Simone Weil Maria Clara Bingemer, 2015-08-31 The present book reflects on the life work and legacy of an exceptional and enigmatic woman the philosopher and French Jewish mystic Simone Weil It constitutes a testimony so unique that it is impossible to ignore In a Europe where authoritarian regimes were dominant and heading in a sinister manner toward World War II this woman of fragile health but indomitable spirit denounced the contradictions of the capitalist system the brutality of Nazism and the paradox of bourgeois thought At the same time her spiritual journey was one of zeal and sorrow that of a true mystic but her radical intransigence and passion for freedom kept her from actually approaching the institutional church Curious and insatiable she wanted to experience in the flesh the suffering of society's least fortunate and the truths of other religions The reader will need to develop a discerning empathy for Simone Weil's sensibility beyond her particular passion and zeal in order to appreciate her in depth But undeniable are this truly singular woman's authenticity her capacity to suffer her identification with the other her inner passion her almost magical perception of the depths of the human spirit And that is why her story merits being told as one of the great witnesses of our age

Art and Time Derek Allan, 2014-09-18 A well known feature of great works of art is

their power to live on long after the moment of their creation to remain vital and alive long after the culture in which they were born has passed into history This power to transcend time is common to works as various as the plays of Shakespeare the Victory of Samothrace and many works from early cultures such as Egypt and Buddhist India which we often encounter today in major art museums What is the nature of this power and how does it operate The Renaissance decided that works of art are timeless immortal immune from historical change and this idea has exerted a profound influence on Western thought But do we still believe it Does it match our experience of art today which includes so many works from the past that spent long periods in oblivion and have clearly not been immune from historical change This book examines the seemingly miraculous power of art to transcend time an issue widely neglected in contemporary aesthetics Tracing the history of the question from the Renaissance onwards and discussing thinkers as various as David Hume Hegel Marx Walter Benjamin Sartre and Theodor Adorno the book argues that art transcends time through a process of metamorphosis a thesis first developed by the French art theorist Andr Malraux The implications of this idea pose major challenges for traditional thinking about the nature of art

Cinema of Anxiety Vincent F. Rocchio, 2010-07-22 The new realism of Italian cinema after World War II represented and in many ways attempted to contain the turmoil of a society struggling to rid itself of Fascism while fighting off the threat of radical egalitarianism at the same time In this boldly revisionist book Vincent F Rocchio combines Lacanian psychoanalysis with narratology and Marxist critical theory to examine the previously neglected relationship between Neorealist films and the historical spectators they address Rocchio builds his analysis around case studies of the films Rome Open City Bicycle Thieves La Terra Trema Bitter Rice and Senso Through the lens of psychoanalysis he challenges the traditional understanding of Neorealism as a progressive cinema and instead reveals the anxieties it encodes a society in political turmoil an economic system in collapse and a national cinema in ruins while war occupation collaboration and retaliation remain a part of everyday life These case studies demonstrate how Lacanian psychoanalysis can play a key role in analyzing the structure of cinematic discourse and its strategies of containment As one of the first books outside of feminist film theory to bring the ideas of Lacan to theories of cinema this book offers innovative methods that reinvigorate film analysis Clear and detailed insights into both Italian culture and the films under investigation will make this engaging reading for anyone interested in film and cultural studies

Pascal and Theology Jan Miel, 1969 Originally published in 1970 The question of man's freedom to exercise his will as active an issue among twentieth century philosophers and theologians as it was in the Jesuit and Jansenist camps known to Pascal is basic to this study Pascal's theological thinking which Professor Miel demonstrates to be the source of unity and coherence in virtually all phases of his thought is preoccupied by a concern for man's limitations In his analysis of Pascal's theology Miel is concerned not only with characterizing Pascal's theological position but also with evaluating it in terms of the history of the church In a concise and lucid review of the Christian doctrine of grace from the pre

Augustinians through the Renaissance the author identifies the intellectual theological atmosphere that created the need for Pascal's strong defense of Augustinian theology Miel considers Pascal's *crits sur la gr ce* *Lettres provinciales* and *Pens es* as well as shorter compositions and correspondence He establishes the content of Pascal's vision of grace and free will noting both its originality and its sense of history Most importantly he asserts that Pascal's affirmation of Jansenism predated his association with Port Royal and indeed was basic to all his adult thought and work The author finds in the writings of Pascal a style that anticipates twentieth century theology a sophistication that belies charges of Pascal's theological na vet and a concern to uphold rather than to undermine doctrinal traditions of the church **Textual Practice** Terence

Sheldon Brivic,1991 How does perception operate in James Joyce's fiction This question is addressed from a unique perspective in *The Veil of Signs* Sheldon Brivic uses the theories of Jacques Lacan to create a radically new concept of the mechanics of mental life in the novels including *Ulysses* and *Finnegans Wake* This is the first book to make use of Lacan's writings and seminars on Joyce **Feminine Sexuality** Jacques Lacan,1985 Jacques Lacan is arguably the most controversial psychoanalyst of our time **The Interpretation of the Flesh** Teresa Brennan,2002-09-11 The riddle of femininity like Freud's reference to women's sexuality as a dark continent has been treated as a romantic aside or a sexist evasion rather than a problem to be solved In this first comprehensive study Teresa Brennan suggests that by placing these theories in the context of Freud's work overall we will begin to understand why femininity was such a riddle for Freud **Giacometti: Critical Essays** Peter Read,2017-07-05 *Giacometti Critical Essays* brings together new studies by an international team of scholars who together explore the whole span of Alberto Giacometti's work and career from the 1920s to the 1960s During this complex period in France's intellectual history Giacometti's work underwent a series of remarkable stylistic shifts while he forged close affiliations with an equally remarkable set of contemporary writers and thinkers This book throws new light on

under researched aspects of his output and approach including his relationship to his own studio his work in the decorative arts his tomb sculptures and his use of the pedestal It also focuses on crucial ways his work was received and articulated by contemporary and later writers including Michel Leiris Francis Ponge Isaku Yanaihara and Tahar Ben Jelloun This book thus engages with energising tensions and debates that informed Giacometti s work including his association with both surrealism and existentialism his production of both high art and decorative objects and his concern with both formal issues such as scale and material and with the expression of philosophical and poetic ideas This multifaceted collection of essays confirms Giacometti s status as one of the most fascinating artists of the twentieth century **The Expansion of England** Bill
