From Immigration Controls To Welfare Controls:

From Immigration Controls to Welfare Controls Steve Cohen, Beth Humphries, Ed Mynott, 2014-04-08 This edited collection addresses theoretical political and practical aspects of the connection between external immigration controls and internal welfare controls. It considers the implications for the both those subject to controls and those drawn into the web of implementing internal welfare controls. Topics discussed include forced dispersal of asylum seekers, local authority and voluntary sector regulations, nationalism, racism, class and fairness, strategies for resistance to controls, USA controls. The book provides support to those unwittingly drawn into administering controls, showing how the role of welfare workers as immigration control enforcers is not a sudden imposition but has existed since the introduction of controls in 1905. *From Immigration Controls to Welfare Controls* will provide a valuable resource for all those professionals who come into contact with the issues surrounding immigration. [Social Work, Immigration and Asylum](#) Debra Hayes, Beth Humphries, 2004-01-19

The practical and ethical challenges facing human service professionals working with refugees, asylum seekers and other people subject to immigration controls are discussed in this book. The contributors explore the tensions that exist between anti-oppressive values and the role professionals increasingly play as gatekeepers to services. [Social Policy for Social Work, Social Care and the Caring Professions](#) Janine Bolger, 2016-04-01 Since devolution in 1999, social policy within Scotland has burgeoned. The Scottish Parliament has a range of powers in relation to key policy areas including social work, education, health, child care, child protection, law and home affairs, and housing. These powers and the existence of a distinct legal tradition in Scotland means that social work practice has developed a distinctive style attuned to the particular needs of Scotland. Scottish distinctiveness, however, has rarely been properly represented in textbooks on either social policy or social work. This innovative text offers comprehensive coverage of the discipline of social policy and its central relevance to social work, social care and related practice in Scotland. Designed to complement teaching and study associated with the new Honours degree in Social Work, Scottish Executive 2003, it fills a notable gap in the literature on this subject and will be essential reading for students, professionals and academics within a variety of health and social care occupations.

Disabling Migration Controls Rebecca Yeo, 2024-06-10 When people are prevented from meeting their needs, the impact is disabling, whether in the immigration system or in the wider population. Drawing on many years of research and activism, this book argues that insights from the disabled people's movement, particularly the original Social Model of Disability, can be usefully extended to focus resistance on the disabling restrictions imposed on people subject to asylum and immigration controls. While acknowledging the pain and discomfort of many impairments and of forced displacement, the book focuses on injustices that can be changed. It does not catalogue the hostility of the hostile environment. Nor does it promote inclusive asylum restrictions. An unjust system is not transformed by including disabled people. Policies designed to deprive people of essential needs and to stoke hatred among the wider population are core elements of the rise of fascism. In this context,

bringing together movements for disability and migrant justice could help build urgently needed solidarity and resistance with which to develop a society based on equity and common humanity Quotations and images are used to convey the messages and priorities of disabled people seeking asylum ensuring that the book is both engaging and grounded in the insights of lived experience This book will interest people seeking to improve social justice including scholars of disability migration sociology and politics *Understanding Social Citizenship* Peter Dwyer,2010-06-09 This accessible textbook provides students with the knowledge and background they need to understand the concept of citizenship in the UK the EU and global institutions The book combines an outline of competing perspectives on citizenship with an evaluation and appreciation of the implications that class gender ethnicity disability and age may have for the social and citizenship status of certain individuals and groups It offers a clear sense of the history of citizenship and the key theoretical debates that have informed contemporary understandings of the concept Fully revised and updated this second edition includes a new chapter on ageing and older citizens plus new topical sections The book s easy to digest text boxes will aid learning and teaching

The Policy-making Process in the Criminal Justice System Adrian Barton,Nick Johns,2013 This book offers a fresh perspective on the policy making process in the criminal justice system offering a detailed overview of both the theory behind it and how it plays out in practice with contemporary policy examples

Migration Control Logics and Strategies in Europe Claudia Finotelli,Irene Ponzo,2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions

Critical Social Work with Children and Families Steve Rogowski,2024-02-27 In dealing with individual problems and difficulties critical social work CSW is an emancipatory practice which seeks to address social injustice In this book the author draws on almost 40 years experience as a social worker to consider CSW in core areas of practice with children and families Fully updated to cover the impact of austerity Brexit the COVID 19 pandemic and cost of living crisis this accessible textbook is essential reading for students educators and practitioners of child and family social work It features clearly signposted theory and practice sections over 10 case studies including those drawn from the author s experience end of chapter Key points summaries further reading suggestions With expanded coverage of race and

intersectionality contextual safeguarding and critical child protection the book champions the development of resilient social workers working towards a more just and equal world

The Human Rights Act and the Assault on Liberty Parnesh Sharma, 2011-10-01 Demonstrating that the state of civil liberties and human rights in the United Kingdom are quite perilous this case study looks at the role of rights vis vis social change and culture Empirically examining the Human Rights Act HRA with asylum serving as the main case study the book focuses on law in action based on extensive fieldwork and framed against current events It also discusses the role of Section 55 a law enacted at the same time as the HRA that was an antithesis of what the HRA promised and which forced thousands of asylum seekers into destitution Though Section 55 was eventually defeated asylum seekers in the UK are still powerless and marginalized The book argues that the HRA has proven to be ineffective against illiberal policies and that the development of a culture of rights as far as asylum is concerned has stalled This thoughtful analysis of the use of rights laws to advance social causes presents both potential and pitfalls making it useful for sociologists activists and nongovernmental organizations

The Health of Refugees Pascale Allotey, Daniel Reidpath, 2019-01-03 At the moment over 65 million people are forcibly displaced from their homes The reasons for movement range from extreme weather conditions and environmental disasters to war civil and political crises to the need for basic economic survival Amongst these 65 million people are those that have been forced to leave a country that is no longer willing or able to offer protection and those who are displaced within their own country's borders In order to improve conditions for displaced people all over the globe we need to look at the reason behind their move as this defines their migration status under international law In its turn the migration status affects the requirements of other countries to grant asylum and the individual's right to protection and support The definition of migration status and its implications has created tension in the public debate on refugees for decades and is today more relevant than ever In *The Health of Refugees Public Health Perspectives from Crisis to Settlement* the challenges and vulnerabilities created from this debate are addressed by public health policy makers clinical practitioners and researchers An analysis of public health international law the history of migration and the media's role in refugee health it is a comprehensive and critical work with a strong message in favour of international and interdisciplinary cooperation With a focus on what international obligations entail when it comes to refugees and migrants the authors present a reinforced take on our collective responsibility to leave no one behind *The Health of Refugees Public Health Perspectives from Crisis to Settlement* traces the health repercussions on individuals and populations from the moment of forced mass movement due to conflict and other disasters through to the process of resettlement in other countries These issues are addressed within the context of other global public health priorities and are part of the book's critical analysis not only of the particular vulnerabilities created by mobility but also how these interact and intersect with existing considerations across gender and age in health systems and international law With a wider geographical area and case studies from all over the globe as a basis for the studies presented this is a fully updated edition

with new material discussing the current political landscape A truly multidisciplinary book The Health of Refugees is ideal for public health practitioners researchers and postgraduate students It is also an important work for those involved in non governmental organisations international aid and international development Furthermore it provides a critical background for clinicians mental health workers and policymakers from health welfare and migration **Migration Without Borders**

Antoine Pécoud,Paul F. A. Guchteneire,2007 International migration is high on the public and political agenda of many countries as the movement of people raises concerns while often eluding states attempts at regulation In this context the scenario challenges conventional views on the need to control and restrict migration flows This book explores the analytical issues raised by open borders in terms of ethics human rights economic development politics social cohesion and welfare and provides in depth empirical investigations of how free movement is addressed and governed in Europe Africa the Americas and Asia Publisher s description *Making it Work* Alice Bloch,2004 Includes statistics **Management and**

Organisations in Social Work Trish Hafford-Letchfield,2009-04-17 This fully revised and updated second edition looks at the study of social work management and organisations focusing on relationships with crucial partners such as central government agencies local partners and other social care organisations Through an examination of current research and practice the author explores the relationships between ideology professional and personal values and decision making in organisational culture Included in the text are case studies activities and further reading lists to aid learning **The**

textbook provides the clearest and most authoritative introduction available to working in situations characterised not only by risk and change but also by high pressure to deliver successful outcomes Edited by three of the leading names in Social Work Robert Adams Lena Dominelli and Malcolm Payne provide an indispensable guide to successful social work practise Its coherent and thoughtful coverage of practice situations involving complexity tension and uncertainty is uniquely geared to the needs of students in the final stages of their qualifying Social Work course professionals returning to study or those

simply wishing to deepen their professional understanding Social Work, Politics and Society Kenneth McLaughlin, 2008-07 Kenneth McLaughlin highlights the need for a new approach to social work that has a more optimistic view of both individuals and society and of their capacity to overcome problems Bordering social reproduction Rachel Rosen, Eve Dickson, 2025-04-29 *Bordering social reproduction* explores what happens when migrants subject to policies that seek to deny them the means of life nonetheless endeavour to make and sustain meaningful lives Developing innovative theorisations of welfare bordering the volume provides rich ethnographic insights into the everyday lives of destitute mothers and children who are denied mainstream welfare support in the United Kingdom due to their immigration status This book shows how enforced destitution and debt work alongside detention and deportation as part of a tripartite of exclusionary technologies of the racial state It advances the novel concept of weathering to comprehend mother s and children s life making practices under duress arguing that these are neither acts of heroic resilience nor solely symptomatic of lives rendered disposable but indications of the fragilities of repressive migration regimes and on occasion refusals to accept their terms of existence *Perspectives on European Social Work* Walter Lorenz, 2006-06-22 The book offers explanations and clarifications for the bewildering variety of titles and job profiles in the social professions in Europe It presents them both as a product of specific national welfare arrangements and as a sign of a special kind of professional autonomy that so far helped to correct national welfare trends Now this autonomy is once more called for in the light of the complete restructuring of all European welfare states and a European model of social work could deliver impulses for real alternatives to growing exclusion and inequality *The Cultures of Economic Migration* Tope Omoniyi, 2016-03-16 This volume explores the processes of economic migration the social conditions that follow it and the discourses that underlie research into it Reflecting critically on economic migration and on the process of studying and creating knowledge about it the contributors address the question of whether recent enquiries into modernity bring a newer and better comprehension of the nature of dislocation and movement or whether these serve simply to replicate familiar modes of placing people and individuals The book is organized into perspectives in and on specific continents Europe Asia and Africa in order to explore notions regarding economic migration within and across regions as well as towards displacing the Eurocentrism of many studies of migration

Rethinking Security in the Age of Migration Ali Bilgic, 2013-09-02 Migration and especially irregular migration are politically sensitive and highly debated issues in the developed world particularly in Europe This book analyses irregular protection seeking migration in Europe with close attention to sub Saharan migration into the EU from the perspective of emancipatory security theory Some individuals leave their countries because political social and economic structures largely fail to provide protection This book examines how communities respond to migrants who seek protection and security where migration is perceived as a source of insecurity by many in that community The central aim of this critical analysis is to explore ideas and practices which can contribute to replacing the political structures of insecurity with emancipatory

structures where individuals both irregular migrants and members of the receiving communities enjoy security together not opposed to each other Drawing on the security dilemma critical approaches to security forced migration and trust the book demonstrates how common life between two groups of individuals can be politically constructed in tandem with limitations risks and possible handicaps of initiating such a construction in world politics Rethinking Security in the Age of Migration will be of interest to students and scholars of migration studies security studies international relations European politics and sociology
