Higgins,1998-03-01 Until now writings on the celebrated movements in literature and film that emerged in France in the mid 1950s the New Novel and

New Wave have concentrated on their formal innovations not on their engagement with history or politics New Novel New Wave New Politics overturns this traditional approach Lynn A Higgins argues that the New Novelists e g Alain Robbe Grillet Claude Simon Marguerite Duras and New Wave filmmakers e g Claude Chabrol Francois Truffaut Jean Luc Godard Alain Resnais engage in a kind of historiography They enact the conflicts the double binds of postwar history and representation Higgins claims that what art historian Serge Guilbaut has said of American Abstract Expressionism is equally true of the New Novel and New Wave that its aesthetic innovations provided a way for avant garde artists to preserve their sense of social commitment while eschewing the art of propaganda and illustration It was in a sense a political apoliticism Higgins shows how the New Novel and New Wave are related developments While their individual styles and themes remain distinctive she writes they share an ecriture that can be described as alternately or interconnectedly filmic and novelistic New Wave filmmakers borrowed novelistic devices and made frequent literary allusions while the vision of the novelists is distinctly cinematic A lively account that takes us to the crossroads where culture and politics meet New Novel New Wave New Politics dramatically revises our view of a whole generation of important influential artists

Love Both Keep Both Ken Reiman, 2019-10-15 A diplomat with dual nationality tells the story of his heritage from a Japanese mother and American father and his lifelong desire to serve the United States as a member of the U S Foreign Service in Japan In a memoir both personal and public Ken Reiman a diplomat with dual nationality tells the story of his heritage from a Japanese mother and American father and his lifelong desire to serve the United States as a member of the U S Foreign Service in Japan Reiman traces his education in Arizona childhood summers in Japan and his grandmothers love as driving forces behind his unwavering commitment to be a bridge between the U S and Japan At 24 Reiman entered the world of diplomacy serving the U S with distinction in Asia Africa and South America He takes us on many journeys describing good

times as well as high stress and bureaucratic obstacles while always seeking an appointment in Japan Throughout heartbreak and struggles to prove his loyalty his story argues for advantages for both countries to utilize dual nationals instead of shunning them He calls for beneficial new considerations governments should undertake to promote diversity diplomacy and peace Love Both Keep Both is informative as well as heartfelt especially for Americans who understand the inherent value of diversity and Japanese who view the U S as their greatest ally The message is simple embrace dual nationality as a gift and never apologize for loving all of who you are to become the positive force for change God intended you to be Making Sense of Violence Matthew D'Auria, Mark Hewitson, 2020-11-25 This book looks at the representations of modern war by analysing texts and examining the ways in which authors relate to the atrocious horrors of war Rejecting the assumption that violence is simply a denial of reason or at best a pathological form of collective sadism this book considers it a cultural act that needs to be understood as underpinned by a series of shared and accepted norms and values stemming from a society at a given moment of its history and shaped by its language Traditional vocabulary and language seem inadequate to describe soldiers experience of modern warfare The problem for writers is to depict and render intelligible a dramatically unprecedented reality through recourse to something familiar For some historians and literary critics the absurdity of the First World War has shaped our ironic and disenchanted reading of the entire twentieth century Yet these ways of coping with the urge to communicate inexpressible feelings and emotions in most cases are not sufficient to overcome the incoherence of the sentiments felt and the events witnessed The contributors attempt to address the questions and issues that are posed by the highly ambiguous views texts and representations examined in this volume This book was originally published as a special issue of the journal *European Review of History* *Revue Européenne d'Histoire* *Love Thyself* Masaru Emoto, 2011-01-23 The common language that the people of the world have been seeking is found in water crystals Water speaks for what is in our mind Water awakens the subconscious memory in each person I now know why water is indispensable to the phenomenon of life and why alternative therapies exist and why they're effective Water helped me understand religion and prayer and gave me a clue to understanding the nature of energy It helped me understand the relationship between humanity and the cosmos It gave me a clue to help me understand what dimensionality is I could come one step closer to understanding the eternal theme of humanity that asks where we come from why we are here and what happens when we die Thus for the release of this the third volume in my series of *The Message from Water* I decided to choose what the world most urgently needs at present as a theme That is of course the need to eliminate war and terrorism throughout the world The theme I have chosen is prayer When I thought about it more deeply I realized that prayer is most effectively sent when each person in the world raises their energy of love by imagining a scene where the peoples of the world are living in peace I've been taught this through the process of asking water many questions For this reason the title of this book is *Love Thyself* First you must shine with positive high spirited vibrations and be full of love In order to do that I

think it s important to love thank and respect yourself If that s the case then each of those vibrations will be sent out into the world and the cosmos and the great symphony of that harmonic vibration will wrap our planet in waves of love that serve to cherish our Heaven granted lives This is the message from water **The Hidden Ground of Love** Thomas
