**Futility and Other Animals** Frank Moorhouse,1977 Futility and Other Animals Frank Moorhouse,James Clifford,1969 **Writing in Hope and Fear** John McLaren,1996 A compelling critical and historical account of politics in postwar Australian literary culture The Cambridge History of Australian Literature Peter Pierce,2009-09-17 Draws on scholarship from leading figures in the field and spans Australian literary history from colonial origins indigenous and migrant literatures as well as representations of Asia and the Pacific and the role of literary culture in modern Australian society **The Best Novels of the Nineties** Linda Parent Leshner,2015-11-17 This reader s guide provides uniquely organized and up to date information on the most important and enjoyable contemporary English language novels Offering critically substantiated reading recommendations careful cross referencing and extensive indexing this book is appropriate for both the weekend reader looking for the best new mystery and the full time graduate student hoping to survey the latest in magical realism More than 1 000 titles are included each entry citing major reviews and giving a brief description for each book The Country of Lost Children Peter Pierce,1999-06-07 This book traces the figure of the lost child in Australia s history and imagination **Animal Ethics in the Wild** Catia Faria,2022-12-22 Animals like humans suffer and die from natural causes This is particularly true of animals living in the wild given their high exposure to and low capacity to cope with harmful natural processes Most wild animals likely have short lives full of suffering usually ending in terrible deaths This book argues that on the assumption that we have reasons to assist others in need we should intervene in nature to prevent or reduce the harms wild animals suffer provided that it is feasible and that the expected result is positive overall It is of the utmost importance that academics from different disciplines as well as animal advocates begin to confront this issue The more people are concerned with wild animal suffering the more probable it is that safe and effective solutions to the plight of wild animals will be implemented in the future **Rational Animal Ethics** Stijn Bruers,2024-12-04 Our relations with non human animals are plagued by moral illusions A rational ethic attempts to avoid such moral illusions such that our ends and values become consistent and the means to achieve those ends become most effective This book constructs a rational animal ethic It presents a consistent moral theory of non discrimination and equality that includes animals It shows how to construct a strong foundation for animal rights and equal treatment of all sentient beings These rights can be derived from a new mild welfarist ethic that is less demanding than classical welfarist or utilitarian theories and more concerned about welfare than classical rights based or deontological theories The second part deals with the practice of animal ethics In particular it discusses the most effective means to promote animal welfare and rights Topics in high impact practical animal ethics include effective altruism veganism the welfare footprint alternative protein and wild animal suffering **A Companion to Australian Literature Since 1900** Nicholas Birns,Rebecca McNeer,2007 A fresh twenty first century look at Australian literature in a broad inclusive and multicultural sense Raccoon Gangs, Pigeons Gone Bad, and Other Animal Adventures

Syrjämaa, Marja Jalava, Taija Kaarlenkaski, Otto Latva, Eeva Nikkilä, Tuomas Räsänen, 2024-04-01 This book examines an extremely topical phenomenon the massive industrial exploitation of animals from a previously neglected perspective It explores the history and development of animal industries in Nordic countries from their establishment in the late nineteenth century to the present day These countries are often considered to be progressive and advanced in animal protection but consumption practices in this area are actually excessive in relation to planetary resources and are among the most unsustainable on a global scale If we want to understand current problems it is essential to be aware of long term changes and continuities as well as the diversity of animals that have been exploited The purpose of this book is to explain these changes and provide new knowledge for scholars in human animal studies decisionmakers and the general public *Wild Animals in Central India* Archibald Alexander Dunbar Brander, 1923 **The Oxford Companion to Australian Literature** William Henry Wilde, Joy W. **Animals' Defender and Zoophilist**, 1918 **On Animals** David L. Clough, 2018-12-27 This book presents an authoritative and comprehensive survey of human practice in relation to other animals together with a Christian ethical analysis building on the theological account of animals which David Clough developed in *On Animals* Volume I Systematic Theology 2012 It argues that a Christian understanding of other animals has radical implications for their treatment by humans with the human use and abuse of non human animals for food the most urgent immediate priority Following an introduction examining the task of theological ethics in relation to non human animals and the way it relates to other accounts of animal ethics this book surveys and assesses the use humans make of other animals for food for clothing for labour as research subjects for sport and entertainment as pets or companions and human impacts on wild animals The result is both a state of the art account of what humans are doing to other animals and a persuasive argument that Christians in particular have strong faith based reasons to acknowledge the significance of the issues raised and change their practice in response **Animal Oppression and Capitalism** David Nibert, 2017-09-08 This important two volume set unapologetically documents how capitalism results in the oppression of animals ranging from fish and chickens to dogs elephants and kangaroos as well as in environmental destruction vital resource depletion and climate change Most traditional narratives portray humanity s use of other animals as natural and necessary for human social development and present the idea that

capitalism is generally a positive force in the world But is this worldview accurate or just a convenient easy to accept way to ignore what is really happening a systematic oppression of animals that simultaneously results in environmental destruction and places insurmountable obstacles in the path to a sustainable and peaceful future David Nibert s Animal Oppression and Capitalism is a timely two volume set that calls into question the capitalist system at a point in human history when inequality and the imbalance in the distribution of wealth are growing domestically and internationally Expert contributors show why the oppression of animals particularly the use of other animals as food is increasingly being linked to unfavorable climate change and the depletion of fresh water and other vital resources Readers will also learn about the tragic connections between the production of animal products and global hunger and expanded regional violence and warfare and they will understand how many common human health problems including heart attacks strokes and various forms of cancer develop as a result of consuming animal products     The Evangelical Quarterly Review Charles Philip Krauth,Wlliam Morton Reynolds,Martin Luther Stoeber,1850     *The Evangelical Review* ,1851
