**The Future of Ethnicity, Race, and Nationality** Walter L. Wallace, 1997-09-30 This broad visioned and insightful book examines the march toward global consolidation of our many ethnic racial and nationality groups About 100 000 years ago the dispersion of what was then a homogenous human population from its point of origin in Eastern Africa began This was slowly followed by the emergence of ethnic and racial differences among the then separated human populations The Agricultural Revolution 10 000 years ago began the long process of re establishing contact and eventually consolidating the human species once again but this time globally Wallace contends that consolidation will contribute greatly to the survival of humankind by reducing the deadly threats humans pose to each other He also argues that ethnic racial and nationality consolidation does not imply cultural homogeneity diversity based on interest vocation and other factors will serve as even more fertile replacements The book is expertly researched *Demography of Indonesia's Ethnicity* Aris Ananta, 2016-04-29 Indonesia the largest country in Southeast Asia has as its national motto e Unity in Diversity e In 2010 Indonesia stood as the world s fourth most populous country after China India and the United States with 237 6 million people This archipelagic country contributed 3 5 per cent to the world s population in the same year The country s demographic and political transitions have resulted in an emerging need to better understand the ethnic composition of Indonesia This book aims to contribute to that need It is a demographic study on ethnicity mostly relying on the tabulation provided by the BPS Badan Pusat Statistik Statistics Indonesia based on the complete data set of the 2010 population census The information on ethnicity was collected for 236 728 379 individuals a huge data set The book has four objectives To produce a new comprehensive classification of ethnic groups to better capture the rich diversity of ethnicity in Indonesia to report on the ethnic composition in Indonesia and in each of the thirty three provinces using the new classification to evaluate the dynamics of the fifteen largest ethnic groups in Indonesia during 2000 2010 and to examine the religions and languages of each of the fifteen largest ethnic groups **De Gruyter Handbook of Sociology of Innovation and Entrepreneurship** Olav Sorenson, Patricia H. **The Oxford Handbook of American Immigration and Ethnicity** Ronald H. Bayor, 2016-06-01 Scholarship on immigration to America is a coin with two sides it asks both how America changed immigrants and how they changed America Were the immigrants uprooted from their ancestral homes leaving everything behind or were they transplanted bringing many aspects of their culture with them Although historians agree with the transplantation concept the notion of the melting pot which suggests a complete loss of the immigrant culture persists in the public mind The Oxford Handbook of American Immigration and Ethnicity bridges this gap and offers a comprehensive and nuanced survey of American racial and ethnic development assessing the current status of historical research and simultaneously setting the goals for future investigation Early immigration historians focused on the European migration model and the ethnic appeal of politicians such as Fiorello La Guardia and James Michael Curley in cities with strong ethno political histories like New York and Boston But the story of American ethnicity goes far beyond Ellis Island Only after the 1965 Immigration Act and the increasing influx of non Caucasian immigrants scholars turned more fully to the study of African Asian and Latino migrants to America This Handbook brings together thirty eminent scholars to describe the themes methodologies and trends that characterize the history and current debates on American immigration The Handbook's trenchant chapters provide compelling analyses of cutting edge issues including identity whiteness borders and undocumented migration immigration legislation intermarriage assimilation bilingualism new American religions ethnicity related crime and pan ethnic trends They also explore the myth of model minorities and the contemporary resurgence of anti immigrant feelings A unique contribution to the field of immigration studies this volume considers the full racial and ethnic unfolding of the United States in its historical context

[Creating the New Right Ethnic in 1970s America](#) Richard Moss,2017-03-15 This work analyzes the New Ethnicity of the 1970s as a way of understanding America s political turn to the right in that decade An upsurge of vocal ethnic consciousness among second third and fourth generation Southern and Eastern Europeans the New Ethnicity simultaneously challenged and emulated earlier identity movements such as Black Power The movement was more complex than the historical memory of racist reactionary white ethnic leaders suggests The movement began with a significant grassroots effort to gain more social welfare assistance for near poor white ethnic neighborhoods and ease tensions between the working class African Americans and whites who lived in close proximity to one another in urban neighborhoods At the same time a more militant strain of white ethnicity was created by urban leaders who sought conflict with minorities and liberals The reassertion of ethnicity necessarily involved

the invention of myths symbols and traditions and this process actually served to retard the progressive strain of New Ethnicity and strengthen the position of reactionary leaders and New Right politicians who hoped to encourage racial discord and dismantle social welfare programs Public intellectuals created a mythical white ethnic who shunned welfare valued the family and provided an antidote to liberal elitism and neighborhood breakdown Corporations and publishers embraced this invented ethnic identity and codified it through consumption Finally politicians appropriated the rhetoric of the New Ethnicity while ignoring its demands The image of hard working self sufficient ethnics who took care of their own neighborhood problems became powerful currency in their effort to create racial division and dismantle New Deal and Great Society protections
