What future forces will affect a leader's ability to lead in the next year, 5 years, 10 years? *12 Senior Executives Must Reads*. Mostafa Sayyadi, 2022-12-19. There are various issues and considerations existing in the leadership literature as the core of the criticism in the literature is that

corporations government agencies and non profit organizations tend to be over managed and in some cases over administrated Reading all the books on leadership today will cover the gamut of Shakespeare to Geronimo Not to say that these authors leaders and thinkers do not have anything good to say about leadership It is just that the plethora of leadership literature has sent mixed signals to political and corporate leaders When thinking of leadership and politics a leader has to be a politician but a politician does not always have to be a leader In American politics in 2016 a crucial year between the democratic and republican parties this presidential election has shown that there is a direct connection between politics and CEOs who at least think they are experienced enough to hold the ultimate leadership position Political leaders are not any different than organizational businessmen More and more businessmen and women are becoming political candidates and people are responding positively The reason is the two do go together At the heart of leadership are a large number of followers Without the support of followers leaders will fail The same thing goes with the political candidate that has to win the hearts and minds of the followers to get elected There are many more followers than there are leaders and this is more so in the political realm The question is Can political leaders and corporate leaders lead the same way The answer is a resounding Yes For example Eisenhower one of the former presidents of the United States in World War II effectively led both the American government and the Allied Forces in Europe in defeating Adolf Hitler Hitler has been posited as a charismatic leader as he converted many brilliant people to follow him but the difference with his leadership style is that he represents the Black Hat of leadership A leadership status that is not only a failing platform but one that represents destruction as opposed to innovation and expansion Barring the Hitler type charismatic leaders there is hope for leadership at the political level Eisenhower s leadership provides lessons for CEOs in today s organizational challenges Eisenhower argued that leaders must care for their people as individuals always remain optimistic place themselves with and for the people and most importantly provide the WHY behind what they ask them to do The purpose of this book is to answer the question How can leaders lead better
