Practice and Policies of Modern Peace Support Operations under International Law Geert-Jan Knoops, Roberta Arnold, 2006-07-19 Confronted with the practical legal aspects of Peace Support Operations PSO in their daily work the two authors realized that there was an urgent need for the international community of military and civilian lawyers law enforcement agencies policy makers legal advisers and military commanders dealing with these types of missions to have a guidebook analyzing questioning and providing some

solutions to the practical legal aspects intrinsic in them and which are often known only to those who have been serving in the field. It was therefore decided to create a tool to record and diffuse the know how acquired by those who have been directly confronted with these issues in the field and at headquarters. Among the cutting edge topics practitioners explore in Peace Support Operations Their Legal Implications are human trafficking and illegal immigration in theatres of PSO such as the Balkans arrest and detention of suspects of serious breaches of the laws of war the relationship and role sharing of civilian law enforcement agencies and peacekeepers the use of non lethal and other weapons e.g. riot control agents criminal liability for breaches of international law and Rules Of Engagement Contributions of a more strategic nature deal further with the complexities of Status of Forces Agreements and Memoranda of Understanding the extraterritorial applicability of human rights obligations the application of the law of occupation to peacekeeping forces their new role and the relative problems in peace building. The main objective of this guidebook is to provide the basis for further discussion suggesting what should be done next and to constitute a problem solving tool for those deployed in the field often secluded from the external world and confronted with difficulties to be solved immediately under the pressure of time. The idea is to show them the path undertaken by others who have been confronted with similar problems and to share the knowledge and fight the power. and looks extensively at relevant rulings as enunciated by an Arab court of cassation He then constructs a model of an effective securities disclosure regime in order to provide better investor protection for shareholders under Shari a Among the strengths of Dr Lu ayy Minwer Al Rimawi s book is the fact that at all times he adopts a comparative approach not only as between different Arab systems but also with an appreciation of the legal position in the UK and the European Union and elsewhere The Hon Mr Justice Sir William Blair Q C High Court Judge in the UK and Chairman of the Qatar Financial Centre Regulatory Tribunal As the first in depth discussion of the regulation of Arab capital markets in English with an eye to international standards and the policy issues involved and with attention focused on the central question of how the law can properly protect investors this book will commend itself to all those with an interest in securities markets in the Arab world
