**Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards**, 2001 Theses on any subject submitted by the academic libraries in the UK and Ireland Peace Research Abstracts Journal, 2002 *Economics of Ecological Resources* Charles Perrings, 1997 *Economics of Ecological Resources* presents new or recently published work on ecological economics sustainability poverty resource degradation and decision making under uncertainty The book explores the allocation of resources in jointly determined ecological economic systems An introductory chapter examines the work of other major contributors to the field of ecological economics and introduces Professor Perrings's work and the material in this volume The first of three parts is concerned with the dynamics of joint systems and with the implications for the control and conservation of ecological resources The second part focuses on the conditioning effect of the economic environment on private decisions in low income resource dependent economies The final part considers the way that decision makers handle the uncertainty that is an integral feature of the evolution of the ecological economic system *Economics of Ecological Resources* will be of interest to academics researchers and students of ecological and environmental economics Ecological Economics Charles Perrings, R. Kerry Turner, Carl Folke, 1995 Economy and Environment Charles Perrings, 1987

*Environmental and Resource Economics* Anthony C. Fisher, 1995 This important volume features essays dealing with a wide range of theoretical measurement and policy issues in environmental and resource economics Anthony Fisher is an internationally acclaimed environmental economist whose work combines relevance with intellectual rigour The integration of environmental considerations into decisions about extractive resource has been a central theme of Professor Fisher's work The essays in this collection range from exercises in the pure theory of resource depletion to applications of theoretical and empirical techniques on the management of energy and water resources Particular attention is given to uncertainty about environmental values and the irreversibility of certain kinds of resource depletion Featuring work on a wide range of topics and adopting a breadth of approaches *Environmental and Resource Economics* will be welcomed by researchers practitioners and policymakers Nature, Economy and Society Nilanjan Ghosh, Pranab Mukhopadhyay, Amita Shah, Manoj

Panda, 2015-09-01 This book presents an enquiry into the interface between nature economy and society which is still in its early stages notwithstanding the commendable progress and advances made in the field of environmental and natural resource economics within the ever expanding boundaries of economics as a discipline It further delineates the evolution of an inter disciplinary framework for analyzing the status the future goals mechanisms and policy instruments that can help move towards a more ecologically sustainable economically beneficial and socially just future A pre requisite for preparing a comprehensive and coherent framework involves unfolding the multiple layers of interconnectedness between the three systems nature economy and society each of which has its own internal consistencies as well as externalities Against this

backdrop the book presents scholarly contributions that focus on four broadly defined building blocks namely i accounting for ecosystems services for life and human well being ii impacts of economic growth on ecosystems iii social norms equity and governance and iv alternative approaches to green and socio economic systems The analyses presented by some of the most eminent national and international scholars address the major environmental challenges that nations around the world face today and consider which specific policy directions at the international and national level are needed In particular the choices India and South Asia now face as development and environment both need to be addressed adequately touch on many of these challenges

**The Economics of Environment and Development** Edward Barbier,1998 This is a selection of the author s most influential papers on the role of environmental economics in economic development Each paper is placed in its original context and then related to the development of Barbier s ideas Land degradation and trade and the environment are covered
