## **From Byeloruss To Berlin Beyond:**

**Data Analysis in Bi-partial Perspective: Clustering and Beyond** Jan W. Owsiniński, 2019-03-23 This book presents the bi partial approach to data analysis which is both uniquely general and enables the development of techniques for many data analysis problems including related models and algorithms It is based on adequate representation of the essential clustering problem to group together the similar and to separate the dissimilar This leads to a general objective function and subsequently to a broad class of concrete implementations Using this basis a suboptimising procedure can be developed together with a variety of implementations This procedure has a striking affinity with the classical hierarchical merger algorithms while also incorporating the stopping rule based on the objective function The approach resolves the cluster number issue as the solutions obtained include both the content and the number of clusters Further it is demonstrated how the bi partial principle can be effectively applied to a wide variety of problems in data analysis The book offers a valuable resource for all data scientists who wish to broaden their perspective on basic approaches and essential problems and to thus find answers to questions that are often overlooked or have yet to be solved convincingly It is also intended for graduate students in the computer and data sciences and will complement their knowledge and skills with fresh insights on problems that are otherwise treated in the standard academic manner

From Cooperation to Partnership: Moving Beyond the Russia-EU Deadlock Bertelsmann Stiftung, 2013-11-25 Europeans can be proud as they look back on fifty years of peaceful integration Nowadays many people worldwide see the European Union as a model of how states and their citizens can work together in peace and freedom However this achievement does not automatically mean that the EU has the ability to deal with the problems of the future in a rapidly changing world The European Union must continue developing its unity in diversity dynamically be it with regard to energy issues the euro climate change or new types of conflict Indeed self assertion and solidarity are key to the debates shaping our future Europe in Dialogue wishes to make a contribution to these open debates The analyses in this series subject political concepts processes and institutions to critical scrutiny and suggest ways of reforming internal and external European policymaking so that it is fit for the future However Europe in Dialogue is not merely trying to encourage an intra European debate and makes a point of including authors from non EU states Looking at an issue from different angle or from afar creates a shift in perspective which in turn renders Europe s development more meaningful as it engages in critical dialogue with other societies

**Prospects and Risks Beyond EU Enlargement** Iris Kempe, 2012-12-06 With the European Union s upcoming eastern enlargement Europe is confronted with the necessity of creating security and stability beyond the EU borders in Eastern and Southeastern Europe This task includes not only numerous risks but also opportunities to face the challenges of the 21st century This volume provides policy oriented recommendations and differentiated insider knowledge about the regional situation in Russia Ukraine Moldova and Belarus Authors from the region analyze policies by state and by key issues such as energy transportation the future of Kaliningrad or

the regional hot spot in Transnistria A concept for a Multi Layered Europe is developed for the strategic dilemmas concerning the current debate on Wider Europe The unique alliance between analytical output and strategic thinking makes the book valuable for the academic community and for persons responsible for Europe's future Perpetration and

Complicity under Nazism and Beyond Mary Fulbrook, Bastiaan Willems, Stephanie Bird, Stefanie Rauch, 2023-07-13

Perpetration and Complicity under Nazism and Beyond analyses perpetration and complicity under National Socialism and beyond Contributors based in the UK the USA Canada Germany Israel and Chile reflect on self understandings representations and narratives of involvement in collective violence both at the time and later a topic that remains highly relevant today Using the notion of compromised identities to think about contentious questions relating to empathy and complicity this interdisciplinary collection addresses the complex relationships between people's behaviours and self understandings through and beyond periods of collective violence Contributors explore the compromises that individuals states and societies enter into both during and after such violence Case studies highlight patterns of complicity and involvement in perpetration and analyse how people's stories evolve under changing circumstances and through social interaction using varying strategies of justification denial and rationalisation Each chapter also considers the ways in which contemporary responses and scholarly practices may be affected by engagement with perpetrator representations

European Enlargement across Rounds and Beyond Borders Haakon A. Ikononou, Aurélie Andry, Rebekka

Byberg, 2017-03-16 Enlargement has been an almost constant part of European integration history going from an improvised exercise to the EU's most developed foreign policy tool However neither the longevity nor the complexity of enlargement has been properly historicised European Enlargement across Rounds and Beyond Borders offers three interdisciplinary innovative and indeed radical new ways of understanding and analysing EC EU enlargements first tracing Longue Durée developments second investigating enlargement Beyond the Road to Membership and third exploring the Entangled Exchanges and synergies between the EC EU and its outside This edited volume will provide fresh perspectives on enlargement as one of the defining processes in Europe in the second half of the 20th century How are we to understand enlargement as a policy How has it changed the EU What is the historical role of the British press in shaping the UK's visions of Europe How has enlargement played into Russia's relationship with today's EU Giving answers to these questions and many more this volume wishes to spark a broad debate about the roots range and repercussions of enlargement and how historians and other scholars should engage with it This publication will be of key interest to scholars and students of modern European history and politics the European integration process EU studies and more broadly multilateral international institutions history law and the social sciences *Critical Discourse Analysis, Critical Discourse Studies and Beyond* Theresa Catalano, Linda R. Waugh, 2020-09-28 This book explores the problem oriented interdisciplinary research movement comprised of Critical Discourse Analysis CDA and Critical Discourse Studies CDS for scholars teachers and students from

many backgrounds Beginning with a Preface by renowned CDA CDS scholar Ruth Wodak it introduces CDA CDS through examples of what its research looks like delineates various precursors to CDA CDS and important foundational concepts and theories and traces its development from its early years until it became established After the relationship between CDA and CDS is discussed seven commonly cited approaches to CDA CDS are outlined including their connections and differences their origins and development major and associated scholars research focus es and central concepts and distinguishing features After a summary of critiques of CDA CDS and responses by CDA CDS scholars the book provides an overview of its salient connections to other interdisciplinary areas of scholarship such as critical applied linguistics education anthropology ethnography sociolinguistics gender studies queer linguistics pragmatics and ecolinguistics The final chapter describes how scholars use their knowledge of CDA CDS to make a difference in the world

Green and Transnational Crime in Europe and Beyond Petrus C. van Duyne, Joanna Banach-Gutierrez, Georgios A. Antonopoulos, Klaus von Lampe, Paul Larsson, Jackie Harvey, 2024-11-15 This book brings together research and studies in the fields of organised crime and of green criminality against the natural environment By bringing the research traditions of organised crime and green criminology into closer proximity and combining contributions on traditional organised crime and ecological crime in one volume it questions the need to draw artificial dividing lines between criminological sub disciplines Including chapters on the illegal trade in cobalt in stolen motor vehicles the illegal dog market cross border amber trafficking deforestation and environmental harm in the Norwegian industrial salmon farming the book offers an important rapprochement between studies in organised crime and green criminology and considers the operational differences between underworld and upperworld criminal economies

*Beyond the EU Regulatory State* Andrea Prontera, 2019-08-16 The EU s growing dependence on natural gas and Russian resources energy security has become a hot discussion topic in academia and in policy circles in Brussels Washington and many European capitals However most of the books on the subject use a very descriptive and or normative approach and very few attempt to theorise EU energy security outside of mainstream conceptualisations of the EU as an international actor This book closes an

important gap in the literature and offers a fresh perspective on EU energy studies and it will be an important contribution to the debate on the development of European integration and the EU's role in international relations in the wake of the crisis in EU politics and in light of the EU's increasingly complex external environment. Due to its interdisciplinary features, the book combines EU studies, international affairs, political economy, and energy studies, and the topics covered in this book will be of special interest to scholars of the international political economy of energy and to those interested in European politics and EU international relations.

**Explorers** Matthew Lockwood, 2024-10-15. Wonderfully insightful and entertaining, it gives voice to those who have been overlooked for too long. Eric Jay Dolin, author of *Left for Dead*: The impulse to seek out new worlds is universal to humanity. Unfurling a tapestry of surprising and historically overlooked figures spanning forty centuries and six continents, historian Matthew Lockwood narrates lives filled with imagination and wonder, curiosity, connection, and exchange. Familiar icons of exploration like Pocahontas, Columbus, Sacagawea, and Captain Cook find new company in the untold stories of people usually denied the title of explorers, including immigrants, indigenous interpreters, local guides, and fugitive slaves. He highlights female voyagers like Gudrid, Far Traveler, and Freydis Eirsdottir, Viking women who sailed to North America in 1000 AD, and Mary Wortley Montagu, whose pioneering travels to Constantinople would lead to the development of the world's first smallpox vaccine. Figures like Ghulam Rasul Galwan, a guide for European travelers in the Himalayas, reveal the hidden labor, expertise, and local enthusiasm behind many grand stories of discovery. Other characters like David Dorr, a man born into slavery in New Orleans who embarked on a Grand Tour of Europe and Egypt, embody discovery and wonder as universal parts of the human condition. As Lockwood makes clear, people of every background imagine new worlds. Adventurers from every corner of the globe search for the unknown and try to understand it, remaking the world and themselves in the process. Exploration is for everyone who sets off into the unknown. It is the inheritance of all.

*Polish Jewish Culture Beyond the Capital* Halina Goldberg, Nancy Sinkoff, 2023-09-15. *Polish Jewish Culture beyond the Capital: Centering the Periphery* is a path-breaking exploration of the diversity and vitality of urban Jewish identity and culture in Polish lands from the second half of the nineteenth century to the outbreak of the Second World War, 1899-1939. In this multidisciplinary essay collection, a cohort of international scholars provides an integrated history of the arts and humanities in Poland by illuminating the complex roles Jews in urban centers other than Warsaw played in the creation of Polish and Polish Jewish culture. Each essay presents readers with the extraordinary production and consumption of culture by Polish Jews in literature, film, cabaret, theater, the visual arts, architecture, and music. They show how this process was defined by a reciprocal cultural exchange that flourished between cities at the periphery from Lodz and Wilno to Krakow and Lviv and international centers like Warsaw, thereby illuminating the place of Polish Jews within urban European cultures. **Prospects and Risks Beyond EU Enlargement** Wim van Meurs, 2013-11-11. Werner Weidenfeld. Since the signing of the Treaties of Rome in 1957, Western European history has been

an ongoing process integrating and enlarging European institutions Over the course of that time the institutions now known as the European Union have become a major pillar for the security and stability for Europe as a whole These essential functions can only be perpetuated if the Union can project its capacities and capabilities beyond its current borders Today s European agenda is defined by integration Offering prospects for membership in the EU has been a successful instrument for helping shape the transition in East Central Europe The imminent first round of enlargement also calls for a deep ening of EU integration which should be resolved through the EU Convention While the European Union is preparing for ten new member states developments in Europe are far from standing still The countries beyond the EU s future borders in Eastern Europe and the Balkans are undertaking a threefold process of national consolidation transition to a market economy and strengthening parliamentary democracy These processes entail risks that range from authoritarian regimes to armed escalation in Southeastern Europe These risks have a direct impact on European security and stability At the same time some areas of internal transition are making serious strides toward Western standards For this reason simply reducing Eastern and Southeastern Europe to a set of risks threatens to create a self fulfilling prophecy **Belarus** Nigel Roberts,2008 Belarus remains the most inaccessible unknown and misunderstood country in Europe This new guide therefore offers a rare opportunity to study a country and its people as they really are before the rest of the world catches on *Beyond the Wall* Katja Hoyer,2023-09-05 AN INTERNATIONAL BESTSELLER From the ashes of the Second World War to the fall of the Berlin Wall an expansive and generous history of East Germany New Republic In 1990 a country disappeared When the Iron Curtain fell East Germany ceased to be For over forty years from the ruin of the Second World War to the cusp of a new millennium the German Democratic Republic presented a radically different Germany than what had come before and what exists today Socialist solidarity secret police central planning barbed wire this was a Germany forged on the fault lines of ideology and geopolitics In *Beyond the Wall* acclaimed historian Katja Hoyer sets aside the usual Cold War caricatures of the GDR to offer a kaleidoscopic new vision of this vanished country revealing the rich political social and cultural landscape that existed amid oppression and hardship Drawing on a vast array of never before seen interviews and documents this is the definitive history of the other Germany beyond the Wall Ritual Murder in Russia, Eastern Europe, and Beyond Eugene M. Avrutin,Jonathan Dekel-Chen,Robert Weinberg,2017-07-12 A collection of essays exploring the history of an antisemitic accusation that haunted Jewish people in Europe and Russia and how it spread This innovative reassessment of ritual murder accusations brings together scholars working in history folklore ethnography and literature Favoring dynamic explanations of the mechanisms evolution popular appeal and responses to the blood libel the essays rigorously engage with the larger social and cultural worlds that made these phenomena possible In doing so the book helps to explain why blood libel accusations continued to spread in Europe even after modernization seemingly made them obsolete Drawing on untapped and unconventional historical sources the collection explores a range of intriguing topics popular belief and scientific knowledge

the connections between antisemitism prejudice and violence the rule of law versus the power of rumors the politics of memory and humanitarian intervention on a global scale This important contribution to our understanding of the evolution of ritual murder charges in Eastern Europe brings together a number of innovative studies on the topic several of which could become standard reading on the subject Glenn Dynner Sarah Lawrence College While the topic was not exactly novel to me I enjoyed reading this book and I was constantly learning from the significant new information and fresh insights from the authors analyses Shaul Stampfer Hebrew University Thinking Beyond the Unthinkable Jonathan Stevenson,2008

STEVENSON THINKING BEYOND THE UNTH *Beyond Crimea* Agnia Grigas,2016-02-16 How will Russia redraw post Soviet borders In the wake of recent Russian expansionism political risk expert Agnia Grigas illustrates how for more than two decades Moscow has consistently used its compatriots in bordering nations for its territorial ambitions Demonstrating how this policy has been implemented in Ukraine and Georgia Grigas provides cutting edge analysis of the nature of Vladimir Putin s foreign policy and compatriot protection to warn that Moldova Kazakhstan the Baltic States and others are also at risk **Belarus - Alternative Visions** Simon Lewis,2018-10-31 Belarus is often regarded as Europe s last dictatorship a sort of fossilized leftover from the Soviet Union However a key factor in determining Belarus s development including its likely future development is its own sense of identity This book explores the complex debates and competing narratives surrounding Belarus s identity revealing a far more diverse picture than the widely accepted monolithic post Soviet nation It examines in a range of media including historiography films and literature how visions of Belarus as a nation have been constructed from the nineteenth century to the present day It outlines a complex picture of contested myths the peasant nation of the nineteenth century the devoted Soviet republic of the late twentieth century and the revisionist Belarusian nationalism of the present The author shows that Belarus is characterized by immense cultural linguistic and ethnic polyphony both in its lived history and in its cultural imaginary The book analyses important examples of writing in and about Belarus in Belarusian Polish and Russian revealing how different modes of rooted cosmopolitanism have been articulated

**European Integration Beyond Brussels** Matthew Broad,Suvi Kansikas,2020-08-14 Europe is a continent whose history has in one form or another long been dominated by integration And yet the European integration process is often treated as synonymous with the evolution of just one particular and until recently geographically quite limited Western centred organisation the European Union EU This trend obscures the multitude of ways European states have acted collectively on both sides of the Iron Curtain and continue to do so throughout the continent today With contributors drawn from history and political science this book explores some of these diverse integration efforts beyond Brussels We shine a light on international organisations trade frameworks and various political social scientific and cultural forms of unity in both Eastern and Western Europe In so doing the book seeks to redefine the history of the European integration process not only as a less purely EU centric phenomenon but as a less strictly Western European one too Beyond the Glory: Community Rabbis in

Eastern Europe Mordechai Zalkin, 2020-11-23 The heroes of Beyond the Glory are not the famous rabbis the heads of the yeshivas or Hasidic righteous but rather the second circle rabbis the community rabbis in 19th century Eastern Europe the backbone of the rabbinical world of the time those who knew the world of their community members closely and were required to answer a wide range of questions both daily and existential Who were these rabbis What were their training processes How did they win their positions Did they win tenure or was the threat of dismissal constantly hovering above their heads How were their working conditions and their financial situation Were they considered as spiritual shepherds and social leaders of the community What was their relationship with the local rabbinic scholars and the economic elite How did they navigate between their duties as halachic rulers and their desire to engage in studying and teaching This book attempts to answer these questions and many others based on examining the world of over a thousand community rabbis
