Economic And Social Development Into The Xxi Century:

Economic and Social Development Into the XXI Century Louis Emmerij, 1997 What new directions will development take in the next century A distinguished group of experts on economic development debated this guestion in late 1996 Their views of the emerging development consensus are presented in Economic and Social Development into the XXI Century The authors give special attention to developing countries in Latin America and East Asia Analyzing the growth of certain East Asian economies they ask what can be emulated state engineered industrial policies an export push better initial income distribution fiscal incentives to promote corporate growth the region's successful land reform efforts or the commitment to better education While agreeing that equity is a major determinant of economic success they differ regarding how to achieve Can Africa Claim the 21st Century? Alan H. Gelb, 2000-01-01 Africa in the 21st Century offers a comprehensive review of development prospects in each of the major development sectors The Palgrave Handbook of Development Economics Machiko Nissanke, José Antonio Ocampo, 2019-08-12 This Handbook responds to the needs and aspirations of current and future generations of development economists by providing critical reference material alongside or in relation to mainstream propositions Despite the potential of globalisation in accelerating growth and development in low and middle income countries through the spread of technology knowledge and information its current practice in many parts of the world has led to processes that are socially economically and politically and ecologically unsustainable It is critical for development economists to engage with the pivotal question of how to change the nature and course of globalisation to make it work for inclusive and sustainable development Applying a critical and pluralistic approach the chapters in this Handbook examine economics of development paths under globalisation focusing on sustainable development in social environmental institutional and political economy dimensions It aims at advancing the frontier of development economics in these key aspects and generating more refined policy perspectives It is critically reflective in examining effects of globalisation on development paths to date and in terms of methodological and analytical approaches as well as forward thinking in policy perspectives with a view to laying a foundation for sustainable development Making 21st Century Knowledge Complexes Julie Miao, Paul Benneworth, Nicholas A. Phelps, 2015-05-15 The world has changed profoundly since the publication of the influential book Technopoles of the World As policy makers and practitioners attempt to harness science technology and innovation to create dynamic and vibrant cities many wonder how relevant Manuel Castells and Peter Hall's messages are today Twenty years later this book returns to their concepts and practices to update their message for the 21st century Making 21st Century Knowledge Complexes Technopoles of the World Revisited argues that the contemporary technopole concept encompasses three new dimensions Firstly building synergy between partners is vital for the success of complexes Secondly the correct governance arrangements are critical to balance competing interests inevitable in any science city project Thirdly new evaluation mechanisms are indispensable in allowing policy makers to steer their long term benefits

Through twelve case study chapters and a detailed comparative analysis this book provides academics policy makers and practitioners with critical insights in understanding managing and promoting today s high technology urban complexes

The Institutional Foundations of the Digital Economy in the 21st Century Elena G. Popkova, Artem Krivtsov, Aleksei V. Bogoviz, 2021-02-08 The development of the Digital Economy has been a landmark breakthrough for economic systems in the 21st century as it opens up opportunities for the full scale implementation of new digital technologies and the optimization of economic activities While the conceptual essence and specific features of the digital economy are described in detail in the existing literature the practical foundations of its formation are poorly studied In this book the digital economy is studied from the perspective of neo institutional economic theory. This allows for the tracking of the process of formation institutionalization of the digital economy determining the basic institutions that are necessary for its formation and that exist in modern economic practice and analyzing scenarios for the future development of the digital economy in the 21st Innovation Policies for the 21st Century National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Comparative Innovation Policy: Best Practice for the 21st Century, 2007-07-28 To mark the opening of a study of Comparative Innovation Policy Best Practice for the 21st Century the Board on Science Technology and Economic Policy STEP convened a symposium providing an overview of areas to be examined in the study and topics requiring further policy attention.
