From Kosovo To Kabul Human Rights And International Intervention:

From Kosovo to Kabul and Beyond David Chandler, 2006 This new and updated edition of David Chandler's acclaimed book takes a critical look at the way in which human rights issues have been brought to the fore in international affairs. The UN and NATO's new policy of interventionism as shown in Iraq, Somalia, Bosnia, Kosovo, and East Timor has been hailed as part of a new ethical approach to foreign policy. David Chandler offers a rigorous critique of this apparently benign shift in international relations to reveal the worrying political implications of a new human rights discourse. He asks why the West can now prioritise the rights of individuals over the traditional rights of state sovereignty and why this shift has happened so quickly. Charting the development of a human rights based foreign policy, he considers the theoretical problems of defining human rights and sets this within the changing framework of international law. Meticulous and compelling, *From Kosovo to Kabul and beyond* offers a disturbing insight into the political implications of a human rights led foreign policy and the covert agenda that it conceals.

From Kosovo to Kabul David Chandler, 2002 Having written widely about human rights and international relations, Chandler does not here attempt a history of them or their interrelationship. Rather, he analyzes why the ethical agenda of human rights has become widely accepted since 1990 and indicates areas in which there appear to be limitations or at least important questions over the implications of this shift in approach. Waging War to Make Peace Susan Yoshihara, 2010-04-09 A revealing examination looks at the decision making in four NATO capitals about waging war in Kosovo and Iraq. Written by a combat veteran who also served on the faculty of the Naval War College, *Waging War to Make Peace*. U.S. Intervention in Global Conflicts is a thought provoking analysis of the decision to make war in the modern world. The subject is examined through the lens of the decision making of four NATO nations: Britain, France, Germany, and the United States in the 1999 Kosovo campaign compared to their decisions in 2003 regarding the Iraq war. What emerges is a picture of how the bitter dispute over Iraq was the result of disagreements about who has the authority to wage war when it is justified and whether nations have an obligation to intervene in the case of human rights and humanitarian emergencies. The book shows how those who enthusiastically hailed a new era of warfare based upon human rights and humanitarian values misjudged the significance of the Kosovo decision and it underscores issues with which leaders must come to grips if NATO allies are to avoid broader disputes in the years ahead.

Territories of Citizenship L. Beckman, E. Erman, 2012-07-29 A comprehensive exploration of theories of citizenship and inclusiveness in an age of globalization. The authors analyze democracy and the political community in a transnational context using new critical conceptual and normative perspectives on the borders, territories, and political agents of the state.

Media, Wars and Politics Ekaterina Balabanova, 2017-11-30 The interaction between media and foreign policy is a critical dimension of the so-called age of new military humanitarianism. The media is now more effective in gathering and distributing information all over the world and media coverage of humanitarian wars
