## **Future For Religion New Paradigms For Social Analysis:**

*A Future for Religion?*, 1993      **A Future for Religion?** William H. Swatos, Jr., 1992-10-22 The editor has shown clearly the new dimensions in sociology of religion which the classical schools neglected as personal and private concerns and which do not fit into the positivistic approach to the study of religion This book introduces new paradigms in the study of sociology of religion to be developed in the context of new religious movements This book is a valuable addition to the fields of sociology of religion and new social movements Economic and Political Weekly From the evangelical and charismatic Christianity to the growth of Islamic fundamentalism society today is witnessing an explosion of religious activity and revival Yet since the 1960s sociologists have been proclaiming that religion has been in its death throes Can such dynamic religious forces be at work if religion is dying What is happening And what do we expect to happen to religion in the coming decades In *A Future for Religion* a leading team of scholars responds to these questions and offers a glimpse of where religion is heading In their analyses the authors explore several areas traditionally excluded from sociology of religion texts religious experience emotional renewal religion and the body comparative analyses the links between religion and politics social movements and immigration Each chapter summarizes a particular direction provides data from current research and offers an agenda for future research Written in an accessible inviting style *A Future for Religion* is ideally suited to courses in the sociology of religion This is a useful and sometimes very interesting handbook It combines theory and practical sense in good measure

Seminar      *An Introduction to the Sociology of Religion* Inger Furseth, Pål Repstad, 2017-03-02 Is it true that religion is weakening in modern times or are we facing religious resurgence What is fundamentalism How does it emerge and grow What role does religion play in ethnic and national conflicts Is religion a fundamental driving force or do political leaders use religion for their own purposes Do all religions oppress women These are some of the questions addressed in this book *An Introduction to the Sociology of Religion* provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life including religion Throughout the book illustrations and examples are taken from several religious traditions

*An Introduction to Religion and Politics* Jonathan Fox, 2013-05-07 *An Introduction to Religion and Politics* offers a comprehensive overview of the many theories of religion and politics and provides students with an accessible but in depth account of the most significant debates issues and methodologies Fox examines the ways in which religion influences politics analyses the current key issues and provides a state of the art account of religion and politics highlighting the diversity in state religion policies around the world Topics covered include Secularism and secularization Religious identity Religious worldviews beliefs doctrines and theologies Religious legitimacy Religious institutions and mobilization Rational and functional religion Religious fundamentalism Conflict violence and terror This work combines theoretical analysis with data on the religion policies of 177 governments showing that while most of the world's

government support religion and many restrict its true neutrality on the issue of religion is extremely rare Religion is becoming an inescapable issue in politics This work will be essential reading for all students of religion and politics and will also be of great interest to those studying related subjects such as comparative politics international relations and war and conflict studies     A Faith of Our Own Sharon Kim,2010 Second generation Korean Americans demonstrating an unparalleled entrepreneurial fervor are establishing new churches with a goal of shaping the future of American Christianity A Faith of Our Own investigates the development and growth of these houses of worship a recent and rapidly increasing phenomenon in major cities throughout the United States Including data gathered over ten years at twenty two churches it is the most comprehensive study of this topic that addresses generational identity political racial and empowerment issues

From Primitive to Indigenous James L. Cox,2016-04-22 The academic study of Indigenous Religions developed historically from missiological and anthropological sources but little analysis has been devoted to this classification within departments of religious studies Evaluating this assumption in the light of case studies drawn from Zimbabwe Alaska and shamanic traditions and in view of current debates over primitivism James Cox mounts a defence for the scholarly use of the category Indigenous Religions     **Asian American Religions** Tony Carnes,Fenggang Yang,2004-05 Redraws old definitions of what it means to be religious and Asian American     **Ethnoreligious Conflict in the Late Twentieth Century** Jonathan Fox,2002-01-01 Jonathan Fox s new work provides the first systematic empirical study of the role that religion plays in ethnic violence Ethnoreligious Conflict in the Late Twentieth Century critiques the existing literature on religion and ethnic conflict then presents and analyzes original quantitative data gathered from a variety of sources Fox draws upon the Minorities at Risk model of ethnic conflict to develop and test a dynamic and comprehensive theory of religion and conflict He applies this theory to resurgent conflicts between ethnic groups of different religions from the Iranian revolution and the Afghan struggle against the Soviets in the 1980s to the ongoing Middle East conflict to pinpoint the ways in which religion has become intertwined in and lent legitimacy to conflicts in the contemporary world     The Politics of Buddhist Organizations in Taiwan, 1989-2003 André Laliberté,2013-08-21 Lalibert looks at a relatively unexplored aspect of modern Taiwan the influence of religion on politics This book offers a detailed survey of three of the most important Buddhist organizations in Taiwan the Buddhist Association of the Republic of China BAROC the Buddha Light Mountain or Foguanshan monastic order and the Buddhist Compassion Relief Tzu Chi Association or Ciji It examines their contrasting approaches to three issues state supervision of religion the first presidential election of 1996 and the establishment of the National Health Insurance This study analyzes the factors that explain the diverse paths the three organizations have taken in the politics of Taiwan Based on an in depth examination of Buddhist leaders behaviour The Politics of Buddhist Organizations in Taiwan compels us to question conventional views about the allegedly passive aspect of religious tradition deference to authority in societies influenced by Confucian culture and the adverse legacy of authoritarian regimes     **The Elements of Social Theory** Barry

Barnes,2014-07-14 Over the past quarter century social theory has moved in diverse and often seemingly incompatible directions exaggerating differences of approach that existed even in earlier periods In a strikingly original book Barry Barnes uses this intellectual diversity not only to identify but also to unify the central ways of looking at the field Barnes frames his task by addressing the most important problem confronting all students of society today the apparent conflict between cultural and functional methods of describing the social order on one hand and choice theoretic accounts on the other But rather than reviewing in detail the origins and development of these contending views of reality Barnes conducts a dialogue between the two perspectives thereby revealing their respective strengths and shortcomings In the process he develops a case for a theoretical third way an interactionist understanding of the workings of the social order and the emergence of behavioral norms Barnes successfully applies interactionist analysis formerly used mostly for micro social settings to macro phenomena like the formation of status groups the origin of social movements the politics of class formation and the dynamics of bureaucratic action He shows how these phenomena are inexplicable in terms of exclusively cultural functional or choice theoretic methods they can be understood only by showing how norms emerge through interaction Barnes has constructed a coherent and learned vision of the fundamentals of social theory that will excite not only sociologists but all social scientists and their students Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **SCM**

**Studyguide to Religious and Spiritual Experience** Jeff Astley,2020-02-28 This Studyguide provides a succinct and lucid introduction to the subject for those studying and teaching religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon *The Wiley-Blackwell Companion to African Religions* Elias Kifon Bongmba,2012-05-21

The Wiley Blackwell Companion to African Religions brings together a team of international scholars to create a single volume resource on the religious beliefs and practices of the peoples in Africa Offers broad coverage of issues relating to African religions considering experiences in indigenous Christian and Islamic traditions across the continent Contributors are from a variety of fields ensuring the volume offers multidisciplinary perspectives Explores methodological approaches to religion from anthropological philosophical and historical perspectives Provides insights into the historical developments in African religions as well as contemporary issues such as the development of African initiated churches neo traditional religions and Pentecostalism Discusses important topics at the intersection of

culture and religion in Africa including the arts health politics globalization gender relations and the economy      **Personal Knowledge and Beyond** James V. Spickard, Shawn Landres, Meredith B. McGuire, 2002-02 Personal Knowledge and Beyond seeks to foster a cross disciplinary rethinking of ethnography's possibilities and limits for the study of religions It provides an overview of recent debates while also pushing them in new directions      *Dynamic Belonging* Harvey E. Goldberg, Steven M. Cohen, Ezra Kopelowitz, 2011-12-01 World Jewry today is concentrated in the US and Israel and while distinctive Judaic approaches and practices have evolved in each society parallels also exist This volume offers studies of substantive and creative aspects of Jewish belonging While research in Israel on Judaism has stressed orthodox or extreme versions of religiosity linked to institutional life and politics moderate and less systematized expressions of Jewish belonging are overlooked This volume explores the fluid and dynamic nature of identity building among Jews and the many issues that cut across different Jewish groupings An important contribution to scholarship on contemporary Jewry it reveals the often unrecognized dynamism in new forms of Jewish identification and affiliation in Israel and in the Diaspora      Faith in the Familiar Kim Knibbe, 2013-06-20 Faith in the Familiar is an ethnography of religious change in the Netherlands a country that has moved from strongly pillarized to strongly secularist in the space of fifty years This book shows how people look back on this but also how Catholic rituals continue to play a role in the reproduction of place Furthermore it shows how forms of spiritualism and new age have become part of a pluralistic local religious landscape and are used to create new ways of relating to religious authority and to reshape personal relationships Situating itself within general theories of religious change in Western Europe it offers a contribution to this discussion from an angle that is often neglected focusing on locality rather than on globalization on what happens to old religion rather than on new religious trends on popular forms of spirituality rather than on middle class and highbrow spirituality      **A Sociology of Spirituality** Peter C. Jupp, 2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance      Islamic Environmentalism Rosemary Hancock, 2017-07-20 Islamic Environmentalism examines Muslim involvement in environmentalism in the United States and Great Britain The book focuses upon Muslim activists and Islamic organizations that approach environmentalism as a religious duty offering environmental readings of Islamic scriptures and integrating religious ritual and practice with

environmental action Honing in on the insights of social movement theory Hancock predominantly examines the activism and experience of Muslims involved in environmentalism and bases her research on interviews with activists in the United States and Great Britain Indeed the reader is first provided with an insightful analysis of the ways in which Muslim activists interpret and present environmentalism diagnosing causes of environmental crises proposing solutions and motivating other Muslims into activism This is followed by a discussion of the importance of affective ties emotion and group culture in motivating and sustaining Muslim involvement in environmental activism A timely volume which draws attention to the synthesis of political activism and religious practice amongst Muslim environmentalists this book will be of interest to undergraduates postgraduates and postdoctoral researchers interested in fields such as Islamic Studies Sociology of Religion Social Movement Theory and Environmental Studies

*Easternization of the West* Colin Campbell, 2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences

**Nature of Religious Language** Stanley E. Porter, 1996-02-01 The papers in this volume were presented at a conference held at the Roehampton Institute London in February 1995 and are concerned with either theological or literary issues related to the nature of religious language The papers suggest further issues that are still unresolved about the nature of religious language from its early usage in the biblical texts to its recent use in contemporary writing and religious discourse

*Religion, Globalization and Culture* Peter Beyer, Lori Gail Beaman, 2007 The topic of religion and globalization is complex susceptible to a great variety of approaches This book combines contributions from many authors who examine a wide range of subjects ranging from overall theoretical considerations to detailed regional perspectives No single understanding of either religion or globalization is privileged
