From Darkneb To Light How To Become A Christian In The Early Church:

A History of the Early Church to AD 500 John William Charles Wand, 2008-03-07 Dr Wand's classic treatment of the early church is concise comprehensive and makes use of specialist treatises The organisation of material and lucid style make accessible what is at times a complex subject In addition the book is full of vignettes of prominent personages and curious items of information Interesting and informative *A History of Early Church* caters for the general reader with an interest in history as well as the religious studies student for whom it is principally intended *The Hermeneutical Spirit* Amos Yong, 2017-11-06 In the contemporary biblical studies climate proposals regarding the theological interpretation of Scripture are contested particularly but not only because they privilege encourage and foster ecclesial or other forms of normative commitments as part and parcel of the hermeneutical horizon through which scriptural texts are read and understood Within this context confessional approaches have been emerging including some from within the nascent pentecostal theological tradition This volume builds on the author's previous work in theological method to suggest a pentecostal perspective on theological interpretation that is rooted in the conviction that all Christian reading of sacred Scripture is post Pentecost meaning after the Day of Pentecost outpouring of the Spirit on all flesh in anticipation of the coming reign of God In that respect such a pentecostal interpretative perspective is not parochially for those within the modern day movement bearing that name but is arguably apostolic in following after the scriptural imagination of the earliest disciples of Jesus the messiah and therefore has ecumenical and missional purchase across space and time *The Hermeneutical Spirit* thus provides close readings of various texts across the scriptural canon as a model for Christian theological interpretation of Scripture suitable for the twenty first century global context *The Collected Works of Edward M. Matthews* Liberal Catholic Church, International, Edward M. Matthews, 1993 ***The Encyclopedia of Christian Literature*** George Thomas Kurian, James D. Smith III, 2010-04-16 The written word is one of the defining elements of Christian experience As vigorous in the 1st century as it is in the 21st Christian literature has had a significant function in history and teachers and students need to be reminded of this powerful literary legacy Covering 2 000 years *The Encyclopedia of Christian Literature* is the first encyclopedia devoted to Christian writers and books In addition to an overview of the Christian literature this two volume set also includes 40 essays on the principal genres of Christian literature and more than 400 bio bibliographical essays describing the principal writers and their works These essays examine the evolution of Christian thought as reflected in the literature of every age The companion volume also features bibliographies an index a timeline of Christian Literature and a list of the greatest Christian authors The encyclopedia will appeal not only to scholars and Christian evangelicals but students and teachers in seminaries and theological schools as well as to the growing body of Christian readers and bibliophiles ***From Darkness to Light*** Anne Field, 1997 How the early Church prepared catechumens for Christian baptism Compiled from original source writings of the Church Fathers *The New Handbook of the Christian Year* Hoyt L.

Gao,Nicholas Temple,Jing Xiao,2025-03-31 This book examines the role that time plays in the life of buildings adopting a comparative study of this influence between European and Chinese traditions Whilst issues of time in architecture have attracted increasing interest by academics in the West challenging the dominant modernist precepts of space there is little understanding of the subject in China and how these compare to historical and contemporary perspectives in Europe A guiding premise of the investigation is that notions of building time require insight into how cultural habits commingle with natural rhythms or what David Leatherbarrow calls concurrency Rather than examining specific buildings the first three chapters apply three key themes language ritual and heritage as cultural lenses to reveal differences and similarities between the two traditions Through these lenses buildings interiors and their exterior spaces churches cathedrals temples palaces gardens and courtyard houses are explored to demonstrate how building time involves particular situations settings and their correlating relationships to past traditions In the final chapter we consider notions of time in the context of contemporary buildings in Europe and China drawing on the earlier historical investigations and addressing globalising influences This book would be of interest to architects architectural theorists historians philosophers sociologists and anthropologists Exposition of the Old and New Testament Matthew Henry,Samuel Palmer,1831 *The American Friend*
