**Policing Hate Crime** Gail Mason, Jane Maree Maher, Jude McCulloch, Sharon Pickering, Rebecca Wickes, Carolyn McKay, 2017-03-16 In a contemporary setting of increasing social division and marginalisation Policing Hate Crime interrogates the complexities of prejudice motivated crime and effective policing practices Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities But how do police effectively lead conversations with such communities about problems arising from prejudice Contemporary police are expected to be active agents in the pursuit of social justice and human rights by

stamping out prejudice and group based animosity At the same time police have been criticised in over policing targeted communities as potential perpetrators as well as under policing these same communities as victims of crime Despite this history the demand for impartial law enforcement requires police to change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime Drawing upon a research partnership between police and academics this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities and illuminates ways to overcome communication difficulties This book will be important reading for students taking courses in hate crime as well as victimology policing and crime and community      *Encyclopedia of American Civil Liberties* Paul Finkelman,2013-11-07 This Encyclopedia on American history and law is the first devoted to examining the issues of civil liberties and their relevance to major current events while providing a historical context and a philosophical discussion of the evolution of civil liberties Coverage includes the traditional civil liberties freedom of speech press religion assembly and petition In addition it also covers concerns such as privacy the rights of the accused and national security Alphabetically organized for ease of access the articles range in length from 250 words for a brief biography to 5 000 words for in depth analyses Entries are organized around the following themes organizations and government bodies legislation and legislative action statutes and acts historical overviews biographies cases themes issues concepts and events The Encyclopedia of American Civil Liberties is an essential reference for students and researchers as well as for the general reader to help better understand the world we live in today      **Human Rights and Relative Universalism** Marie-Luisa Frick,2019-01-31 This book argues that human rights cannot go global without going local This important lesson from the winding debates on universalism and particularism raises intricate questions what are human rights after all given the dissent surrounding their foundations content and scope What are legitimate deviances from classical human rights law and where should we draw red lines Making a case for balancing conceptual openness and distinctness this book addresses the key human rights issues of our time and opens up novel spaces for deliberation It engages philosophical reasoning with law politics and religion and demonstrates that a meaningful relativist account of human rights is not only possible but a sorely needed antidote to dogmatism and polarization      Hate Crimes Phyllis B. Goals and countries commitment to the principle of leaving no one behind in the effort to end poverty and inequality Equality of Opportunity for Sexual and Gender Minorities assesses the unique challenges that sexual and gender minorities face in six important areas i Criminalization and SOGI ii Access to education iii Access to the labor market iv Access to public services and social protection v Civil and political inclusion vi Protection from hate crimes This report covers numerous policy recommendations to prevent and eliminate discriminatory practices in all of the areas covered It also seeks to influence legislative changes and support research on institutions and regulations that can ultimately lead to poverty reduction and shared prosperity At the same time it acknowledges that the mere existence of inclusive laws and regulations does not ensure that sexual and gender minorities are free from discrimination the enforcement of those laws is crucial This publication the first in a series of studies will be expanded from the 16 countries included here to a wider set of countries for more in depth quantitative analysis and to identify possible correlations with socioeconomic outcomes It will seek to deepen knowledge facilitate peer learning of good practices and encourage reforms to increase the inclusion of sexual and gender minorities
