Evaluation of Commercial Banks Debaprosanna Nandy, 2010-07-29 The Committee on Financial System CFS popularly known as Narasimham Committee was set up in 1991 to make recommendations for bringing about the necessary reforms in the financial sector Narasimham Committee appraised and acknowledged the success and progress of Indian banks since the major banks were nationalized on 19 July 1969 Unfortunately the developments were witnessed only in the field of expansion and spread of bank branches generation of huge employment and mobilization of savings rather than also in improvement in efficiency Besides corruption fraud misutilization in public money outdated technology and politicization in policy making were found to be major drawbacks in the real progress of the banks As the banking sector plays an important and crucial role in the economy of a country for its stabilization and balanced growth major reforms were urgently needed after 22 years of nationalization to revive Indian banks This was not only in the field of profitability but also in the overall efficiency viz better management of non performing assets NPAs satisfying capital requirements increased cost effectiveness and control enhanced customer service improved technology establishing competitive interest rate effective man power planning introduction of asset liability management better productivity launching new products and becoming more competent to face the upcoming challenges and competition from foreign as well as private sector banks in the era of globalization and liberalization The objectives of the study are to examine the need and relevance of reforms in Indian banks to assess the efficiency and profitability of Indian banks during reforms from different perspectives to discuss various issues of NPA management in the light of reforms to measure the performance of the banks of West Bengal during the reforms to analyse the role of information technology and its relevancy in Indian banks in the era of reforms and to impart necessary suggestions for the improvement of the efficiency and profitability of Indian banks Structural Adjustment, Global Trade, and the New Political Economy of Development Biplab Dasgupta, 1998 The changes in the global economy are so profound this book argues that the world is now confronted with nothing less in both institutional and policy terms than a new political economy of development The author provides an intellectually commanding survey of this new terrain He subjects its economic and ideological assumptions to trenchant critique and shows how the rules of the game primarily reflect the interests of the rich and powerful countries of the North He also surveys the economic performance of the various regions of the South and explores the real reasons for the success of certain Asian economies reasons which run counter to so many of

the policy prescriptions laid down by the West for the rest of the South *Industrial Technology Development in Malaysia*
Greg Felker, K. S. Jomo, Rajah Rasiah, 2013-02-01 This book and its companion *Technology Competitiveness and the State*

development The focus is on the development of Malaysia's technological industrial base from a sector and firm specific

economic liberalisation in the early nineties India's industrial sector has been called upon to perform a crucial developmental
role for the continued success of the on going structural adjustment programme This book examines Indian industry's
response to and strategy for coping with the far reaching economic reforms and changes in industrial policy It discusses how
industry has braced itself to face the challenges of both domestic and external competition Beginning with an historical
overview of structural reforms Dr Palande describes the strategies adopted by Indian enterprises in the new environment
The author also devotes separate chapters to discuss the implications of these changes for the public sector and the
imperatives for government action including the need to further dismantle growth retarding restrictions on industry The
book concludes with a discussion on how the momentum of growth which seems to have slowed down can be regained and
how the gains so far made can be consolidated by further reforms **Economic and Political Weekly**, 1999
