## **From Art To Archaeology:**

**From Art to Archaeology**, 1991      **Art in the Archaeological Imagination** Dragos Gheorghiu, 2020-02-02 The book discusses the creative mental processes of the prehistoric and contemporary artists as well as of the archaeologists studying them from the perspective of cognition and art. Its intention is to highlight the artistic thinking within the imagination of the archaeologist as well as to discuss the concepts of imagination and art in the current scientific research. From this perspective the book suggests a type of research closer to the complexity of the human nature and human thinking that can approach cultural and psychological subjects ignored until now. It is hoped that one of the results of the book will be the formulation of new meanings for art from the perspective of archaeology. Responding to the recent ongoing growing interest in the art archaeology interaction the editor has carefully selected papers written by a series of eminent European and American scholars with a background in ancient and contemporary art, symbolic thinking, semiotics and archaeological imagination with the intention of introducing new arguments and discussions into the emerging art archaeology discourse. The book is composed of three parts: Art and the ancient mind, Experiencing the ancient mind and Exploring the act of creation.      From

Art to Archaeology, 1991      **The Archaeology of Art** Andrew Meirion Jones, Andrew Cochrane, 2018-05-20 How can archaeologists interpret ancient art and images if they do not treat them as symbols or signifiers of identity? Traditional approaches to the archaeology of art have borrowed from the history of art and the anthropology of art by focusing on iconography, meaning, communication and identity. This puts the archaeology of art at a disadvantage as an understanding of iconography and meaning requires a detailed knowledge of historical or ethnographic context unavailable to many archaeologists. Rather than playing to archaeology's weaknesses the authors argue that an archaeology of art should instead play to archaeology's strength: the material character of archaeological evidence. Using case studies examining rock art, figurines, beadwork, murals, coffin decorations, sculpture and architecture from Europe, the Americas, Asia, Australia and North Africa the authors develop an understanding of the affective and effective nature of ancient art and imagery. An analysis of a series of material-based practices from gesture and improvisation to miniaturisation and gigantism, assembly and disassembly and the use of distinctions in colour enable key concepts such as style and meaning to be reimagined as affective practices. Recasting the archaeology of art as the study of affects offers a new prospectus for the study of ancient art and imagery.

**Greek Art and Archaeology** Richard T. Neer, 2012 A richly illustrated authoritative and accessible new survey that combines a clear chronological narrative with a fresh and up-to-date account of Greek art and archaeology.      Art and Archaeology Ian Alden Russell, Andrew Cochrane, 2013-11-19 This volume presents a collection of interdisciplinary collaborations between contemporary art, heritage, anthropological and archaeological practitioners.
