incompatible with the Soviet version of Marxism but he tried to affirm them indirectly in his work through structure imagery and allusion while outwardly conforming to official demands This manoeuvring inevitably led him into some questionable compromises which in turn damaged his reputation both at home and abroad Leonov himself was painfully conscious of the moral dilemmas involved and his later works return again and again to the question is it possible to compromise without being compromised There are fourteen chapters in the volume each devoted to one or more of Leonov s works setting the successive stages of his evolution against a background of changing cultural and political policies
