librarians are positioned uniquely to leverage their inside knowledge of effective school library programs to make a difference in education through civic engagement; however, a thorough understanding of both the explicit and hidden rules of government is necessary to be an effective advocate. This compact book serves as a guide to advocating for effective programs, filling a gap in the practitioner literature regarding the policies that affect school library programs. Drawing on research-based best practices and the author's experience as the chairman of the ALA Legislation Committee and in political

advocacy this book explains the political process through concrete examples of both success and failure and analyzes these examples to show how librarians can move education policy in a positive direction *Statistical Reference Index*, 1980

Advances in Library Administration and Organization Delmus E. Williams, Janine Golden, 2012-12-05 The book will examine the challenges that working administrators face and discusses how to enable them to look more closely at their operations and to reconsider how to develop people and the organizations in which they work As in previous volumes of *Advances in Library Administration and Organization* the studies outlined in the chapters of Vo

ECISM 2017 11th European Conference on Information Systems Management, 2017-09-14 **The Portable MLIS** Ken Haycock, Mary-Jo Romaniuk, 2017-12-07 In this update of the ideal introduction to the library profession the core competencies of professional librarians are presented in 14 essays supplemented with foundational principles and context The original edition of this book gained popularity as a required work for LIS because it uniquely provided a broad accessible overview of the core curricular areas and foundations for the library profession What distinguishes the book as an introduction to the work of professional librarians is that it s not just about information in context or about libraries and their mission Importantly it also covers the required competencies of professional librarians laying a firm foundation for future courses In this second edition each chapter has been revised and updated to take into account current thinking and references As with the first edition the book is organized around the foundations of the profession and key functional areas Questions such as how to think like a librarian and how to facilitate community development are specifically and explicitly addressed In compiling the book the editors sought out the leading thinkers educators and practitioners in each core area as chapter authors Each of the contributors provides an introduction to the knowledge skills and abilities associated with their respective area of expertise discusses current and emerging applications and explores trends and issues **Supporting**

Entrepreneurship and Innovation Janet Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions Dismantling the Public Sphere John E.

Buschman, 2003-08-30 This work presents a thorough examination of librarianship and the social and economic contexts in which the profession and its institutions operate As a basis of analysis Buschman employs critical education scholarship and the research of German philosopher Jurgen Habermas whose seminal work on the public sphere the arena in which the public organizes itself and formulates public opinion serves as a meta framework for Buschman s study of librarianship

Buschman asserts that a significant shift has occurred from the library as a contributor to the public good to a model where economic rationality directs policy. He challenges much of the current thinking and assumptions guiding libraries, exploring the circumstances in which librarians and libraries operate and linking the profession back to democratic and public purposes as the core essence of the field. Chapters include Crisis Culture and the Need for a Defense of Librarianship in the Public Sphere, The New Public Philosophy and Critical Educational Analysis, The Public Sphere Rounding Out the Context of Librarianship, Studies in Librarianship and the Dismantling of the Public Sphere, Follow the Money, Library Funding and Information Capitalism, Follow the Leader, Library Management and the New Public Philosophy, On Customer Driven Librarianship, Drifting Toward the Corporate Model, ALA Notes on Postmodern Technology, Technocracy and Libraries, The Public Sphere and Democratic Possibility. Highly recommended for courses in policy and librarianship as well as for academic and public library directors; this work will also be of interest to theorists in the social sciences. **Resources in Education**

,1999 Our Enduring Values Michael Gorman,2000-06 A must read for progressive librarians everywhere. Our Enduring Values will help you to define your role in the library of the future. The Entrepreneurial Librarian Mary Krautter, Mary Beth Lock, Mary G. Scanlon,2014-01-10 The old image of an entrepreneur as a scrappy independent risk taker has been replaced by the reality of individuals incorporating innovative ideas in more traditional settings. This collection of essays illustrates how librarians are infusing entrepreneurial principles in a variety of arenas including public, private, academic and special libraries. It chronicles how entrepreneurial librarians are flourishing in the digital age, advocating social change, responding to patron demands, designing new services and developing exciting fundraising programs. Applying new business models to traditional services, they eagerly embrace entrepreneurship in response to patrons' demands, funding declines, changing resource formats and other challenges. By documenting the current state of entrepreneurship in libraries, this volume upends the public image of librarians as ill suited to risky or creative ventures and places them instead on the cutting edge of innovations in the field. Library Management 101 Lisa K. Hussey, Diane L. Velasquez,2019-04-09 In addition to providing students with a solid foundation in library management with its structured practical knowledge, this impressive volume will also benefit experienced managers. Frameworks for ICT Policy: Government, Social and Legal Issues Adomi, Esharenana E.,2010-07-31 Frameworks for ICT Policy: Government, Social and Legal Issues is a reference on ICT policy framework and a guide to those who are involved in ICT policy formulation, implementation, adoption, monitoring, evaluation and application. This comprehensive publication provides background information for scholars and researchers who are interested in carrying out research on ICT policies and promotes the understanding of policies guiding technology.

Librarianship in Times of Crisis Anne Woodsworth,2011-11-16 The field of librarianship has undergone traumatic shifts, mostly downward, due to the global financial meltdown that began in 2008. This title addresses the ripple effects of the economic recession from the point of view of librarianship, the need for advocacy and the necessity to tout the value that

libraries bring to their communities **Library Trends** University of Illinois Library School, **Collaborative Grant-Seeking** Bess G. de Farber, 2016-05-08 A collaborative approach to grant seeking can stimulate and reshape the culture of your library organization The exciting and rewarding activities of developing a successful grants program can yield enormous dividends for the benefit of your staff patrons and community Collaborative Grant Seeking A Practical Guide for Librarians will share new insights for those who want to access grant funding without reinventing the wheel Based on years of practical grant writing and collaboration development experience this resource provides a complete guide for setting up a library grant seeking program and for combining forces with community partners to increase grant funding to libraries Venturing into the grants world can be scary and unpredictable This book offers detailed strategies and practical steps to establish a supportive and collaborative environment that creates the capacity to consistently develop fundable proposals and gives readers the confidence needed to make grant seeking activities commonplace within libraries Collaborative Grant Seeking will share featured topics unavailable in other grant writing publications such as interpreting sponsor guidelines identifying appropriate funding programs determining the feasibility of project ideas asset based vs need based proposal development strategies actual examples of successful and unusual library projects initiating and sustaining collaborative relationships
