Kasper, JoAnne Sweeny, 2025-05-01 Explores the line between free speech protected by the First Amendment and unprotected incitement to imminent lawless action Free Speech and Incitement in the Twenty First Century explores the line between free speech and incitement which is a form of expression not protected by the First Amendment Incitement occurs when a person intentionally provokes their audience to engage in illegal or violent action that is likely to or will occur imminently This doctrine evolved from World War I through the Cold War and the civil rights movement era culminating in a test announced by the US Supreme Court in *Brandenburg v Ohio* 1969 Since the 1970s this doctrine has remained largely unchanged by the Supreme Court and as such has received relatively little academic or media attention Since the late 2010s however violence at political rallies armed protests around Confederate statues social unrest associated with demonstrations against police and an attack on the US Capitol have led to new incitement cases in the lower courts and an opportunity to examine how incitement is defined and applied Authors from different perspectives in Free Speech and Incitement in the Twenty First Century help the reader understand the difference between free speech and incitement

The Influence of American Theories on Judicial Review in Nordic Constitutional Law Ragnhildur Helgadóttir,2006-02-01 Courts of some Nordic countries started reviewing the constitutionality of legislation long before judicial review was established elsewhere in Europe This study examines the influence of American law and theories of judicial review on the development practice and theorization of judicial review in Norway Denmark and Iceland from the 19th century to the present The study describes how Nordic scholars in the late 19th century rationalized judicial review based on American theory and how American law influenced both their views of the institution and their way of thinking about substantive constitutional rights These views in turn influenced Nordic jurisprudence for decades The author then shows how the changes that took place in American constitutional jurisprudence in the 1930s and 1940s influenced Nordic constitutional theory and constitutional jurisprudence These changes received significant attention in Nordic legal circles and the study examines how these changes as well as the American and Nordic theory that built on them influenced Nordic jurisprudence Finally it is argued that American influence in this area of law changed after 1965 Direct references to and discussions of American law almost disappeared from Nordic jurisprudence American constitutional law was however an important

influence on the case law of the European Court of Human Rights which importance increased in this period The European Convention of Human Rights and the Court s decisions have in turn immensely influenced Nordic constitutional law
