Caponera, Marcella Nanni, 2019-05-03 This book which was first published in 1992 and then updated in 2007 provides a tool for dealing with the legal and institutional aspects of water resources management within national contexts and at the level of transboundary water resources Like its two previous editions it seeks to cover all aspects that need to be known in order to attain good water governance but it provides updates concerning developments since 2007 These relate inter alia to the following the greening of water law which calls for the progressive integration of environmental law principles into domestic and international water law the adoption by the International Law Commission in 2008 of the Draft Articles on the Law of Transboundary Aquifers and subsequent developments the emergence of the right to water as a self standing human right the adoption of domestic water laws supporting integrated water resources management IWRM and enhanced public participation in planning and decision making the integration into these laws of tools facilitating adaptive water management as a response to climate variability and change progress in the implementation of EU law recent international agreements and judicial decisions efforts of regional organizations other than the EU to steer cooperation in the management of transboundary water resources and the harmonization of national laws institutional mechanisms for the management of transboundary water resources surface and underground Unique in its scope and nature the book identifies the legal and institutional issues arising in connection with water resources management and provides guidelines for possible solutions in a manner accessible to a wide range of readers Thus it is a useful reference for lawyers and non lawyers engineers hydrologists hydrogeologists economists sociologists dealing with water resources within government institutions river basin commissions international organizations financing institutions and academic institutions among other things and also for students of disciplines related to water resources **Private International Law: The Soviet Approach** , 2024-12-02

Law Reform in Developing and Transitional States Timothy Lindsey, 2007 Law reform in developing countries has become an increasingly topical subject in recent years A critical issue is why so many law reform projects in developing economies are regarded by their sponsors and recipients as unsuccessful This informative book examines examples of law reform projects in post socialist and post authoritarian states in Asia identifies common problems proposes analytical frameworks for understanding the problems identified Though parallels between Asian models and those in developing states elsewhere in the world are strong the book has been developed to avoid suggestion that the issues covered are somehow peculiarly Asian indeed it is shown that cultural relativist approaches to Asia are unsustainable This is an invaluable reference for those involved in the areas of development economics Asian studies and comparative politics Soviet Law and Soviet Reality
