Creative Provocations: Speculations on the Future of Creativity, Technology & Learning Danah Henriksen, Punya Mishra, 2023-01-01 This book explores the complex yet critical relationship between technology and creativity specifically in educational contexts Creativity is important for success in today's rapidly changing radically contingent and hyperconnected world This is even more relevant in the context of teaching and learning where the psychological sociological and cultural aspects of human learning confront the challenges of a rapidly changing technologically saturated world Written by some of the foremost thinkers and researchers in the area of creativity and or technology the chapters in this volume examine the impact of recent and future technologies on creativity teaching and learning Individually and collectively they help us develop an understanding of this nexus of creativity and technology for education They offer new perspectives on this rapidly evolving future exploring issues paradoxes tensions and points of interest for creativity and technology They position these issues in ways that consider implications for thinking learning teaching and education in general *Special Bibliography Series*, 1957 International Encyclopedia of Higher Education, 1977 **Special Bibliography Series** United States Air Force Academy. Library, 1980 Science & Engineering Education for the 1980's & Beyond National Science Foundation (U.S.), 1980 *The Publishers' Trade List Annual*, 1881 **Global and Local Internationalization** Elspeth Jones, Robert Coelen, Jos Beelen, Hans de Wit, 2015-12-14 Offering a range of perspectives on internationalization in higher education from a globally dispersed group of authors this book reflects the many facets of the theme It reminds us that while internationalization is strongly connected to the globalization of society at the same time it is deeply embedded in local political economic and social structures systems and cultures The increasing attention given to internationalization by institutions all around the world is leading to diversification and broadening of practice This in turn deepens our understanding of what is needed to enhance the educational experiences of students and how the outcomes of internationalization contribute to the skills needed in a globalized and multicultural society Yet inevitably the impact is becoming more noticeable locally and the six sections of the book focus on these dimensions Internationalization in Local and Global Contexts Local and Global Drivers for Change Global and Local Dimensions of Curriculum Internationalization The Outcomes of Local and Global International Education Internationalization for Local and Global Employability Regional and National Cases of Local and Global Internationalization How can we define more precise learning outcomes that underpin learning and teaching How do we avoid the societal risks of internationalization and ensure that internationalization opportunities and benefits are shared equally How do we prevent brain drain and commercialization What are the values that underlie our actions These are just some of the questions that will occupy our minds locally and globally in the years to come and which this book seeks to highlight The Educational Turn Kathryn Coleman, Dina Uzhegova, Bella Blaher, Sophie Arkoudis, 2023-03-18 This open access book explores how educational researchers working at the edges of innovations in languages and literacies leadership assessment social and cultural transformation and pedagogies rethink the educational

turn in new sites It engages with the Scholarship of Teaching and Learning SoTL for educational researchers to redefine ways of knowing about learning post COVID and deepen collective understanding of student learning and teaching for next practices to emerge This book extends the theoretical and practical aspects of the educational turn across multiple contexts as SoTL It is grounded in a field of practice and ways of knowing outlining key intellectual principals and set against specific examples from research The chapters reference an understanding of the pedagogical implications of the educational turn utilise a broad range of theory and concepts and explore potential implications for education and next practices **ECEL 2018 17th European Conference on e-Learning** Klimis Ntalianis, Antonios Andreatos, Cleo Sgouropoulou, 2018-11-01 The European Conference on e Learning was established 17 years ago It has been held in France Portugal England The Netherlands Greece and Denmark to mention only a few of the countries who have hosted it ECEL is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars practitioners and individuals who are engaged in various aspects of e Learning Among other journals the Electronic Journal of e Learning publishes a special edition of the best papers presented at this conference **European Higher Education Area 2030: Bridging Realities for Tomorrow's Higher Education** Adrian Curaj, Cezar Mihai Hâj, Remus Pricopie, 2025-03-29 This open access book presents the major outcomes of the fifth edition of the Future of Higher Education Bologna Process Researchers Conference FOHE BPRC5 organized by the Executive Agency for Higher Education Research Development and Innovation Funding UEFISCDI prior to the 2024 Ministerial Conference in Tirana The Conference is considered a landmark in the European Higher Education Area encouraging dialogue between researchers and policy makers The resulting book provides a forward looking perspective on how the EHEA is evolving in response to current challenges and opportunities by focusing on topics such as internationalization equity and employability fundamental values impact of digitalization or innovative learning and teaching The papers presented offer insights in these areas illustrating successful or failed implementations within the EHEA and are published in open access format to ensure that the researchers perspectives are widely available to European policy and decision makers Since 2024 marks the first post pandemic edition of the Conference it is a good moment to not only to take stock of the challenges brought by the Covid 19 pandemic and the war in Ukraine but also to explore how scientific research can support policy into shaping the directions for the future to come *Framing Futures in Postdigital Education* Anders Buch, Ylva Lindberg, Teresa Cerratto Pargman, 2024-07-09 This book unpacks key concepts and methods relevant for a critical and reflective framing of futures in postdigital education The compiled chapters explore concepts and methods that have pertinence for contemporary debates about the emergence of data driven education and scrutinize implicit or explicit ethical and normative implications The book provides in depth critical reflections and perspectives to engage and analyze data driven education as an educational and cultural phenomenon It focuses on the value laden and ethical aspects reflected in educational imaginaries discourses and practices regarding emerging data driven

sociotechnical practices in education The book is the result of scholarly exchanges between disciplines at a symposium held at VIA University College in Denmark in May 2022 A History of Higher Education Exchange Teresa Brawner

Bevis,2013-10-01 Weakened by two Opium Wars and a succession of internal rebellions in the mid 1800s China's imperial leaders made a historic decision to break a tradition of isolation and seek education outside the homeland's borders In time an acquisition of science and technology from the rapidly industrializing West would enable China to modernize its still feudal economy and outdated military thus restoring stability and establishing protection from future foreign encroachment Today more than 200 000 Chinese are enrolled in colleges and universities across the United States while the number of Americans choosing to study in China is rising As we approach mid century China is assuming a lofty position of world leadership This book does not attempt to debate or determine the extent to which higher education exchange with the United States has impacted China's rise Instead it focuses on the story itself of Sino American education trade from its roots in antiquity to the present time highlighting the people programs trials and triumphs that have wrought its extraordinary history It will offer the first sequential historically grounded book length review of Sino American education exchange that takes the story from its origins to the present day **Higher Education for Good** Laura Czerniewicz, Catherine

Cronin,2023-10-25 After decades of turbulence and acute crises in recent years how can we build a better future for Higher Education Thoughtfully edited by Laura Czerniewicz and Catherine Cronin this rich and diverse collection by academics and professionals from across 17 countries and many disciplines offers a variety of answers to this question It addresses the need to set new values for universities trapped today in narratives dominated by financial incentives and performance indicators and examines those wicked problems which need multiple solutions resolutions experiments and imaginaries This mix of new and well established voices provides hopeful new ways of thinking about Higher Education across a range of contexts and how to concretise initiatives to deal with local and global challenges In an unusual and refreshing way the contributors provide insights about resilience tactics and collective actions across different levels of higher education using an array of styles and formats including essays poetry and speculative fiction With its interdisciplinary appeal this book presents itself as a provocative and inspiring resource for universities students and scholars Higher Education for Good courageously offers critique hope and purpose for the practice and the trajectory of Higher Education *Future of Higher Education* Gary A.

Olson,John W. Presley,2015-12-03 Written by leading education experts and by university presidents provosts and other leaders nationally recognized for their innovations the 22 original and provocative chapters in this new book comprise a wide ranging examination of the many challenges faced in fashioning the university of tomorrow Authors offer their research predictions concerns and advice on topics ranging from university finances student access changing technologies and the philosophical underpinnings of college education They address the multiple challenges facing higher education today offering ideas and solutions Contributors include Warren Arbogast Gretchen Bataille Lee Benson Rita Bornstein Sally Clausen Reed
