Immigrant Children and Youth Alberto M. Bursztyn Ph.D., Carol Korn-Bursztyn, 2015-07-14 Immigrants now comprise one fourth of the 75 million children in the United States. The ability of today's immigrant children to become productively engaged adults hinges on their internal resources and mental health. This book ascertains their psychological challenges and their often misunderstood needs. This book is intended to inform both the general public and professionals working with immigrant children and adolescents about the importance and complexity of addressing their psychological issues and experiential challenges. The work covers the topic of immigrant children's mental health from multiple perspectives while maintaining a focus on developmental needs and identifying the specific problems posed by linguistic and cultural transition. The chapters present case studies and vignettes that serve to illustrate the topics providing vivid depictions of mental health issues and highlighting the importance of specific interventions.
