Kremer, 2013-05-09 George Washington Carver 1864-1943 best known for his work as a scientist and a botanist was an anomaly in his own time a black man praised by white America This selection of his letters and other writings reveals both the human side of Carver and the forces that shaped his creative genius They show us a Carver who was both manipulated and manipulative who had inner tensions and anxieties But perhaps more than anything else these letters allow us to see Carver's deep love for his fellow man whether manifested in his efforts to treat polio victims in the 1930s or in his incredibly intense and emotionally charged friendships that lasted a lifetime The editor has furnished commentary between letters to set them in context George Washington Carver Nathan Olson, 2006 In graphic novel format tells the life story of plant scientist and inventor George Washington Carver **George Washington Carver** Martha E. H. Rustad, 2002 Simple text and photographs introduce the life of George Washington Carver *Dr. George Washington Carver, Scientist* Shirley Graham, George Dewey Lipscomb, 1946 George Washington Carver Christina Vella, 2015-09-14 Nearly every American can cite at least one of the accomplishments of George Washington Carver The many tributes honoring his contributions to scientific advancement and black history include a national monument bearing his name a U.S. minted coin featuring his likeness and induction into the National Inventors Hall of Fame Born into slavery Carver earned a master's degree at Iowa State Agricultural College and went on to become that university's first black faculty member A keen painter who chose agricultural studies over art he focused the majority of his research on peanuts and sweet potatoes His scientific breakthroughs with the crops both of which would replenish the cotton-leached soil of the South helped spare multitudes of sharecroppers from poverty Despite Carver's lifelong difficulties with systemic racial prejudice when he died in 1943 millions of Americans mourned the passing of one of the nation's most honored and well-known scientists Scores of children's books celebrate the contributions of this prolific botanist but no biographer has fully examined both his personal life and career until now Christina Vella offers a thorough biography of George Washington Carver including in-depth details of his relationships with his friends, colleagues, supporters and those he loved Despite the exceptional trajectory of his career Carver was not immune to the racism of the Jim Crow era or the privations and hardships of the Great Depression and two world wars Yet throughout this tumultuous period his scientific achievements aligned him with equally extraordinary friends including Teddy Roosevelt, Mohandas Gandhi, Henry A. Wallace and Henry Ford In pursuit of the man behind the historical figure Vella discovers an unassuming intellectual with a quirky sense of humor, striking eccentricities and an unwavering

religious faith She explores Carver s anguished dealings with Booker T Washington across their nineteen years working together at the Tuskegee Institute a turbulent partnership often fraught with jealousy Uneasy in personal relationships Carver lost one woman he loved to suicide and years later directed his devotion toward a white man A prodigious and generous scholar whose life was shaped by struggle and heartbreak as well as success and fame George Washington Carver remains a key figure in the history of southern agriculture botanical advancement and the struggle for civil rights Vella s extensively researched biography offers a complex and compelling portrait of one of the most brilliant men of the last century
