Judith Marcus, Zoltan Tarr

Georg Lukacs The Man His Work His Idea:

Georg Lukács: the Man, His Work and His Ideas George Henry Radcliffe Parkinson, 1970 **Georg Lukács** Judith Marcus, Zoltán Tarr, 1989-01-01 The Hungarian social philosopher and literary critic Georg Lukcs 1885 1971 is one of the seminal intellectual figures of the twentieth century With the possible exception of Leon Trotsky he is also widely recognized as the outstanding Marxist thinker aside from Marx himself Yet as Lewis Coser has observed Lukcs has remained the most enigmatic figure of the modern communist movement Why were his theories so important to modern political and social thought How did he come to have such influence on so many distinguished Western Intellectuals and for such a long time And why despite this did so many of his writings infuriate contemporary readers and critics The centenary of Lukcs birth was celebrated in 1985 with symposia in a number of countries on several continents Hundreds of Lukcs scholars and students attended along with others who were interested in his time and his ideas as well as the man and his work In the process new understanding of some of his most controversial concepts ideas and theses emerged Newly discovered information and writings as well as previously unknown preoccupations in his seventy year intellectual career were shared This volume brings together some of the best and most original of the essays of participants in New York Paris Budapest and Mexico City Some of the contributions in this volume are sharply critical of Lukcs others are clearly admiring A great many take an objective but severe look at diverse aspects of his work Together they constitute a close examination of the life work of the man Thomas Mann once called The most important literary critic of today Jean Paul Sartre hailed as a significant modern philosopher and Irving Howe declared a major force in European intellectual life Collectively this volume shows why Georg Lukcs remains one of the remarkable intellectual figures of the twentieth century whose work is of enduring significance for us today Judith Marcus is on the faculty of Kenyon College She is the author of Thomas Mann and Lukcs Zoltán Tarr was visiting Fulbright Scholar to Budapest Hungary and has taught sociology and history at the City College of CUNY New School for Social Research and Rutgers University He is author of The Frankfurt School The Critical Theories of Max Horkheimer and Theodor W Adorno **Georg Lukács** G.H.R. Parkinson, 2023-02-24 First published in 1977 Georg Lukcs gives an outline of Lukcs views and explains how they are related to the relevant cultural traditions of his epoch The author covers the whole range of Lukcs thought from his earliest literary criticism to the posthumous Ontology of Social Existence Lukcs early writings in particular are frequently obscure in style and impregnated with the language and thought of Hegel Professor Parkinson has elucidated Lukcs principal writings in systematic fashion and the book includes a detailed exposition of Lukcs influential but difficult book History and Class Consciousness This should be an indispensable book for all those who seek a clear comprehensible introduction to the writings of one of the most influential Marxist thinkers of our time **Georg Lukacs Reconsidered** Michael J. Thompson, 2011-02-03 Georg Lukcs stands as a towering figure in the areas of critical theory literary criticism aesthetics ethical theory and the philosophy of Marxism and German Idealism Yet

despite his influence throughout the twentieth century his contributions to the humanities and theoretical social sciences are marked by neglect What has been lost is a crucial thinker in the tradition of critical theory but also by extension a crucial set of ideas that can be used to shed new light on the major problems of contemporary society This book reconsiders Lukács' intellectual contributions in the light of recent intellectual developments in political theory aesthetics ethical theory and social and cultural theory An international team of contributors contend that Lukács' ideas and theoretical contributions have much to offer the theoretical paucity of the present Ultimately the book reintegrates Lukács as a central thinker not only in the tradition of critical theory but also as a major theorist and critic of modernity of capitalism and of new trends in political theory cultural criticism and legal theory

The A to Z of Marxism David Walker, Daniel Gray, 2009-08-13 Marxism one of the few philosophies that turned into an effective movement not so long ago was the official ideology in one form or another of much of humanity It was promulgated initially by the Soviet Union then imposed on much of Central and Eastern Europe later emerged in the People's Republic of China and gradually spread to other parts of Asia and even bits of Africa and Latin America Although declining in its initial popularity it still remains strong in several countries and is supported by numerous communist and other parties and countless individuals around the world The A to Z of Marxism covers the history of Marxism and all its thinkers and schools of thought in a comprehensive manner This is done through a chronology an introductory essay a bibliography and hundreds of cross reference dictionary entries on basic terms and concepts significant thinkers and doers and also the parties and countries that followed it

Materializing Queer Desire Elisa Glick, 2010-03-30 How did the queer subject come to occupy such a central and in many respects contradictory place in the modern world of the early twentieth century What role has capitalism played in the development of modern gay and lesbian identities Materializing Queer Desire focuses on the figure of the dandy to explore

how and why gay and lesbian subjects became heroes of modern life Elisa Glick argues that the gay subject emerged out of the specifically modern capitalist contradiction between the public world of production and industry and the private world of consumption and pleasure Boldly bringing modernism into dialogue with Marxist and queer theory Glick offers an innovative materialist account of modern queer consciousness that challenges tendencies to oppose private eroticism and the systems of value that govern public interests In the process she illuminates the connections between aesthetic sexual and social formations in modern life between modernity's disruptive queer desires and their unfolding in an increasingly rationalized society Karl Mannheim and the Contemporary Sociology of Knowledge Brian Longhurst, 1989-01-16 **Marxism and**

Totality Martin Jay, 1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Lukács Korsch Gramsci and Bloch through the second exemplified by the Frankfurt School Lefebvre Goldmann Sartre Merleau Ponty and Della Volpe up to the most recent typified by Althusser Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive decentered longitudinal latitudinal normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism Africana Critical Theory Reiland Rabaka, 2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois's Dialectics Reiland Rabaka's Africana Critical Theory innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du Bois's rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aimé Césaire and Leopold Senghor Frantz Fanon and Amílcar Cabral Africana Critical Theory endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures' collective thought and texts clearly cut across several disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in Africana Critical Theory contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy The Critique of Instrumental Reason from Weber to Habermas Darrow

this century's most important thinkers from Nazi Germany to the United States Jay explores the theories of The Frankfurt School among them the work of Theodor Adorno Leo Lowenthal and Herbert Marcuse as well such as George Lichtheim Hannah Arendt and Henry Pachter **Social Theory as Science (Routledge Revivals)** Russell Keat, John Urry, 2011-01-31
This book written by a philosopher interested in the problems of social science and scientific method and a sociologist interested in the philosophy of science presents a novel conception of how we should think about and carry out the scientific study of social life This book combines an evaluation of different conceptions of the nature of science with an examination of important sociological theorists and frameworks This second edition of the work was originally published in 1982
