The Political Economy of Ethnic Conflict in Sri Lanka Nikolaos Biziouras, 2014-03-26 At the point of independence in 1948 Sri Lanka was projected to be a success story in the developing world However in July 1983 a violent ethnic conflict which pitted the Sinhalese against the Tamils began and did not come to an end until 2009 This conflict led to nearly 50 000 combatant deaths and approximately 40 000 civilian deaths as well as almost 1 million internally displaced refugees and to the permanent migration abroad of nearly 130 000 civilians With a focus on Sri Lanka this book explores the political economy of ethnic conflict and examines how rival political leaders are able to convince their ethnic group members to follow them into violent conflict Specifically it looks at how political leaders can influence and utilize changes in the level of economic liberalization in order to mobilize members of a certain ethnic group and in the case of Sri Lanka shows how ethnic mobilization drives can turn violent when minority ethnic groups are economically marginalized by the decisions that the majority ethnic group leaders make in order to stay in power Taking a political economy approach to the conflict in Sri Lanka this book is unique in its historical analysis and provides a longitudinal view of the evolution of both Tamil and Sinhalese ethnic drives As such this interdisciplinary study will be of interest to policy makers as well as academics in the field of South Asian studies political science sociology development studies political economy and security studies **Regional Powers** and Small State Security K. M. De Silva,1995 Regional Powers and Small State Security recounts India s involvement in the affairs of its much smaller neighbor Sri Lanka over the guestion of Tamil separatists in the northern and eastern parts of Educations in Ethnic Violence Matthew Lange, 2011-12-12 In Educations in Ethnic Violence Matthew Lange the island explores the effects education has on ethnic violence Lange contradicts the widely held belief that education promotes peace and tolerance Rather Lange finds that education commonly contributes to aggression especially in environments with ethnic divisions limited resources and ineffective political institutions. He describes four ways in which organized learning spurs ethnic conflicts Socialization in school shapes students identities and the norms governing intercommunal relations Education can also increase students frustration and aggression when their expectations are not met Sometimes the competitive atmosphere gives students an incentive to participate in violence Finally education provides students with superior abilities to mobilize violent ethnic movements Lange employs a cross national statistical analysis with case studies of Sri Lanka Cyprus the Palestinian territories India sub Saharan Africa Canada and Germany From Independence to Statehood Robert B. Goldmann, A. Jeyaratnam Wilson, 1984 Minorities' Claims: From Autonomy to Secession Gnanapala Welhengama, 2017-11-30 This title was first published in 2000 An investigation of how the claims of minority groups for greater political power through autonomy and secession clash with the concerns of the nation State and how States refusals to respond positively to such claims contribute to the escalation of ethnic conflicts in contemporary multi ethnic polities In addition this book examines the extent to which the international community is prepared to accommodate the concerns of

minority groups beyond traditionally identified minority rights The validity of claims for autonomy with shared sovereignty autonomy as an inherent part of self determination autonomy as a solution to current ethnic conflicts secessionist and irredentist movements and their impact on peace and security are analyzed in detail Most importantly whether minorities as such can secede from the State in which they live by virtue of self determination is critically analyzed The discussion of peoples in the context of self determination is the first detailed research on this subject to appear in international and human rights literature Conflict and Peace in South Asia Manas Chatterji, B. M. Jain, 2008-10-13 South Asia is a distinct geographical entity comprised of seven countries India Pakistan Bangladesh Nepal Bhutan Sri Lanka and Maldives situated in the Indian Ocean This book looks at these countries in a historical context from inter regional and international perspectives **Affirmative Action Around the World** Thomas Sowell,2004-01-01 The Constitution of Empire offers a constitutional and historical survey of American territorial expansion from the founding era to the present day The authors describe the Constitution s design for territorial acquisition and governance and examine the ways in which practice over the past two hundred years has diverged from that original vision Noting that most of America's territorial acquisitions including the Louisiana Purchase the Alaska Purchase and the territory acquired after the Mexican American and Spanish American Wars resulted from treaties the authors elaborate a Jeffersonian based theory of the federal treaty power and assess American territorial acquisitions from this perspective They find that at least one American acquisition of territory and many of the basic institutions of territorial governance have no constitutional foundation and they explore the often strange paths that constitutional law has travelled to permit such deviations from the Constitution's original meaning Nationalism and War John A. Hall, Siniša Malešević, 2013-04-25 Has the emergence of nationalism made warfare more brutal Does strong nationalist identification increase efficiency in fighting Is nationalism the cause or the consequence of the breakdown of imperialism What is the role of victories and defeats in the formation of national identities The relationship between nationalism and warfare is complex and it changes depending on which historical period and geographical context is in question In Nationalism and War some of the world's leading social scientists and historians explore the nature of the connection between the two Through empirical studies from a broad range of countries they explore the impact that imperial legacies education welfare regimes bureaucracy revolutions popular ideologies geopolitical change and state breakdowns have had in the transformation of war and nationalism **Peaceful Intervention in Intra-State Conflicts** Chanaka Talpahewa, 2016-03-03 Have we reached an end to the era of peaceful third party intervention in conflict management and resolution In the 1990s with the ending of the Cold War the intervention of third parties as a non violent means of negotiating settlements of intra state conflicts gained prominence but the emphasis in the twenty first century has been increasingly on military responses Peaceful Intervention in Intra State Conflicts Norwegian Involvement in the Sri Lankan Peace Process is an in depth impartial discussion on the background decision making processes and procedures and related

actions in the Norwegian facilitated peace process in Sri Lanka that gradually shifted towards a military solution It provides the reader with evidence based comprehensive analysis on the attempts of peaceful third party intervention in a complex ethno separatist intra state conflict Ethnic Realignments Matthew Hoddie, 2006-01-01 Ethnic Realignments offers a fresh look at the phenomenon of rapidly changing ethnic identity claims By focusing on the countries of Australia China Malaysia and India Matthew Hoddie provides a comparative study arguing that government policies designed to favor one ethnic group over another can influence individuals among the disfavored group to change their identities and recast themselves as members of the favored group Hoddie employs a statistical methodology to lay out the conditions and factors that lead to these ethnic identity changes thereby contributing to the ongoing debate concerning the malleability of ethnic identity Ethnic Realignments is a significant work for scholars interested in the politics of ethnicity and the effectiveness of affirmative action policies The Tsunami of 2004 in Sri Lanka Piers Blaikie, 2013-10-18 This book is based on empirical research in Sri Lanka conducted after the catastrophic tsunami which hit the country in December 2004 The aims of the research have been to develop new knowledge on post crisis reconstruction and recovery work on how to bridge the knowledge gap between researchers and practitioners as well as trying to use past research experiences from Sri Lanka to learn about the present day situation The chapters use a common analytical frame related to the policy narratives of post tsunami recovery in the shadow of war and deal with housing reconstruction livelihoods internally displaced humanitarian interventions and protracted conflicts The authors represent various social scientific fields and they have experience from different geographical areas of Sri Lanka This book was published as a special issue of Norsk Geografisk Tidsskrift

Economic Reforms in Sri Lanka, Post-1977 Period Nira Wickramasinghe,2005 With reference to Sri Lanka **The Thomas Sowell Reader** Thomas Sowell,2011-10-04 A one volume introduction to over three decades of the wide ranging writings of one of America's most respected and cited authors. These selections from the many writings of Thomas Sowell over a period of a half century cover social economic cultural legal educational and political issues. The sources range from Dr Sowell's letters books newspaper columns and articles in both scholarly journals and popular magazines. The topics range from late talking children to tax cuts for the rich baseball race war the role of judges medical care and the rhetoric of politicians. These topics are dealt with by sometimes drawing on history sometimes drawing on economics and sometimes drawing on a sense of humor The Thomas Sowell Reader includes essays on Social Issues Economics Political Issues Legal Issues Race and Ethnicity Educational Issues Biographical Sketches Random Thoughts My hope is that this large selection of my writings will reduce the likelihood that readers will misunderstand what I have said on many controversial issues over the years Whether the reader will agree with all my conclusions is another question entirely But disagreements can be productive while misunderstandings seldom are Thomas Sowell **The Rise of Tamil Separatism in Sri Lanka** Gnanapala Welhengama, Nirmala Pillay, 2014-03-05 Among the examples of civil wars armed secessionist movements and

minority uprisings in the world today many involve conflict between a minority group s aim for political self determination and the nation state s resistance to any diminution of sovereignty With the expansion of the international regime of human rights minority groups have reconceptualised their struggle with the understanding that a minority which is linguistically religiously or ethnically distinctive is entitled to self determination if their aspirations cannot be met This book explores the relationship between minority rights self determination and secession within international law by contextualising these issues in a detailed case study of the rise of Tamil separatism in Sri Lanka Welhengama and Pillay show how Tamil communalism hardened into secession and assess whether the Sri Lankan government has met its obligations with respect to the right to self determination short of secession Focusing on the legal and human rights arguments for secession by the Tamil community of the North and East of Sri Lanka the book demonstrates how the language of international law and international human rights played a major role in the development of the arguments for secession Through a close examination of the case of the Tamil's secessionist movement the book presents valuable insights into why modern nation states find themselves threatened by separatist claims and bids for independence based on ethnicity South Asian Insecurity and the Great Powers Barry Buzan, Gowher Rizvi, Rosemary Foot, 1986-06-18 Ethnic Diversity and Public Policy C. Young, 2016-07-27 In recent years the saliency of conflicts pitting different ethnic racial and religious groups against one another has increased dramatically The world of nation states is much more diverse than previously realized only a small number of the 185 independent countries are truly homogeneous With the end of the cold war the relative importance of ethnic conflicts as a threat to international peace and stability is far greater An international set of scholars collaborate in this volume to explore policy alternatives which can contribute towards the accommodation of cultural diversity Nation, Constitutionalism and Buddhism in Sri Lanka Roshan de Silva Wijeyeratne, 2013-08-15 Nation Constitutionalism and Buddhism in Sri Lanka offers a new perspective on contemporary debates about Sinhalese Buddhist nationalism in Sri Lanka In this book de Silva Wijeyeratne argues forcefully that Sinhalese Buddhism in the period prior to its engagement with the British colonial State signified a relatively unbounded although at times boundary forming set of practices that facilitated both the inclusion and exclusion of non Buddhist concepts and people within a particular cosmological frame Juxtaposing the premodern against the backdrop of colonial modernity de Silva Wijeyeratne tells us that in contrast modern Sinhalese Buddhism nationalism is a much more reified and bounded concept one imagined through a 19th century epistemology whose purpose was not so much inclusion but a much more radical exclusion of non Buddhist ideas and people In this insightful analysis modern Sinhalese Buddhist nationalism then emerges through the conjunction of discourse power and knowledge at a distinct moment in the trajectory of the colonial State An intrinsic feature of this modernist moment is that premodern categories such as the cosmic order were subject to a bureaucratic revaluation that generated profound consequences for State society relations and the wider constitutional legal imaginary This book goes onto explore how key constitutional and nation building moments were

framed within the cultural milieu of modern Sinhalese Buddhist nationalism a nationalism that reveals the power of a re valued Buddhist cosmic order to still inform the present Given the intensification of the Sinhalese Buddhist nationalist project following the defeat of the Tamil Tigers in 2009 this book is of interest to scholars of nationalism South Asian studies the anthropology of ritual and comparative legal history Crafting State-Nations Alfred Stepan, Juan J. Linz, Yogendra Yadav, 2011-03-31 Political wisdom holds that the political boundaries of a state necessarily coincide with a nation s perceived cultural boundaries Today the sociocultural diversity of many polities renders this understanding obsolete This volume provides the framework for the state nation a new paradigm that addresses the need within democratic nations to accommodate distinct ethnic and cultural groups within a country while maintaining national political coherence First introduced briefly in 1996 by Alfred Stepan and Juan J Linz the state nation is a country with significant multicultural even multinational components that engenders strong identification and loyalty from its citizens Here Indian political scholar Yogendra Yadav joins Stepan and Linz to outline and develop the concept further The core of the book documents how state nation policies have helped craft multiple but complementary identities in India in contrast to nation state policies in Sri Lanka which contributed to polarized and warring identities The authors support their argument with the results of some of the largest and most original surveys ever designed and employed for comparative political research They include a chapter discussing why the U S constitutional model often seen as the preferred template for all the world's federations would have been particularly inappropriate for crafting democracy in politically robust multinational countries such as India or Spain To expand the repertoire of how even unitary states can respond to territorially concentrated minorities with some secessionist desires the authors develop a revised theory of federacy and show how such a formula helped craft the recent peace agreement in Aceh Indonesia Empirically thorough and conceptually clear Crafting State Nations will have a substantial impact on the study of comparative political institutions and the conception and understanding of nationalism and democracy
