Economic Futures On The North Atlantic Margin:

Economic Futures on the North Atlantic Margin Reginald Byron, 1995 This are the proceedings of the 12th seminar of marginal regions They attempt to look into the future and to assess the probable consequences of economic development s being implemented by four countries neighbouring on the North Atlantic Britain Ireland Norway and Canada The hinterlands of these countries sparsely populated and heavily dependent on primary production fishing farming forestry and mineral extraction are threatened with the loss of their capacity to maintain their populations sparse as they are already as heavy industries retrench agricultural subsidies are scaled down fishing grounds are depleted and the end of the Cold War brings about the closure of military installations in remote areas

Sustainable Development of the North Atlantic Margin

Reginald Byron, James Walsh, Proinnsias Breathnach, 2019-01-22 First published in 1997 this timely collection of papers takes an interdisciplinary approach to examining sustainable development in a wide range of countries such as Ireland Norway and Wales on the North Atlantic Margin It features specialists in geography social anthropology tourism sociology regional studies business municipality studies health policy and the rural economy The contributors argue that a free marketplace and natural resource sustainability are not always incompatible for green policies to be successful

Revival: Community Development on the North Atlantic Margin (2001) John Hutson, Reginald Byron, 2017-07-12 This title was first published in 2001 Isolated communities dependent upon fishing farming and forestry which are scattered around the North Atlantic coast have shared a disastrous decline during the last decade These communities are in the peripheries of advanced industrial nation states such as Canada and supra national alliances such as the European Community yet despite this there are no easy solutions to the development of these regions This volume argues that the productive assets of these regions and how they can be used to sustain household incomes need to be better understood The assets need to be converted into products and services and they need to be marketed profitably The diminishing flow of young people who leave these areas to obtain higher education and who do not return must be turned around and efforts must be concentrated on the creation or strengthening of economic conditions which satisfy the younger generation s employment aspirations consumer requirements and social needs

Local Enterprise on the North Atlantic Margin Reginald Byron, John Hutson, 2018-12-18 First published in 1999 this volume offers contrasting views from a variety of academic disciplines including agriculture anthropology economics geography management studies planning and sociology which focus on the single two fold problem of how to understand these issues and what practically might be done about them

Regulation and Compliance in the Atlantic Fisheries

Stig S. Gezelius, 2012-12-06 This is a book about fishermen s reasons for obeying fisheries law The fish harvesting industry has become subject to state interference to an increasing extent over the past twenty years As natural resources become scarce and subsequent fisheries regulations abound the question of law abidingness is brought to the public agenda However there is still little empirical data as regards the dynamics of compliance in this field and this book aims to meet a demand for

in depth knowledge The cases studied can be regarded as instances of economies dependent on the harvesting of natural resources for both household and the market and the study aims to contribute to the building of more adequate theory on the dynamics of compliance in such economies However focusing on a specific type of setting seldom constitutes a safe escape route for getting away from more pervasive sociological questions and it certainly does not in this case As any attempt to explain social phenomena this study is faced with the fundamental sociological question of how the acts of individuals can best be understood The question concerns the interface between the individual and the collectivity between collective morality and self interest It thus deals with classical sociological issues such as the nature and regulatory capacity of group norms and sanctions and the forms and roles of rationality and strategic action

Social Sustainability of Forestry in Northern Europe Marjatta Hytönen, 2001 S 113 404 Papers presented at the workshop Socio economic sustainability of forestry in Petrozavodsk Russia June 2000 The Institutional Dynamics of Culture, Volumes I and II Perri Six, 2018-12-20

These two volumes present the most important recent developments in the institutional theory of culture and demonstrate their practical applications Sometimes called grid group analysis or cultural theory they derive from the work of Durkheim in the 1880s and 1900s and develop the insights of the anthropologist Mary Douglas and her followers from the 1960s on First redefined within social and cultural anthropology the theory's influence is shown in recent years to have permeated all the main disciplines of social science with substantial implications for politics history business work and organizations the environment technology and risk and crime and consumption Today the institutional theory of culture now rivals the rational choice Weberian and postmodern outlooks in influence across the social sciences

Land and Limits Richard Cowell, Susan Owens, 2005-07-05 In a new and critical analysis this book explores the impact of an influential idea sustainable development on the institutions and practices governing use of land It examines the paradox that in spite of increasing attention to sustainability land use conflict is as ubiquitous and intense as ever

Handbook of Social Capital Gert Tinggaard Svendsen, Gunnar Lind Haase Svendsen, 2009 Given the current global economic crisis that has its root causes in the psychology of the marketplace every bit as much as any other factor the Handbook of Social Capital is timely insightful informed informative thoughtful and thought provoking reading A compilation of impressive and extensive scholarship the Handbook of Social Capital is strongly recommended for academic and professional library reference collections Library Bookwatch Midwest Book Review The Handbook of Social Capital offers an important contribution to the study of bonding and bridging social capital networks balancing the troika of sociology political science and economics Eminent contributors including Nobel Prize winner Elinor Ostrom explore the different scientific approaches required if international research is to embrace both the bright and the more shadowy aspects of social capital The Handbook stresses the importance of trust for economies all over the world and contains a strong advocacy for cross disciplinary work within the social sciences Social capital is becoming one of the most important and hotly discussed topics of today This inter disciplinary Handbook intends to

serve as a bridge for students and scholars across the social sciences Regional Planning and Development in Europe David Shaw, Peter Roberts, 2017-11-30 This title was first published in 2000 Providing a review and assessment of a number of the major features evident in regional planning and development in Europe this volume contains a series of regional case studies drawn from current research in various European countries These illustrate a broad range of theoretical views which offer perspectives on the operation of the EU Structural Funds and regional restructuring development and key concerns evident in spatial planning an environmental management and lessons from past experience The editors collate views to arrive at challenging conclusions and suggestions for future policy priorities *A Companion to Organizational Anthropology* D.
