Schulman, 2001-08-07 Most of us think of the 1970s as an in between decade the uninspiring years that happened to fall between the excitement of the 1960s and the Reagan Revolution A kitschy period summed up as the Me Decade it was the time of Watergate and the end of Vietnam of malaise and gas lines but of nothing revolutionary nothing with long lasting significance In the first full history of the period Bruce Schulman a rising young cultural and political historian sweeps away misconception after misconception about the 1970s In a fast paced wide ranging and brilliant reexamination of the decade s politics culture and social and religious upheaval he

argues that the Seventies were one of the most important of the postwar twentieth century decades The Seventies witnessed a profound shift in the balance of power in American politics economics and culture all driven by the vast growth of the Sunbelt Country music a southern silent majority a boom in enthusiastic religion and southern California New Age movements were just a few of the products of the new demographics Others were even more profound among them public life as we knew it died a swift death The Seventies offers a masterly reconstruction of high and low culture of public events and private lives of Jonathan Livingston Seagull Evel Knievel est Nixon Carter and Reagan From The Godfather and Network to the Ramones and Jimmy Buffett from Billie Jean King and Bobby Riggs to Phyllis Schlafly and NOW from Proposition 13 to the Energy Crisis here are all the names faces and movements that once filled our airwaves and now live again The Seventies is powerfully argued compulsively readable and deeply provocative      **Toward a New Art of Border Crossing** Ananta Kumar Giri, Arnab Roy Chowdhury, David Blake Willis, 2024-11-05 Boundaries borders and margins are related concepts and realities and each of these can be conceptualized and organized in closed or open ways with degrees of closure or openness The logics of stasis and closure as well as cults of exclusivist and exclusionary sovereignty are reflected and embodied in the closed xenophobic conceptualization and organization of boundaries borders and margins But an open conceptualization of the borderlands where mixing and hybridity take place at a rapid even dizzying pace gives rise to Creolization at the threshold of sovereignties which can also be imagined At present our border zones are spaces of anxiety ridden security arrangements violence and death The existing politics of boundary maintenance is wedded to a cult of sovereignty at various levels which produces bare lives bodies and lands We need the new art of border crossing to be defined by the notion of camaraderie and shared sovereignties and non sovereignties Border zones can also be zones of meetings communication transcendence and festive celebration of the limits of our identities Thus we need a new art and politics of boundary transmutation transformation and transcendence in the broadest possible sense that entails the production of spatial scalar somatic cognitive affective and spiritual transitions      Guys Like Us Michael Davidson, 2004 Guys Like Us considers how writers of the 1950s and 60s struggled to craft literature that countered the politics of consensus and anticommunist hysteria in America and how notions of masculinity figured in their effort Michael Davidson examines a wide range of postwar literature from the fiction of Jack Kerouac to the poetry of Gwendolyn Brooks Frank O'Hara Elizabeth Bishop and Sylvia Plath He also explores the connection between masculinity and sexuality in films such as Chinatown and The Lady from Shanghai as well as television shows plays and magazines from the period What results is a virtuoso work that looks at American poetic and artistic innovation through the revealing lenses of gender and history      Critical Perspectives on User Involvement Marian Barnes, Phil Cotterell, 2012 This original and insightful reader provides a critical stock take of the state of user involvement and will be an important resource for students studying health and social care and social work researchers and user activists      **The Routledge Handbook of Artificial Intelligence and Philanthropy** Giuseppe Ugazio, Milos
