From Mud To House:

iVillager Abba Gony Mustafa, 2018-11-27 It has taken me a thirty year journey from my dusty village Kokoland to reach America the land of Uncle Sam Both Kokoland and America belong to planet Earth but they are two different worlds and neither one knows about the existence of the other Few people in my village have the slightest clue about life in America To them the village might as well be the center of the universe I m one of few lucky or unlucky ones depending on how you look at it who happened to miraculously have had the opportunity to live in both worlds It goes without saying that I can also speak with confidence that my level of confusion is unparalleled as you will find in this book Once I had confused Elvis Presley the King for Yuri Gagarin the Russian Astronaut In fact there are people in Kokoland who still believe so What difference will that make anyway when folks still believe that the Earth is flat *Gas Geochemistry: New Progresses and Applications* Giovanni Martinelli, Francesco Italiano, Yunpeng Wang, Guodong Zheng, 2022-07-04 Mudgirls Manifesto The Mudgirls Natural Building Collective, 2018-06-05 Building a Revolution one handful at a time In the face of widespread burnout and a world gone crazy how do we find things to say yes to rather than a resounding no On North America s West Coast there s a group of rebel women who ten years ago chose to break free from a rigged economic and social system They didn t take to the streets to lobby banks and governments to change their ways they didn t have time for that They had babies to feed and house They reckoned that if nobody else was going to change the rules to support basic human needs and respect the biosphere then we are all free to make our own rules They chose action They decided to teach themselves how to build houses using the most abundant material on earth mud They d learn by building gathering skills and allies They d have fun sharing whatever they learned with whoever wanted to come along for the ride The Mudgirls revolution was born Part story of rebel women grassroots self governance and community building part incendiary political and economic tract and part practical guide to building natural homes for real people Mudgirls Manifesto is about respecting the earth each other and crafting meaningful lives A powerful positive antidote to troubled times *Magyar, Stars & Stripes* Michael Lipiner, 2005-05-20 Magyar Stars Stripes strikingly recounts a Hungarian Jewish family s history of love affection persecution and injustice It tells about their close kinship and heart wrenching experiences in labor and concentration camps The book chronicles Alexander Taub s life from a playful childhood to a young adulthood shattered within a labor camp in Schachendorf Austria Every day is a new battle to survive amid countless bodies He makes a daring escape and finds compassion in people who offer food and clothing Rebuilding the ashes of his family Taub takes us on an extraordinary journey to Manhattan where he and surviving family members eventually become successful entrepreneurs He uses street smarts and intuition to make his fortune but still remains an enigmatic figure building a brick wall to contend with the great losses in his life While giving historical accounts and sufficient background information of these different periods the author often transcribes verbatim his grandfather s broken English to illustrate the man s unique style and humorous outlook on life

This incredibly witty and courageous story of perseverance will greatly appeal to the reader's emotions

Development of Capitalistic Enterprise in India Daniel Houston Buchanan, 2013-11-26 First Published in 1966 Any person who resides in any one of the principal oriental countries is bound to stimulate a western mind to consider the differences between his own and eastern civilizations and the reasons for these differences During a dozen years as an economist in Japan India and China a number of conclusions which the author first formed tentatively have gradually become convictions One of these is that if economic forces play the important part in western countries which most thoughtful people attribute to them they must be even more important in the Orient because of the greater pressure of population upon the natural resources in those countries A second is that many of the striking differences between occidental and oriental cultures are adaptations of the same human clay to differing economic conditions Since the opening and settlement of the New World the West has been pressed in a new mould leaving the East of to day in a medieval cast A third is that detailed studies of the evolutionary movements now in process in several eastern countries would throw very useful light upon the origins and nature of the competitive system which has characterized the modern economic history of the West This volume fills the need for fuller understanding of India's economic changes especially those having to do with the growth of capitalistic enterprise led the government of India to institute a remarkable series of investigations into several aspects of Indian life
