From Maumee to Thames and Tiber Ernest Gottlieb Sihler, 1930 *Concordia Historical Institute Quarterly*
Concordia Historical Institute, 1928 **Addresses and Papers** Frank Pierrepont Graves, 1926 **Challenges of Mapping the Classical World** Richard J.A. Talbert, 2018-09-04 Challenges of Mapping the Classical World collects together in one volume fourteen varied items written by Richard Talbert over the past thirty years They cohere around the theme of mapping the classical world since the nineteenth century All were originally prompted by Talbert's commission in the late 1980s to produce a definitive classical atlas after more than a century of failed attempts by the Kiepert and others These he evaluates as well as probing the Smith Grove atlas a successful twenty year initiative launched in the mid 1850s with a cartographic approach that departs radically from established practice Talbert's initial vision for the international collaborative project that resulted in the Barrington Atlas of the Greek and Roman World 2000 is presented and the successive twice yearly reports on its progress from 1991 through to completion are published here for the first time A further item reflects retrospectively on the project's cartographic challenges and on how developments in digital map production were decisive in overcoming them This volume will be invaluable to anyone with an interest in the development and growing impact of mapping the classical world *Cicero in Heaven* Carl P.E. Springer, 2017-10-02 In *Cicero in Heaven* The Roman Rhetor and Luther's Reformation Carl Springer traces the historical outlines of Cicero's rhetorical legacy paying special attention to the momentous impact that he had on Luther his colleagues at the University of Wittenberg and later Lutherans While the revival of interest in Cicero's rhetoric is more often associated with the Renaissance than with the Reformation it would be a mistake to overlook the important role that Luther and other reformers played in securing Cicero's place in the curricula of schools in modern Europe and America Luther's attitude towards Cicero was complex and the final chapter of the book discusses negative reactions to Cicero in the Reformation and the centuries that followed **Soldier and Scholar** Basil Lanneau Gildersleeve, 1998 In assembling Gildersleeve's writings autobiographical Richmond Examiner newspaper editorials and Southern essays Briggs classics and humanities U of South Carolina brings to light the reflections of a U of Virginia classics scholar during the Civil War His classical rhetoric lends a novel twist to his loyalist but critical views on the South's Good Cause in chastising the Confederate administration as well as critics of slavery and Yankee poet sinners against the English language Includes a few bandw photos Annotation copyrighted by Book News Inc Portland OR **Wisdom's Workshop** James Axtell, 2023-03-07 An essential history of the modern research university When universities began in the Middle Ages Pope Gregory IX described them as wisdom's special workshop He could not have foreseen how far these institutions would travel and develop Tracing the eight hundred year evolution of the elite research university from its roots in medieval Europe to its remarkable incarnation today Wisdom's Workshop places this durable institution in sweeping historical perspective In particular James Axtell focuses on the ways that the best American universities took on Continental influences developing

into the finest expressions of the modern university and enviable models for kindred institutions worldwide Despite hand wringing reports to the contrary the venerable university continues to renew itself becoming ever more indispensable to society in the United States and beyond Born in Europe the university did not mature in America until the late nineteenth century Once its heirs proliferated from coast to coast their national role expanded greatly during World War II and the Cold War Axtell links the legacies of European universities and Tudor Stuart Oxbridge to nine colonial and hundreds of pre Civil War colleges and delves into how U S universities were shaped by Americans who studied in German universities and adapted their discoveries to domestic conditions and goals The graduate school the PhD and the research imperative became and remain the hallmarks of the American university system and higher education institutions around the globe A rich exploration of the historical lineage of today s research universities Wisdom s Workshop explains the reasons for their ascendancy in America and their continued international preeminence *Catalog of Copyright Entries. New Series* Library of Congress. Copyright Office,1932 *Catalogue* Warburg Institute. Library,1967 *Philology* James Turner,2015-09-15 A prehistory of today s humanities from ancient Greece to the early twentieth century Many today do not recognize the word but philology was for centuries nearly synonymous with humanistic intellectual life encompassing not only the study of Greek and Roman literature and the Bible but also all other studies of language and literature as well as history culture art and more In short philology was the queen of the human sciences How did it become little more than an archaic word In *Philology* the first history of Western humanistic learning as a connected whole ever published in English James Turner tells the fascinating forgotten story of how the study of languages and texts led to the modern humanities and the modern university The humanities today face a crisis of relevance if not of meaning and purpose Understanding their common origins and what they still share has never been more urgent **Subject Index of the Modern Works Added to the Library of the British Museum in the Years ...** ,1931 **Christian Faith and Life** ,1932 *Alumni Bulletin* Union Theological Seminary (New York, N.Y.),1929 *The Emergence of the American University* Laurence R. Veysey,2024-07-30 The American university of today is the product of a sudden mainly unplanned period of development at the close of the nineteenth and the beginning of the twentieth centuries At that time the university and with it a recognizably modern style of academic life emerged to eclipse the older religiously oriented college Precedents formal and informal were then set which have affected the soul of professor student and academic administrator ever since What did the men living in this formative period want the American university to become How did they differ in defining the ideal university And why did the institution acquire a form that only partially corresponded with these definitions These are the questions Mr Veysey seeks to answer *Bulletin of the New York Public Library* New York Public Library,1931 Includes its Report 1896 19 **Bible Student and Religious Outlook** ,1932 *Fort Wayne During the Canal Era 1828-1855* Charles R.
